The Ministry to Advance the Anti Lords Resolution - Preparations for a Very Vigorous Campaign Against the Peers-Hints of an Entente With Russia -Tolstoi and the Late Czar.

LONDON, Nov. 10 .- The explanation mad at the last meeting of the London county council by certain members of that body who are also prominent in the Social Purity league, of the charges concerned in various fraudulent practices. bear out the allegations of jobbery at the expense of the rate payers, Commoner Boulnois has consequently given notice of a motion that is equivalent to a vote of censure. It has further transpired that corruption under the protection of the council has taken the form of blackmail by subordinate officials supporting trade unionists against free labor men, and that men have been excluded from employment unless they pledged themselves to vote for the "progressives." "This immature Tammany," says the hos-

tile press. "must be nipped in the bud." At yesterday's Cabinet council the Ministry definitely decided to put the resolution for the abolition of the veto power of the House of lords in the first place on the programme of the legislation, to be considered at the coming session of Parliament. Following this measure will come in order the Electoral Registration bill, the bill for the disestablishment of the Church in Wales and Morley's Irish Land bill.

The Government supporters are firmly convinced that it is possible to pass the anti- 203, Tennessee, 157. All other States and Lords measure before the dissolution Ferritories, 200. Parliament and have instructed the party managers throughout the country to organize the agitation against the House of Lords and to arrange for demonstrations at various points without delay, and the movement against the Upper House promises to become as enthusiastic and widespread as any reform agitation ever known in the country. Lord Rosebery to-day visited Gladstone for the purpose of consulting with the ex-Premier on the general position. A vigorous private canvass among the wealthy Gladstonians has already realized for use in the campaign against the Lords and for election purposes nearly £250,000, as the Conservative papers allege. The state of the election fund will enable the executive committee to promote the candidacy of a number of workingmen who are not associated with the Socialists and of the independent labor candidates. The Conservatives, on their side, being unable to work the popular vein, will send lecturers everywhere. The chief of these campaign lecturers is the author, W. H. Mallock, who will attempt to educate the public on the relations between labor, capital and property. Lord Rosebery in his speech at the Lord Mayor's banquet in the Guild hall last evening, hinted at the possibility of an entente with Russia being reached. The Prime Minister did not reveal the exact line of diplomacy to be followed to reach the desired end, but stated that it had received the sanction of the Cabinet and would effect such an arrangement with Russia as would be counter to the French policy. An article which appeared in the Daily News signed "Diplomat," but known to have been inspired by Lord Rosebery, urges the settlement of both European and Asiatic difficulties with Russia, and suggests the construction of extensive Russo-Asiatic railways to meet the strategic lines in India, making a continued trading connection. No policy such as advocated by "Diplomat," however, has been foreshadowed by any Government organ, and it is generally believed that Lord Rosebery grounds his plans upon the hope that the regione of Emperor Nicholas II, will be favorable to the establishment of close rela-

NOVEMBER COTTON CROP.

Improvement Over the October Report-Fine Weather for Picking -Top Crop Matured-Rapid

> Gathering and Marketing -Average Per Acre.

WASHINGTON, Nov. 10 .- The cotton returns of the Department of Agriculture for the month of November show an improvement of the prospects as compared with the returns of last month. This is due to better weather, and is especially noticeable in the States of Alabama, Mississippi, Louisiana and Texas. The favorable weather, besides improving the crops, has greatly facilitated picking. In Alabama the crop has been nearly all secured and much of it sold. In Mississippi many counties report picking as closed, and considerable improvement in the crop over the indications of October. The average estimate for the State of Louisiana is reported as raised because of the favorable weather for picking during October. The crop in Texas maintains the high average formerly indicated. The weather has been quite favorable for picking and nearly three-fourths of the crop has been gathered. A greater despatch has been noted in harvesting the crop than in any former year, and it has also been marketed in large quantities. Injuries to the crop in some parts of the State from excessive moisture, causing rust and rotting of bolls, have been more than counterbalanced by the favorable conditions that existed in other parts for maturing the top crop and for picking. No great damage from frost is reported. In Arkansas the weather has also been favorable for gathering. The increased product of that State, as compared with last year,

is due to the fact that much land that was overflowed in 1893 was planted in cotton this year.

Indications of the average yield per acre for the entire cotton belt is 191.7 pounds, distributed by States as follows: North Carolina. 210; South Carolina, 168; Georgia, 155; Florida, 110; Alabama, 160; Mississippi, 195; Louisiana, 230; Texas, 235; Arkansas,

The Hundred-Pound Freight Rate Rescinded-The Horse Sale-University Seniors to Wear Caps and Gowns-Sudden Death

> of Treasurer Lougee-**Fusion** Legislative Majority. MESSENGEE BUREAU, } RALEIGH, N. C., NOV. 10.

Maj. Wilson, chairman of the Railway Commission, received a letter to-day from Traffic Manager Culp, saying that the "100 pound rate" on freight had been rescinded and that the charge on a package from any point on the Southern railway will be only 25 cents. Heretofore all packages have been charged as of 100 pounds weight. The commission has made earnest and now successfull efforts to secure the change, shippers having made a great many complaints of the the high rate. It being an inter-State matter, the commission could not reach it by an order of their own. This will necessitate a change on the part of all the associated railways.

The horse sale here did not attract nearly so many buyers as it ought. Capt. Williamson, who makes these sales, said prices were satisfactory. Good horses brought pretty good figures. Medium horses ruled low. Times are hard and buyers are extremely careful. Mr. W. L. Kennedy sold four for \$1,210 from his farm at Falling Creek. Lenoir county. Col. Julian S. Carr bought four horses. Capt. Smith, of the United States navy, was also a buyer. Yesterday \$5,250 was received on the sale.

The market house is as yet unoccupied. A new floor, of cement was put down, but the committee, it appears, declines to accept this, on account of some cracking and scaling.

Was Sam Small Guarded by Police, men?

ATLANTA, GE., Nov. 10 .- The Constitution of Thursday printed a card from Sam Small to the following effect:

"NORFOLK, Wa., Nov. 7th. "The report printed by the Constitution Tuesday, wired from Roanoke about my speech, and that police guarded me, was not correct in any particular.

SAM W. SMALL." Signed.

"ROANOKE, Va., Nov. 10th. The following explains my position on the article I sent out from here on the night of November 5th in regard to police protection for Sam W Small

"To H. A. Coleman, Editor Roamake Times .: "At the request of a prominent prohibi-tion leader, I furnished extra police protection at the opera house in this city on the night of November 5th. This gentleman informed he had heard that threats had been made against the life of Mr. Small, in which event he proposed to step is and be shot himself, if necessary. I also, on my own responsibility, detailed policemen to meet the train on which Mr. Small was expected, in order to prevent a breach of the peace. [Signed.] H. N. DYER, [Signed.] peace. Chief of Police.' "In addition to this, Sergeant of Police Gold informed me he had been requested by a member of the committee who had the meeting in charge to furnish police protection for Small from the opera house to the depot on his departure and that he detailed two policemen for this purpose, one march-ing on each side of Small. The sergeant walked directly behind the party. The police sergeant is out of the city at present or I would get an affidavit from him also. H. A. COLMAN, [Signed.] Editor Roanoke Tsmes."

fairs, and Walker of Masschausetts Banking and Currency committee. Conrad N. Jordan, Assistant United States

Treasurer at New York, arrived here this morning quite unexpectedly and was in close conference with Secretary Carlisle at the Treasury Department for some time. He returned to New York on the noon train. Assistant Secretary Curtis is authority for the statement that Mr. Jordan's visit had no connection with any contemplated bond issue. Those close to Secretary Carhisle state that the Secretary himself will not speak on the matter and intimate that people in New York "seem to know more about a contemplated bond issue, judging from the papers, than we do in the Treasury Depart-ment at Washington." From the last bond issue the Treasury only received \$38,000,000 of gold net, and from a bondassue now, while it would increase the Treasurer's general balance, no one at all acquainted with the treasury finances believes that \$25,000,-000 in net gold would be received for \$50, 000,000 in bonds, premium included.

The treasury general balance stands at \$105,009,000, of which \$62,000,000 is in gold \$8,000,000 above the lowest point reached last summer, and treasury officials again say they see no reasons now that did not exist more emphatically last summer for strengthening the gold meserve. The available balance outside of the gold reserve is to-day \$43,000,000, when at the time of the last bond issue it was less than \$10,000,000. An increase, rather than a diminution of revenue is looked for. So far this month the receipts have aggregated \$6,000.000 and the expenditures \$11,000,000, of which \$5,000,000 have been paid on account of pensions. The custom receipts for the ten days of this month reach \$3,737,000, an increase of \$200,000 for the month but a loss for the fiscal year to date of \$2,000,000 as compared with the same period of last year. Internal revenue receipts for November have aggregated \$2,500,000, a loss for this month so far as compared with the ten days of November, 1893, of \$1,000,000, but an excess for this fiscal year te date as compased with the corresponding period in the fiscal year of 1893 of \$15,000,000. This condition of the treasury is pointed to as showing evidence of improvement which began two months ago, as indicating no immediate necessity for a bond issue.

The Republicans and Populists will contest Savers' election m the Ninth district on the grounds of intimidation and gross irregularities in Washington county, which gave Sayers over 1,000 majority, and because of the use of whisksy and irregularities in Travis county. LEXINGTON, Ky., Nov. 10.-The official count in the Tenth district to-day shows that Joe M. Kendall (Dem.) is elected to Congress by 104 plurality over N. T. Hopkins (Rep). This makes Kentucky's delegation six Democrats and five Republicans. GALVESTON, Texas, Nov. 10.-Late returns

in the Texas Gubernatorial situation show that Culberson's majority is between 40,000 and 60,000.

The Congressional situation to-night stands as follows: First district, Hutchison (Dem.) 5,000 plurality; Second, Cooper (Dem.) 8,938; Third, Yokum (Dem.) 2.372 Fourth, Culberson (Dem.) 3,407; Fifth Bailey (Dem.) 8,002 plurality; Sixth, Ab Affairs: Boutelle of Maine, Navy; Bingham of Pennsylvania, Postoffice; Grosvenor of Ohio, or Curtis of New York, Military Af-2,400 majority; Tenth. Crowley (Dem.) 7,-500; Eleventh, Grain (Dem.) 1.368 majority, Twelfth, Noonan (Rep.) 950 plurality; Thirteenth, Cockrell (Dem.) 186 plurality.

MEMPHIS, Tenn., Nov. 10-The election for Governor of Tennessee is still in dispute between the Democrats and Republicans, with the outlook now favoring the Democrats. Up to this afternoon Chairman Saunders of the Republican Committee claimed the victory by several thousand. To-night he has lowered his claims to less than 1,000. Official returns are in from seventy-two counties and at the headquarters of both parties unofficial returns have been received from the remaining counties. Each side claims the victory by a plurality of less than 1,000. The official count will be necessary to determine which side has actually won.

DENWER, Colo., Nov. 10 .- The latest returns from the Second Congressional district to-day show that Bell is elected to Congress without doubt. He has a plurality over Bowen of 3,000. McIntyre's plurality for Governer is 18,706, with a few small counties to be heard from. He received 84,221 votes: Waite 65,515; Thomas (Dem.) 6,571.

The Sun's Cotton Review.

NEW YORK, Nov. 10 .- The Sun's cotton review says: Cotton declined 3 to 4 points, recovered this and advanced 1 point, in some cases lost this and declined 3 to 5 points, closing barely steady. Amid the chorus of praise of the dead Czar which is heard on all side a discordant note is sounded by a communication from the Russian followers of Count Tolstoi, which has just been published. In this communication the Czar is accused of acceding to the cruelties practised against a harmless sect whose houses were raided and plundered and whose families were driven into exile. Count Tolstoi wrote directly to the Czar on behalf of Prince Khilkoy, a rich land owner, who, for giving up his estates for the benefit of the poor was banished to the Caucasus and separated from his child ren, beseeching the Czar that the Prince's children might be allowed to join him. In response Alexander III sent a message to Count Tolstoi forbidding the latter to ad dress another communication to him.

Effect of the Elections Upon the Corgressional Apportionment of the States.

WASHINGTON, Nov. 10.-The recent election will have an important bearing upon the Congressional apportionment of the States that were captured from the Democrats by the Republicans. The result will be an entire reversal of the present order of things, and will enable the Republicans to His death is a great surprise and shock. entrench themselves again in power in several States. At present there are twentyfour States that have been apportioned by

Democrats, twelve by Republicans and eight that have never been apportioned. The twelve States apportioned under Repub-lican direction are Colorado, Iowa, Kansas, Maine, Minnesota, New Hampshire, Ohio, Oregon, Pennsylvania, Rnode Island, Ver-

mont and recently New Jersey. In the slump of 1890 the Republicans- lost and the Democrats re-apportioned California, Connecticut, Illinois, Massachusetts, Michigan, Nebraska, New York and Wisconsin. By so doing they gathered in from these eight States fifty-three members of Congress. The election of Tuesday last gave the Democrats from the same States but seven members. In addition to securing what they had previously lost, the Republicans were also successful in electing Legislatures in Missouri, Indiana and West, Va. which will enable them to make such ap portionment in those States as seem best. In Indiana the constitution stipulates that the apportionment shall not be made oftener than once every six years, but the Republicans have already begun to discuss a plan by which they get around this by means of various amendments.

In North Carolina the apportionment wil also be under control of the fusionists-Republicans and Populists. This will change the present figures there; so the Democrats will have charge of the apportionment in thirteen States, the Republicans in twentytwo, and fusionists in one. The small States of Delaware, Idaho, Montana, Nevada, North Dakota, South Dakota, Washington and Wyoming have never been apportioned.

Charged With Being a Fraudulent Concern.

WASHINGTON, NOV. 10.-Mr. W. H. Lamar, acting First Assistant Postmaster General has received from the postmaster at Norfolk, Va., several copies of newspapers in relation to the Norfolk Fire and Marine Insurance company, and the postmaster asked to be instructed what disposition should be made of the company's mail in view of the alleged fraudulent character of the concern. Mr. Lamar imformed him that the department was not justified in directing him to withhold the delivery of the mail upon newspaper articles, and he was instructed to investigate the matter and report any violation of the postal laws and regulations by the company, and whether any legal action in the matter should be taken. It is said the company represented itself as having \$100,000 in capital and that it conducted swindling operations throughout the coun-

Low Average Yield of Corn. WASHINGTON, Nov. 10 .- The November returns to the Department of Agriculture of of corn 197, which is about 11 bushels above the yield indicated by the condition figures in October. This is the lowest rate of yield that has occurred since 1881, when it stood at 18.6 bushels per acre. The yield for the present year, which must be regarded as a preliminary and not a final estimate, is less than the average for the ten years 1870 to 1879 by 7.4 bushels; less than the average for the succeeding decade 1880 to 1889 by 4.4 bushels and less than the average for the four years, 1890 to 1893, by 3.7 bushels. Early this morning County Treasurer Lewis Lougee died at his home in this city. Last Saturday, at the close of his campaign, at Cary, he caught cold. Two days ago he was attacked by pleurisy. Very few people even knew he was sick. He was about 45 years of age, was extremely popular and had been treasurer four years. He was for many years a printer and a valued member of Raleigh Typographical union, No. 54. Six months ago he was married to a young lady of Durham.

The receipts of the chrysanthenum show given by the King's Daughters were \$175. This morning the Agricultural and Mechanical college foot ball team left, to play Trinity college. The latter has the stronger team.

The Democrats now concede that the fusionists have thirty majority in the lower House of the Legislature. Hon. Thomas Settle, who was here yesterday, figured on sixty-five fusion members. Mr Butler says his figures are too low by at least ten. The following are the delegates appointed by Governor Carr to the cotton growers' convention at Montgomery, Ala.: R. C. Brown, Tarboro; J, W. Myatt, Polenta; George Norwood, Wake county; M. T. Leach, Raleigh: J. Sol. Reid, Massey's; J. W. Mc-Gregor, Lilesville.

In the course of a conversation with Populist Chairman Marion Butler the latter said he was amazed at the way in which the Democratic chairman and others overestimated their majority. He declares that he knew just what the result would be and could not be deceived in the statesments on which he based his calculations. He added that his headquarters had been opened since January 1st last. All that was required to defeat the Democrats was an organization superior to theirs. This he claims was effected, with great thoroughness. He secured accurate information and did nearly; all his work through the mails. He said furthermore that he sent to the various counties and procured lists of all Democrats who were "not enthusiastic." To these he at once sent the Caucasian, his paper, and thus 37,000 copies of that paper were sent. He declares that many of those who got the paper not only read it but paid for it As-to co-operation, he declares it strengthened greatly, instead of weakening, the Populists and Republicans, and that he knew this. fully before he went into it. He said therewould be no "crowing" over the result; in, other words, he had put no "roosters" in his Mr. Butler is full of the "non-partisan" idea in other lines as well as for justices of the Supreme court.
