TELEGRAPHIC SUMMARY.

The Alabama Legislature re-elects Senator Morgan to his fourth term-Three women are injured by jumping from windows of a burning house in Washington City - Miss Stevenson is a little better. The Vice President leaves for Washington on Saturday-Secretary of Agriculture Morton in his annual report makes a new departure. He discusses the financial policy of the Government, the silver question and many other questions of kindred nature. He wants "prime" money for "prime" farm products. The demand for the new bonds is so great that the price will be increased to 120. The treasury's receipts from the bond sale to date amounts to \$40,000,000 - Several base ball teams will go to Texas for early spring training - Governor Tillman in his message to the Legislature reviews the reforms that have been accomplished during his administration, and says that the law's delay in the criminal courts is the cause of the many lynchings in his State The A. M. E. Z. conference met in Raleigh yester-

day -- New Orleans cotton receipts are decreased by 150,000 bales by unfavorable freight rates-A Mississippi steam packet has a woman for commander-No news has yet been had of the missing bookkeeper, Seeley. The bank has brought several suits to recover possession of property bought by Baker with money stolen from the bank, then transferred to others to defraud credi tors-A man on a train in Canada suffering from a violent case of small-pox causes a panic among the passengers-Trouble bctween England and Nicaragua grows out of the expulsion of the British vice consul some time ago from Bluefields. Two Americans were expelled at the same time, but were pardoned and allowed to return, but the Britisher was not so treated, Englan 1 makes this her excuse for her present attitude toward Nicaragua. Our Government will have sufficient naval force there to show her intention to maintain her rights. -The Eastern field trials close at Newton -The freight war between railroads run-

ning into New Orleans has been settled-There are 181,250,000 gallons of distilled spirits in bonded warehouses and wholesale stores in this country-Dr. R. L Abernethy, president of Rutherford college, died vesterday-The reports of anticipated trouble in Montgomery, Ala., next Saturday are without foundation.

RALEIGH, Nov. 28.-The North Carolina conference of the African Methodist Episeopal Zion Church met here to day, Bishop Petty presiding. There are 120 preachers

KEV. JOSEPH H. WHEELER Death of an Octogenarian Methodist

The Rev. Joseph H. Wheeler, for more than sixty years a Methodist preacher, "fell askep and was gathered to his fathers' yesterday evening, at the residence in this city of his son-in-law, Maj

He was born in 1810, in Newark, New Jersey; came to Charleston when 14 years of age, where he lived for several years and then moved to Camden. When 23 years of age, while living in Camden, he felt called to the work of the ministry and gave up business pursuits in which he had been successfully engal ed to enter upon the higher vocation He joined the South Carolina conference of the Methodist Episcopal church in 1834 at Charleston and remained in the itine vant rank as a mem-ber of that conference until 1851, when a portion of its territory , as transferred to the North Carolina continence, Mr. Wheeler at the time was state ned at Fayetteville and thus because a 1. amber of the North Carolina conference, He was prominent in each conference, holding for many years the very responsible position of secretary of the South Carolina conference and doing efficient work in some of the best appointments. He was preacher in charge in Columbia, Spartanourg. Raleigh, Wilmington, Wadesboro, Fayetteville and other im-

portant points. In 1883, after fifty-one years of active service, he was superannuated and came to Charleston, his old home, and one which he had always loved, to spend his last years with his daughter. Here, as long as he could do so, he delighted to preach, and the congregations of the Methodist churches in the city and those of other denominations as well counted it a privilege to hear the Gospel from his the victim of a runaway accident, and is conference of Trinity church and when he became too feeble to preach he regularly worshipped at that church, taking his seat each Sunday within its chancel, was injured internally. He is not expected until under the infirmities of age he was | to recover.

confined to his home. The Rev. Mr. Wheeler was during his lone the noted for simplicity and purity of character. His standard of duty was a high one, his convictions were strong and nothing could induce him to do viofence to these convictions. A thorough Methodist, he believed in and preached religion as a matter of positive experience, and his daily walk and conversation illustrated the genuineness of his faith. In the memory of his life and character his sons and daughters who survive him have a heritage whose worth is above computation, and all his the bank, over and above all credits and arquaintances and friends will rememb r | set offs which he was entitled to, which he him as one who magnified high calling got in collusion with Bookkeeper Samuel (and in thought and life kept himself un-Spotted from the world. - Charleston News and Courier Nov. 28.

Shot by a Policeman. (Correspondence of the Messenger.)

WELDON, N. C., Nov. 28. A negro, supposed to be Charles Me-Allister, wanted for robbit g the post- street on the south side of Pennsylvania lady who had helped him on with his overoffice at Garysburg one night last week, avenue, which occasioned considerable exwas shot and dangerously wounded here this morning by Police officer R. J. Day. When Capt. Day attempted to arrest the front part, where all the inmates were sound man, the negro said to him, "I can whip at once. The women became panic stricken at once. There was not one who could not you" and then jerked away and began to run. Mr. Day had discovered that the negro had a pistol, and says he exthe negro had a pistol, and says he expected the negro to wheel and shoot. The ball took effect in the right side of the back and passed upwards and lydged near the breast bone. Dr. A. R. collircoffer was called in and rendered medical aid. He has not yet attempted to cut the ball out. It is impossible to say yet whether the wound will prove fatal or not. The negro claims to be from Tillery and says his name is Moses Long and that he has been working for the North Carolina Lumber company at that place.

FUNDS NEEDED

FOR THE CONFEDERATE MON-UMENT AT RALEIGH.

Eight Thousand Dollars Yet to be Raised-Progress on the Stoncwork-The Bronze Pieces-A Disastrous Railway Accident-To Contest Solicitor Pou's Election-Complexion of the Next Legislature.

MESSENGER BUREAU, At the office of the Secretary of State it i earned to-day that all the returns of election are in hand, save those for State Treasurer from three counties. These missing returns have all been telegraphed for, and it is confidently expected that they will be here by day after to-morrow, when they

The order from the War Department that Capt. Thad. Jones should return to his regiment has been revoked at the urgent request of Governor Carr, and Capt. Jones' detail to this State will continue, to the great satisfaction of his friends and himself.

It is learned to day that T. R. Purnell, Esq., who was the fusion nominee for solicitor in this district, will contest the election of E. W. Pou, Esq., basing this action upon the fact that Pou received a very large vote in Johnston county. It was this heavy vote, running far ahead of that given other nominees, which elected Pou.

Governor Carr was informed yesterday hat a man, thought to be Charles Walton, the negro murderer who is wanted here, had been captured at Burlington. To day news came that the man was not Walton. and so was discharged from custody. Some of the officials believe that Walton is in this county and near here. There are many negroes who would secrete him, just as they would any other criminal.

Your correspondent had an interview with the president of the Ladies' Confederate Monument association, regarding the monument. The granite is all cut at the quarries at Mt. Airy, and will be sent here ext week. The work of putting up the monument will then begin. The fine carving is being done at Baltimore, as there were no facilities for doing it at Mt. Airy. It is expected that this will arrive during December. The statuary and the medallions, all of bronze, cast at Munich, Bavaria, will arrive, the contractor for the work says, about January 1st. The cost of this bronze work is \$11,000. It will be paid for on arrival. The exact date of the unveiling of the moment is not yet known. May 20th next will probably be the date. The four triple lamps at the base of the monument will be electric and an electric star is to surmount the figure of a soldier which

will be on top of the shaft. The funds in hand are now \$17,000, of which the State gave \$10,000 and the ladies have raised \$7,000. There remains to be secured \$8,000. The raising of this ought to be a labor of love to the people. It will juite soon be needed. There ought to be no ieht on the monument, but it all ought to be paid for before it is unveiled. No doubt extra efforts will now be made to secure the

The Populists have made what they say is a careful calculation of the party membership in the Legislature. Here are their fig-ures: Senate-28 Populists, 14 Republicans, 8 Democrats; House-47 Populists. 38 Democrats, 30 Republicans. Five counties, each having one member, are yet to be heard from as to the House. The market house dispute is at last settled The case goes against the contractor and in

the city's favor. Yesterday afternoon there was a bad wreck on the Seaboard Air Line at Graystone. It appears that a frog broke. The engine left the rails, but did not turn over. The tender was overturned and so were twelve cars. The latter were nearly all utterly wrecked. Engineer Dan Hicks, a son of the veteran engineer, "Jake" Hicks, of the Southern railway, was in the cab. He was found some distance from his engine. and in such a position that it appears as it hips and abdomen are crushed. Yet he may recover, and the physicians are quite hopeful about him. He is slightly cut on the head. His escape from death is nothing short of miraculous Labor Commissioner R Lacy, an ex-engineer, went to Graystone repecting to bring back Hicks' body,

but he was greatly pleased to find the first reports untrue and to bring back the sufferer from one of the worst railway accidents in this section. The usual number of people are arranging to go hunting to-morrow. The sales of turkeys are extremely large. A large number of wild turkeys have been brought in, and appear to be quite abundant this year A "chapter" of orphans from the Oxford asylum gave an entertainment last evening at the city hall. A collection was taken up,

and \$101 was contributed, Mr. E. C. Hillyer is here making arrangements for the building and equipment of another ice factory in this city. At Apex, this county, there were two accidents yesterday. Mr. Enfield Council was ips. He was a member of the Quarterly while repairing a cotton gin, was caught in the machinery, whirled around rapidly, his body striking the wall at each revolution of a shaft. Some bones were broken and he

No News of Bookkeeper Seeley. New York, Nov. 28 .- There was no news

Seeley, the missing bookkeeper of the National Shoe and Leather bank, this morning President Crane said that there were fresh developments. Several suits were brought in court to-day recover property said to have been bought with the money Baker got in collusion with Seeley. The complaints are almost identical and set up almost substantially the same facts. It is charged that revious to January 1st, 1891, Baker became ndebted to the bank in the sum of at least \$2 100, money received by him belonging to Seeley and fraudulently appropriated to his own use. The complaints state that Baker died insolvent and that he made transfers of various pieces of his property for the pur pose of defrauding his creditors.

Women Injured at a Fire.

Washington, Nov. 28.-Between 10 and 11 clock this morning a the broke out in one of the disreputable houses on Thirteenth citement and probable loss of life. The car was taken off at Godrick flames originated in the back of the build. ing and quickly communicated with the fumigated and quarantined. The passendows. Three were more or less injured.
Gne is in a decidedly precarious condition
and will probably die. The second is seriously hurt, while the other is but slightly injured. A movement has recently been commenced to suppress houses of this class in this locality.

Senator Morgan Re-Elected. MONTGOMERY, Ala., Nov. 28.—The two Houses of Assembly balloted separately yes-terday for United States Senator. Senator

Morgan received twenty-three votes in the Senate and sixty-one in the House, while Reese, Populist, received nine in the Senate and thirty-three in the House. To-day both branches met together and canvassed the vote of yesterday and declared Senator Morgan re-elected. This is his fourth term and extends from March, 1895.

A Woman in Command of a Steamer. NEW ORLEANS, Nov. 28 .- The steamer Natchez left at 5 o'clock p. m. for Vicks-burg, with Mrs Blanche D Leathers, who was recently licensed, in command as cap-tain. Though there are women captains, pilots, clerks, and eyen a woman mate, this is the first instance of a woman being i command of a packet like the Natchez.

Death of Dr. Abernethy. RALEIGH, N. C., Nov. 28.—Dr. R. L. Abernethy, president of Rutherford college, died to day. He had been ill for some time. He was 72 years old and greatly loved and honored by the people of his State,

COMMERCIAL NEWS. THAT LITTLE WAR CLOUD Stocks and Bonds in New York-Th Grain and Provision Markets of

Chicago.

ings at the Stock Exchange were character-

ized by a good deal of firmness, owing

mainly to an advance of 1 per cent. in

Northwestern to 99. The rise in this stock

was attributed to purchases of about 1,000

shares for the account of a leading bear

operator. The general list failed to sympa-

thize to any extent, improving only i to i

per cent. This occasioned no little disap-

pointment, especially as London came in as

a buyer and took several thousand shares of

St. Paul and other stocks. This rise only

seemed to serve to stimulate those operating

ness. The decline was gradual at first, but

as the absence of support became more ap-

parent, the downward movement gathered

force. The apprehension of a most un-

favorable statement of earnings for October

The Sun's Cotton Review.

NEW YORK, Nov. 28 .- The Sun's cotton

review says: Cotton declined 12 to 13 points

and closed barely steady with sales of 269,

000 bales. New Orleans declined 10 points

Spot cotton here was 1-16c lower and also in

New Orleans. New York sold 104 bales for

spinning. New Orleans sold 7,000 bales and

Memphis 3,200. Ports have received thus

far this week 242,791 bales against 237,239

for the same time last week. Liverpool de-

clined 4 points for futures and 1-32d on the

spot with sales of 10 000 bales. Manchester

was weak. Silver was declining, partly ow-

Japan and the war indemnity it is likely to

demand of China. Semi-weekly receipts at

thirteen towns, as reported from New Or-

leans, were 135,000 bales, against 112,000 in the big crop year. Total receipts at the

ports this week are estimated at 350,000

ales, against 347,034 last year. New

13,000 · to 15.000 bales against

Orleans receipts to-morrow were estimated

12,698 last week and 18,551 last year. Port

receipts were 50,869 bales, against 48,869 last

week and 38,485 last year. Houston re-

ceived 9,675 bales, against 11,000 this day

last week and 5,325 last year. Augusta got

1,680 bales, against 863 a week ago, and

,032 last year. Memphis 4,657, against 1,174 last week and 3,204 last year. St. Louis

2,000, against 1,890 last week, and 2,105 last

year. The amount coming into sight this

week is estimated at 470,000 bales, against

402; for the same week in 1891, the 9,000,000

year. Mississippi offers spot cotton, it is stated, at a decline of kc, and Alabama at a

decline of tc. Mobile and Charleston ad-

anced ic, Sayannah and Augusta de-clined ic and Norfolk 1-lic. The exports from the ports to-day were 17,650 bales to

France, 21,309 to the Continent and 98,350

o Great Britain. Local and Southern

iquidation, together with liberal port and

interior receipts and a decline in Liverpool

caused lower prices here in New York to-day.

The Eastern Field Trials.

RALEIGH, Nov. 28 .- A News and Observer

special from Newton, N. C., says: With the

termination of the great selling stake, the Eastern field trials closed here to day. Two

races were run this morning and after they were finished the judges announced the winners as follows: First, Belle, owned by

Pierre Lorillard, valued at \$300; second, Tary-Jess, owned by F. R. Hitchcock, valued at \$150; third, Lady Araminta,

owned by Pierre Lorillard, yalued at \$200.

This is the second year for the club to hold their trials here, and they are very

much pleased at their treatment. The hotel

and livery accommodations were good.

Some of the party have gone, some will go

this evening, and some will remain to enjoy

THE TROUBLE ON THE NICA RAGUAN COAST.

England's Ostensible Reason for Hos tile Demonstrations Toward Nicaragua - Our Government for Some Time Expecting Such Action-Preparations to Meet Any Emergency likely to Arise Therefrom.

WASHINGTON, Nov. 28 .- It is understo hat to-day's despatches from Ambassador Bayard show that behind Great Britain's for a decline to renewed efforts, and in a short time the whole list developed weakrefusal to approve the new Nicaraguan local Government at Bluefields, the banishment of the British vice consul, E. D. Hatch plays a somewhat prominent part. When the Mosquito Indian rule was overthrown for a second time by Nicaragua last August, by the Chicago, Burlington and Quincy and the rise in exchange induced selling for both accounts and the fact that the issue of the United States felt confident that full justice would be done to foreign property the Government loan has utterly failed to holders as soon as the impetuous arder of the Nicaraguans had a chance to cool. In upon the market. Late in the day a the earlier conflicts between the Nicaraguans and the Mosquitoes (or those claiming to be Mosquito Indians), commencing in February of the present year, Great Britain and the United States succeeded in preventing excessive measures. It was while this fineries would be closed only over the Toanksgiving holiday. After Sugar the greatest declines were 13 in Delaware and ountry, with England, was restraining Nicaragua, that those inhabitants, under the youthful Chief Clarence as ruler, overthrew the temporary Nicarasuan military rule. It 13 in Northwestern to 971. 15 in Chicago Gas to 711, 11 in St. Paul to 571, 1 in Rock Island Inited States, through its diplomatic chanto 60½. 1½ in Burlington to 69% and 2 in nels, was recognizing the full sovereign-Michigan Central to 97. Final quotations showed a recovery of ‡ to 1 per cent., the lat-

ity of Nicaragua over the Mosquito territory in terms more explicit than had hitherto been use in negotiations based on the Clayton-Bulwer treaty, and that Gen. Barrios had been received by England as a Vicaraguan envoy, largely upon United states representations, to negotiate a convention which would place Great Britain in an attitude similar to that of the United States Then Nicaragua undertook to crush out the latest Clarence rebellion by drastic measures Clarence and many of his supporters fled but others, including several Americans and Englishmen, remained at Bluefields and were taken under arrest to the capital, Managua, where a decree was issued banishin them from the country. While the legality of this action under Nicaragua's constitution was never impeached, the United States regretted the proceeding, as it was clearly calculated to embarrass the negotiations which would practically abrogate the Clayton Bul-

estimates. The advantage they gained from that was further strengthened by the im-Among the prisoners banished was the market within the limits defined by them Hatch, who, however, had not been recognized by Nicaragua, and J. S. Lampton and E. D. Wiltbank, American planters. These Clarence rebellion. Lampton and Wiltbank have subsequently been pardoned and per-mitted to return to Bluefields. It is understood that the Nicaraguans have been unaffected by the repeated and persistent demands of Mr. Gosling, the British Minster, to extend a similar pardon to Mr Hatch, and that this is one of the real causes of Great Britain's present attitude. of live hogs at the yards, product found no Mr. Hatch owned property at Bluefields which was confiscated. The question of he right of Nicaragua to refuse to recog nize Mr. Hatch as a British consular offi cial is also said to be involved. For several weeks officials of the State Department have been aware of the serious

turn the Hatch affair had taken, and it is known that Minister Baker was under instructions to exercise his good offices in in-ducing the Government at Managua to re-cede from its position, and to restore Mr. Hatch's belongings, and to extend to him recognition as vice consul, with the assurance that the United States would use every proper effort to prevent any future accessful resistance to Nicarsguan sover eignty at Bluefields, Great Britain mean while to give an implied guarantee that Mr. Hatch would not be active in further conspiracy to restore the rule of young Clarence. The United States could well undertake this responsibility on account of the interests successful accomplishment of Gen. Barrios' mission in England, which could not fail to result in giving the United States an in-contestable title to any inter-oceanic canal that might be built over the lake Nicaragua

It is probable that with the appearance of he Columbia and a British war ship at Bluefields, the Nicaraguan Government will e impressed with the advantages that would accrue from impicitly following Secretary Gresham's advice and that Mr. Hatch will be promptly included in the terms of amnesty which were granted to Lampton and Wiltbank. Those Americans were pardoned only at the insistence of Secretary Gresham, who demanded that the summary proceedings which characterized their arrest and banishment should be followed by a fair trial, and what had been done without due process of law should be accomplished in a deliberate legal way. The request that similar justice be done in the case of Mr. Hatch, it is understood, was ignored by Nicaragua and Great Britian has resented the apparent discrimination. Sec retary Gresham is confident that serious trouble will be avoided.

Nevertheless, the United States has been preparing for emergencies. It is stated that Walker since his return from Hawaii has been constantly engaged for the past two months in familiarizing himself with the Central American question. It is said that he has planned, in case of emergency, of course, a scheme of operations at the eastern entrance of the proposed Nicaragua canal and our gulf ports as a basis, and further, has arranged a programme for the movements of the Pacific squadron, with the new oruiser Olympia as flagship, and the Philadelphia, Bennington, Newark, and the old cruisers, Marion, Adams, Alert and Ranger as con-

It is the intention of the Navy Department to send the Bennington to the west coast of Nicaragua in a few days. No other vessels will probably be sent South, either on the Atlantic or Pacific coasts, immedi ately, although every available vessel will be held in readiness to proceed to sea promptly upon the receipt of telegraphic

The British North Atlantic fleet consists of ten vessels - the Blake, Buzzard, Canada, leopatra, Magicienne, Partridge, Pelican, Mohawk, Tartar and Tourmaline. Of these, the Blake, which is the only one of considerable fighting power, at last accounts, was at Halifax, with several other vessels of the

his case as virulent small pox, The train authorities were notified and the passenger in the coach were wild with fright. [A is the custom of the British fleet to render-your in the West Indies every winter and during the present winter, at least, it is the brought back to Stratford, where it was announced naval policy of the United States to maintain a similar fleet of superior strength in the same waters as an evidence that American interests are not to be lightly eopardized. Secretary Gresham in person cailed at the Asheville, N. C., Nov. 28.—Vice President Stevenson has made all his arrangements to leave Asheville on Saturday next, to resume his duties as presiding officer of

British legetion to-day—a very unusual proceeding—and not finding Mr. Gosling, the charge d'affaires, there, and learning that he was only slightly indisposed, drove to his residence to lay before him the careful of the charge spatches he had received. Base Ball Clubs Going to Texas. BALTIMORE, Nov. 28 .- Manager Harrion

beside he has been staying here, is again a little better to-day, but her condition still remains one of considerable danger. MEW ORLEANS, La., Nov. 25—Secretary
Hester, of the Cotton Exchange, in the annual report of that body, says that owing to unfavorable freight rates, not less than 150,000 bales of cotton less than expected have been handled in New Orleans during the current year. The 'finture' cotton report shows an increase of speculative business, amounting to 3,000,000 bales.

| Nov. 28.—Manager Hamlon has decided to take the Baltimore base ball clip to Texas for early practice next spring. He is now in correspondence with the management of the Dallas club, with a view of securing the grounds there. The Chicago club will go to Galveston and Louisving to the current year. The 'finture' cotton report shows an increase of speculative business, amounting to 3,000,000 bales.

GOVERNOR TILLMAN In His Message to the Legislature Re

views the Reforms Accomplished During His Administration and Recommends Farther Changes.

COLUMBIA, S. C., Nov. 28.-Governor Tillman's message was read before the Legislature to-day. It is a long and interesting document to the people of the State. He reviews what has been accomplished by the reform party since his induction into office four years ago, enumerating the chief measures as follows.

The erection and endowment of Clemson college; the overthrow of the Coosaw phosphate monopoly; the just and equitable assessment of taxes on railroads and other cor-porations, and the victory in the courts, compelling them to pay; the passage of the Dispensary law and the destruction of the barrooms; refunding of the State debt, which saves \$78,000 a year in interest; the establishment of the Winthrop Normal and Industrial college for women; election of the railroad commissioners by the people and allowing them to fix passenger and freight rates; the inauguration of the primary system of party nominations for all offices in

the gift of the people.

He recommends State control of the police in those cities and towns where there the most difficulty in enforcing the Dispensary law, and thinks the Governor should have power to suspend such sheriffs and solicitors who fail to zealously enforce the law.

Of lynch law he says: "The law's delay has been a theme for the animadversions and anathemas of men from time immemorial, and it appears to me that we have in South Carolina the best system of laws and rules of court to enable men to shirk the gallows that can possibly exist anywhere. The consequence is that the people have lost all patience and almost all faith in the administration of justice. This lamentable and disgraceful condition is the direct and almost sole cause for the prevalence of lynch law in our midst."

The Bicycle Tournament.

New York, Nov. 28 .- The second day of the great international bicycle tournament at Madison Square Garden brought better racing and fewer accidents than the first. The attendance was large and the excitement was sustained throughout.

By all odds the finest race of the day was the mile professional event, in which Verheyen, the German champion, overcame Harry Wheeler's long lead on the last two laps and tied him at the pole amid wild excitement, both riding under the world's indoor record. Verheyen is the prettiest rider in the tournament and has established himself as a popular favorite. The professional ten mile event brought

ogether Zimmerman, Wheeler, Verheyen, Edwards, Berlo and Martin. It was a race for any or all until close to the finish when Zimmerman lost his pedal and dropped out. Martin seeing this sprang away and won in a rush, followed by Wheeler and Verheyen. The summary was as follows: One mile, 2:40 class, (Class A), won by T. Butler, Cambridgeport; time 2:29. One mile, scratch, (Class B), won by E. A. McDuffee, West Everett, Mass; time 2:25 1-5. Two miles, handicap, (Class A), won by T. Butler, Campridgeport; time 5 06 2-5.

Five miles, indoor championship, (Class won by C. M. Murphy, Brooklyn; time 13:05 4-5.

Three miles, scratch, (Class A), won by W, A. Barbeau, New York; time 7:56 3.5. One mile, handicap, (Class B), won by Nat Butler, Cambridgeport; time 2:23 3.5. One mile, scratch, (Professional.) Dead heat between Harry Wheeler and Alex Verheyen; time 2:22 3-5. Ten mile, scratch, (Professional), won by Wm. Martin; Harry Wheeler second; Alex-ander Verheyen third; time 27:59.

Of Interest to the South.

BALTIMORE, Nov. 28 .- The Manufacturers' Record reports that it is able to confirm on purpose. the highest authority the rumor that a large amount of the Southern Railway company's securities have been placed in England, including bonds, preferred stock and comon stock. These securities will be listed on the London market and a leading financial authority closely connected with the Southern railway intimates that this move will prove of great value to the South. It is generally rumored that the aggregate sale of these securities made in London will reach about \$20,000,000, but this has not been confirmed.

Among the railroad enterprises reported by the Manufacturers' Record was the incorration of a company to build an extension the Louisville and Nashville to Charles-Among the industrial enterprises reported were an extensive water power plant. in-cluding the transmission of electric power five miles, in South Carolina, and a 6,600 spindle cotton mill in the same State.

Great Demand for the New Bonds. NEW YORK, Nov. 28 .- The demand for the onds held by the Stewart syndicate con inues unabated. The first \$5,000,000 offered having been taken, the price was advanced to 1191, and before the close of business today the bulk of the second \$5,000,000 had been sold, so that the price will probably be advanced next Friday to 120. It was stated at the sub-treasury at noon

to-day that the total receipts of gold on account of the bond sale up to the hour named had reached a total of \$40,600,000. Yesterday's receipts footed up to the enormous sum of \$32,118,897. At this rate the Government gold reserve ought to cross the \$100, 000,000 mark to-day. Officials at the local sub-treasury do not expect that to-day's eccipts will reach yesterday's large total but nevertheless the total will be very heavy LATER—At 3 o'clock the amount of gold which the bond syndicate has paid into the treasury was officially stated to be \$43,912, 88. There were \$3,407,027 in gold deposited o-day, an accurate count of the gold depos-ted up to last night disclosing that over \$10,000,000 had been deposited instead of 38,000,000 as was roughly estimated.

Free Silver Men in C. nference. St. Louis, Nov. 27 .- A conference of free ilver leaders from all parts of the country is being held here. Among the champions of the white metal in attendance are Gen.

A. T. Warner of Marietta, Georgia, president of the American bimetallic league; J. M. Devine of Mebraska, secretary; Congress man Bryan of Nebraska; Congressman Sib-ley of Pennsylvania; H. E. Taubeneck of Illinois, Gen. J. B. Weaver of Iowa, A. L. There are two small British cruisers in the West Indies, but the Marblehead and Montgomery would easily outclass them. It is the custom of the British fleet to render the custom of the State People's party committee of Illinois, Judge C. Cole of Iowa, Col. Shinn of Kansas, and Congression this afternoon was held behind closed doors. To a reporter Gen. Warner said our future plans. If we are to have a gold standard in the United States and the world

> is of grave importance to the welfare of Prince Bismarck Prostrated, Brellin, Nov. 28.—Prince Bismarck is greatly prostrated and is being carefully watched by his physicians. 1)r. Chrisander showed the ex-Chancellor only a few of the hundreds of telegrams of sympathy and condolence received from relatives and exalted personages throughout Europe.

alted personages throughout Europe.

Prince Bismarck will not return to Varsin after leaving the castle for Friederichsruhe, and the estate will fall to his son, Count Wilhelm. It is stated that the death of the Princess was hastened by a cold which she contracted while coming to Varzin. The Schlawe authorities having neglected to provide a special train, the Princess was obliged to take a coach from that place upon her arrival there at midnight.

Highest of all in Leavening Power .- Latest U. S. Gur' Report

BY SECRETARY MORTON IN

He Discusses Financial Matters and the Silver Question as Bearing Upon the Farming Interests-Free Seed Distribution Condemned - Retaliatory Measures Against Foreign Nations as to Imports.

from that of his predecessors. The Secrenot usually treated in an agricultural report, and demands "prime" currency in return

United States might well insist upon inspec-tion and certification by such foreign Gov-ernments of all importations therefrom, whether edibles or beverages, intended for

He deals somewhat at length with the subject of the farmers' foreign trade, indicating where, in his opinion, the farmer can best find a market for his different products. The work of the bureau of anima industries, the various branches of other scientific work, and the weather bureau are highly commended. Regarding the latter. he concludes that the investment is a paying one and the service may probably come within the functions of the Government. The report indicates that the recent dis cussion in several of the large cities result-

ing in a lessening of the cost of bread and the betterment of the article itself was the outgrowth of department bulletins bearing upon the nutrition investigations recently undertaken. The Russian thistle is made the text for a

reased by exalting the standard of pu people the guaranty we ask of them. He again reiterates the conviction that the promiscuous free distribution of department publications should be abolished.

The comparison between our statistical work and that of foreign Governments is unfavorable to us. He points out the exactness of the agricultural statistics of Great Britain, stating that such exactness is reached through the revenue system of that ountry, and suggests that it might possibly be obtainable in the United States through similar agencies.

ucationally this enormous sum could be made of great advantage to farmers if expended in the publication of practical bulletins, 'New ideas being of more value than old seeds.' In lieu of \$160,000, the present appropriation for seeds, he proposes \$56,000 to be devoted to the issue of such bulletins. f seed is to be given away grafuitously at all it should be done under the direction of the several experiment stations, the appropriation of each being increased \$500 for the

A NEW DEPARTURE

HIS ANNUAL REPORT.

WASHINGTON, Nov. 28.-In many respects the annual report of Hon. J. Sterling Morton, Secretary of Agriculture, differs widely tary discusses the financial policy of the Government, the silver question, and many other matters of broad and general interest for "prime" beef or pork.

He denies the frequent allegations on the part of European Governments regarding disease in American hog and beef products, and suggests that if certain European nations continue to insist on microscopical inspection of American pork and veterinary inspection or beef, with Governmental certification to each, the Government of the

human consumption.

suggestion that seeds of new grass and other plants from abroad must be hereafter very carefully inspected. Indeed, the Secretary thinks it might be well to demand a guaranty as to freedom from weed seeds and the absolute purity and fertility of seeds imported into this country. The exports of American seeds might be vastly inand germinating fertility and giving to other He devotes several pages covered with tables in showing what the expense of the department has been each year since 1878.

The Secretary is opposed to the whole business of giving away seeds and says: "Ed-
