Terrible Accident. A frightful accident happened yesterday afternoon about 4 o'clock to Mr. W. H. Cain, who is engaged in building a large scow or flat at the saw mill of E. Kidder's Son. The frame of the boat is up, and while one of the workmen was engaged in hewing a heavy piece of timber on top and Mr. Cain was doing some work on the bostom, the timber fell on him and pinioned him by the neck against the timbers at the bottom of the boat. It struck him on the neck and shoulders, and one of the under timbers cut a terrible gash under his throat

almost from ear to ear. The other men went to Mr. Cain's as sistance immediately, and when the timber was lifted from him he was unconscious. He was immediately carried to his home, on Castle street, between Ftont and Second streets, where surgical attention was given him. At last accounts he had gained consciousness, but his condition could not be difinitely learned. Two of his teeth were knocked out, and it is feared that the vertebrae of his neck are injured.

Mexican Mustang Liniment On his horses, on his drivers.

RALEIGH, N. C., Feb. 8, 1895. Lyon Mfg. Co., Brooklyn, N. Y.

Gentlemen:-Having seen Mexican Mustang Lini-

ment extensively advertised here induces me to tell you how useful it is to persons in the livery business. I have used it for the past 18 years on my horses for almost every thing that horses are subject to. For sprains and stiff joints do not think it has an equal, and for such things as harness galls and rubs it is wonderful.

I once had a very fine driver who was thrown from his car riage in a runaway and so severely bruised about his shoulders and breast that I did not think he would ever be able to get on a carriage again. remembered, however, what Mexican Mustang Liniment did for my horses in case of bruises and had him use it constantly, and in about two weeks he was as good a driver as ever, and not an ache or I know you must get tired of receiving such letters, but thought I would add one more testimonial to the useful-Yours truly.

Senator Daniel Delivers an Address on "Americanism and the Monroe Doctrine" - The Attitude of England and America

W. Daniel, of Virginia, addressed a large audience in University hall to-night, speak ing under the auspices of the students' lecture association of the University of Michigan. His subject was: "Americanism and the Monroe Doctrine." He said that a great deal had been written on Americans. but that no one had ever defined Americanism. In his opinion, it consisted of several leading characteristics or traits that were redominant among our fellow countrymen. The most prominent one was go-ahead-ativeness, followed by self-reliance, in-ventiveness, partyism and publicity in all things. Others were patriotism, independ alism, raceism and stateism. He believed should be revised and that all voting should be viva voce. If the people want purity in politics, the only way to accomplish it is to have each man openly state for whom he has voted. This, in his opinion, is Americanism pure and simple. As the people had existed for many years without a large standing army, he was thoroughly oppose
