Debs Again Indicted. Chicago, Oct. 19 .- The Federal grand jury returned an indictment against Debs and the officers of the American Railway union and a large number of persons charged with participating in violence and the obstructions of the mails and commerce on the different roads last, summer. In all sixty-nine persons are included in the blanket indictments. The grand jury of last summer, called to investigate the strike, rought in a large number of indict-

ents, one for each road, in which Debs and the other officers of the union were charged with conspiring with the persons on the various roads who ommitted acts of violence. It was feared that if a conviction was nct secured on one of these indictments the Government might be barred from trying the officers of the others for the reason that the conspiracy alleged is practically the same and the officers are defendants in all the cases. In order to avoid any danger on that score, the omnibus affair on which all officers and strikers may be tried at once, was returned. The indictment includes but a few defendants who are not in the other indictments. Hill and Lockwood. BUFFALO, N. Y., Oct. 19.-Senator D. B. The talk was on voting for the fusion ticket, and a "free election and a fair" count, and all said that the Legislature must be secured by all means. Mr. Wilson declared that it would give him as much pleasure to vote for James H. Young as for any man on ticket. Hon, O. H. Dockery said he did not believe in several of the Populist doctrines; did not subscribe to their ideas as to sub-treasury, Government ownership of railways, etc. His belief was that the Republicans and Populists must pull together in this campaign to defeat the Democrats, and for that purpose only. He said "why, in four years we may be like cats and dogs. Each party can go its own way after we have done our work in November." James H. Young, colored, was the last speaker. Stocks and Bonds in New York-Grain and Provision Market in Chicago.

New York, Oct. 19.-Speculation at the Stock Exchange was more active of the bears to cover short contractors. The opening was firm, notwithstanding the engagement of \$500,000 gold for shipment to Eurepe by the steamer Ems to-morrow. The firm shipping the go'd secured it at the sub-treasury by paying legal tenders.

General Electric was heavy at one time and fell to 331 on liquidations of weak accounts. Chicago Gas, Manhattan and American Sugar also received some attention from the bears who expected to check the rising tendency by raiding these issues. Chicago Gas sold down from 761 to 75. Manhattan from 109 to 106. Sugar from 871 to 868. The hammering process had no influence on the general list which held firm throughout. CHICAGO, Oct. 19.—Reports from New York of heavy export sales at all the seaboard markets saved prices of wheat in this market from an inglorious decline to-day. Cash wheat was in good demand, red winter for spot offerings bringing to to cover December. Otherwise prices were steady.

Whilst corn displayed a willingness to advance with wheat, prices were not in touch with the weakness of that grain. The weather bureau predictions of wet weather produced marked strength in the December future during the first hour, but May was well up with it at the close. Business was not active, but the de mand was of a better character than the offerings. May corn opened from 491 to 49gc, sold from 49g to 49g to 49gc, closing at the outside, &c over yesterday. Cash corn was steady, the nominal close

Elevator operators were taking most of the offerings of oats tc-day, the tendency of prices being to sympathize with corn. No news of importance was received and, as a whole, the trade was of the usual uninteresting nature. The close was strong with May & to 1c higher than yesterday. Cash oats were firm and ic higher than yesterday.

Shorts found it an easy matter to cover their product to day without influencing prices in a perceptible manner. This was the result of the live hog situation. The receipts of the animal at the yards to-day were large, and the estimates for Saturday heavy, and prices were lower. The cash situation was another stumbling block to an advance, the demand in that quarter being of the most indifferent kind. The close was 17ic lower than yesterday for January pork, 74 to 10c lower for January lard and 74c lower for January ribs.

The Pollard-Breckinridge Case. Washington, Oct. 19.—On a motion by Mr. Calderon Carlisle, for Madeline Pollard, in the case of Pollard vs. W. C. P. Breckinridge of Kentucky. the Court of Appeals for the District of Columbia ordered the appeal which had been asked for in this case stricken from the docket of the court, on the ground that it had not been entered within the statutory line. This ends the litigation as far as the courts of the District are concerned and leaves the plaintiff free to collect her judgment of \$15,000 and costs from Col. Breckinridge when and how she can. Mr. Breckinridge's salary for the remainder of his Congressional term is exempt by law from seizure, and there is no provision in the laws of the District of Columbia, as there is on the statutes of some of the States, for the arrest and detention of any person about to leave the jurisdiction of the State without complying with the judgments of its courts.

In making his replies he became badly tangled up, and this adds to the suspicion that he is one of the men wanted. Morganfield denied that he had been

in Cumberland, Md., but when a pill box found in his pocket with the name of a Cumberland druggist on it, was produced, he was nonplussed, but finally said he had been there. He was asked if any word could be sent to his relatives, and at first he denied having any. Subsequently he said that he had relatives, but he would not tell where they lived. Last night a well-dressed stranger called at the hospital and asked to be allowed to see the prisoner. This was refused and the stranger left. The police authorities are looking for this fellow and feel confident he is a pal of Morgan-

This morning a careful inventory was taken of the property belonging to the prisoner. It was found that the valise he carried tallied exactly with the telegraphic description of the one carried by the suspect. He had a telescope valise and when it was examined it was found to contain \$110,71 in money, a soft brown felt hat, a blue striped calico shirt, an undershirt, one pair of suspenders and a new silk handerchief. In his pocket was a 45 calibre Colt's single action revolver with all the chambers loaded. A black handle two bladed knife of medium size was found near the place where he broke his leg. It was partly buried and was covered with mud, showing that he had used it to dig a hole. The fellow will not explain why he buried the knife and the police think that it is an important link in the chain of evidence. He also had a pair of gold plated cuff buttons and a small diamond ring which were taken. The Adams Express company has attached the money found on Morganfield, (\$1,100 in all) There are three more of the thieves still at large and the local police have every reason to believe that they are somewhere in this neighborhood. On a farm near Chester Park the de tectives this afternoon found a bottle of laudanum. In the bottle was blown the name "Ogram, 1213 Pennsylvanian avenue, Washington, D. C." This bottle was found where Morganfield was ar-

rested. He was in Washington with Searcey. Near the spot where Morganfield broke his leg while trying to board a freight train, they found the broken point of a knife blade, it being supposed he was trying to dig a hole in the earth to conceal something. Marks were also found on the ground, indicating that he had dragged himself to the creek nearby after being injured. It is thought he then threw something into the water. It was learned that a one legged fellow who has been hanging around St. Bernard, called at German's farm house Wednesday and took away a bund'e given him by the supposed robber. It is believed that this bundle contained a greater part of the "swag." The officers are to-night scouring the neighborhood for the onelegged man. A flash photograph of Morganfield was taken to-day to be for-

warded to Washington. John Carley, teamster, says that or Wednesday afternoon, a short time after Morganfield had been removed to the Giesman house, a well-dressed stranger accested him and asked where the intold, but the man did not go to the \$500, or both, in the discretion of the ROME, Oct. 19.—A bomb with a lighted Gesman residence. NEW YORK, Oct. 19 .- For weeks the members of the Lexow committee have been listening to the stories of the amounts of money paid for "protection," from the proprietors of soda water fountains of the city up to the French Trans-Atlantic and Cunard steamship companies. But to-day they were startled from their seats in the committee room to learn that even the Lexow Investigation committee itself had been weighed in the balance by the gamblers, greengoods men and policy backers of the city. It was claimed that their price had been fixed at \$70,000. Counsel Moss, who is assisting Chief Counsel Goff in conducting the cross examination, remarked when this bit of evidence was divulged: "These gentlemen proceed upon Sir Horace Walpole's theory that every man has his price."

angrily. Senator Bradley whistled softly, Senator Cantor only smiled, while Senator Robinson appeared thunderstruck. Mr. Coff inquired whether a pool was being made up for the purpose of securing "protection" from the committee, but the witness assured him that he knew nothing about it, if such an attempt was

being made. There was the usual grind of cases during the morning. Walter Valentine, of the Stearns Commission company, accused of dealing in bogus stocks, said that he could not find the detailed state ments of his business asked for by the committee at the previous session. His answers were so unsatisfactory that the police were requested to arrest the proprietors of the place and later in the day Superintendent Byrnes closed up the

Mr. Goff then said that the children of Mrs. Urchittel were in court. "The officials," said he, "of the Hebrew Children Sheltering Arms society have surrendered the children reluctantly to their mother. I am especially pleased because this is the first case where an institution has given up children without the consent of the Gerry society." "Call Mrs. Urchittel.

Just at this moment the door of the court room opened and Detective Bennett led in the three little children of Mrs. Urchittel. The moment she saw them she rushed towards them and seizing the little boy clasped him to her bosom. She kissed him again and again and sobbed aloud with joy. Then she embraced the other two children and kissed them. There was scarcely a dry eye in the court room. "Thank you, thank you, Mr. Goff,"

Finally she and the children were led from the court room. It was the most sensational incident in the entire proeedings of the Lexow committee. Mrs. Urchittel's children were taken from her, and she herself was arrested on the charge of being a disorderly person by officer Hussey. The story of per-secution she told before the committee was a most pathetic one. The Lexow committee adjourned

until next Wednesday morning. Business Failures. New York, Oct. 19.-Dun & Co.'s weekly report says: The failures in October thus far have been quite moderate in strictly commercial lines, the liabilities amounting to \$3,821,937, of which \$1,-93,636 were of manufacturing and \$1,996,636 of trading concerns. Son e failures of banking, investment and loan concerns, not here included, have not proved of general importance. During the past week the failures have been 253

One Tramp Killed by Others. ELMIRA, N. Y., Oct. 19.—Ten tramps ecame engaged in a quarrel at South Waverly, Pa., this morning. Nine of them took the tenth, strung him up against a wall and shot him to death. The tramps, who are believed to be foreigners, escaped. One stranger was arrested. He refuses to give his name, but says he was an eye witness to the shooting and can identify the person

Consumption.

The incessant wasting of a consumptive can only be overcome by a powerful concentrated nourishment like Scott's Emulsion. If this wasting is checked and the system is supplied with strength to combat the disease there is hope of recovery.

Scott's Emulsion

of Cod-liver Oil, with Hypophosphites, does more to cure Consumption than any other known remedy. It is for all Affections of Throat and Lungs, Coughs, Colds, Bronchitis and Wasting. Pamphlet free.

is a well pleased customer. We don't expect to make our everlasting fortune this year, but we do expect to so increase our following, that success will be ours in the terrestial bye and bye. Just now then, we would rather make customers than money—rather have a big crowd and a small profit than a big profit and a small crowd. Eventually, we know, like Constantine-
