The road to success is full of stragglers, full of those who-because they neg-lected their health-could not keep stephad to drop from the front rank to the second, and from the second to the third, until finally they were left behind altogether. A man can't succeed in war or in ousiness, or in any other undertaking, unless he has health to carry him forward and to sustain his efforts. When he begins to lose health and strength and vitality, he begins to lose his value in the world. He loses the power of accomplishment, and so the

MARKETS BY TELEGRAPH.

THE COTTON MARKET. (Special to The Messenger.) New York, October 16 .- In its general ourse today's market was almost a unterpart of 'yesterday's. January pened at 7.82, rallied to 7.92 and closed at 7.85 to 7.86, with the tone quiet. The movement today was rather less than been expected, but this only sufficed to prevent a decline and Mid not advance prices, except temporarily. The general feeling at the moment, is the reverse of bearish; in fact, one of the weak points of the market is that there are rather too many bulls. RIORDAN & CO.

(By Southern Press.) York, October 16,-The Sun's otton review says: Prices here were achanged. Liverpool declined 1-32d on the spot, with sales of 10,000 bales; futures there were unchanged to 1/2d with sales of 124,000 bales. The trading was dull and featureless. Liverpool news was disappointing, and prices there opened somewhat easier and became stronger on a small demand, together with some buying for iverpool and New Orleans on account, and prices slowly declined. The trop ovement for the week was somewhat duller than had been expected. There s little disposition to trade here while he receipts continue on such a large

GRAIN, PROVISIONS, ETC. Chicago, October 16.-Upward and nward was still the motto of the wheat bulls today. As has been custonary for some time past, the market opened higher than it closed on the previous day, and thereafter kept on ascending. Liverpool and other Euroean markets were responsible for the ontinued upward movement, although there was unbounded enthusiasm in this market. The government report on foreign crops giving a decidedly bad thereof was an auxiliary strengthening factor near the close. More or less excitement attended the trading all day, but the transactions were so broad and embraced such diversified interests that it was difficult o determine who was the most important operator. Reports of heavy gold mports by banking concerns did much

to encourage buying and accumulation wheat. Cash wheat was 11/2@2c The support and assistance to corn oday was mostly derived from the wheat market, though heavy withlrawals from store received proper onsideration in defining the tone. The rade was not at all important and luctuations took place on comparativesmall transactions. Cash corn was

firm and 1/2c higher. It was scarcely within the scope of possibility for oats to other than advance, considering the surrounding \$1.771/2.

\$6.85. \$6.90; January \$7.90. \$7.721/2, \$7.771/2.

Lard—December \$4.25. \$4.25, \$4.15, ial, there was, however, a moderately active market at firm prices. Cash \$4.175 oats were steady, closing firm and 1/2c \$3.825

steady, but scapt attention was paid o it, the animated wheat market offering greater attraction as a motive. The advance was not sustained, owing to whiskey \$1.18. selling for realization purposes. January pork and lard each closed 21/2c lower than yesterday, and January ribs ern flour quiet, firm; common to fair 234c to 5c lower.

FINANCIAL. New York, October 16.-Money on call firm at 4@8 per cent.; last loan at 4 and closing offered at 4. Prime mercantile paper 8@9 per cent. Bar silver 651%. Sterling exchange inactive with actual business in bankers bills at \$4.80% @\$4.81 for sixty days, and \$4.83% @\$4.84 for demand. Posted rates \$4.81% @\$4.84%. Commercial bills \$4.80. Govstrong, railroad honds steady. Silver at 'the board firm. Treasury balances: Coin \$125,558,575; currency \$59,670,157.

y light, the sales amounting to only 105,156 shares of which 28,700 were Sugar, 19,100 St. Paul and 7,100 Manhattan. the opening the tendency was downward, Sugar falling a point to 0614 on the reported combination of the outside refineries. A denial of the story led to a recovery to 107%, but

near the close the price dropped back to 107. The early weakness in the general list soon gave way to strength, but the advance failed to stimulate trading. The most favorable development of the day was the engagement of over \$3,000,-000 gold in London for shipment to New York. The arrivals were also heavy aggregating \$1,652,500. A brisk demand prevailed for the metal and local bull-ion dealers raised their commissions slightly. Imports are likely to continue as long as the metal commands a premium here and money rules stiff. The failure of the market to respond to the gold importations is due to the fact that certain commission houses are discouraging it pending the national election. The dearness of money also operates against a broad speculation on the bull side of the account. In consequence the fluctuations in the Grangers, Southwesterns, Anthracites and Western Union were confined to narrow limits. Manhattan was especially firm, rising 11/2 to 91% to 91% Bay State Gas was depressed on the appointment of receivers and broke from 10% to 7%. Speculation closed barely steady. Net changes show advances of 1/8 to 7/8 per cent. In the specialties, Consolidated Gas declined casks spirits turpentine, 410 barrels 21/2 to 142. Flint and Pere Marquette preferred, brought 34, against 40 the

STATE CAMPAIGN.

The democrats of Beaufort have nomnated Mr. Aug. Eatham for the house. He is a Disciple preacher, and is the father of Editor H. A. Latham, of the

Washington Gazette. The populists and republicans have mplete control of the election machinery in North Carolina. Of course they will give the people a fair election. —Give us complete fusion, Messrs. Manly and Ayer, for partial fusion is a farce.—Tarboro Southerner.

here There are populists right in Pitt county who are work-E. V. Cox they had as well vote for ote that way.—Greenville Reflecter. Richmond Pearson acknowledged at Waynesville that he is making his campaign tour on a railroad pass. Mr. Adams is paying his way. But Mr. Pearson is a "straighout republican" this fall, and is entitled to the smiles, etc., of the corporations and trusts! Asheville Gazette. Everything is not now altogether lovely with the rep-pop., combine in this county. There is widespread discontent on both sides among those who are in their party not for "spoils" but

principle. The populists are swearing they will not support certain republic can candidates on the ticket and the republicans are refusing outright to vote for certain populists, and so it goes.-Goldsboro Headlight. Mr. F. M. Simmons said in his speech at Bayboro: "Six months ago there were 30,000 negroes in the populist party in North Carolina. Two years ago nine-tenths of the country negroes declared themselves populists. Within the last sixty days, the republican man-

agers have sounded the bugle call, and they have gone back to the republican party, though they know the gold standard is impoverishing them and robbing their families. Here and there one sticks to silver, but he is as rare as a republican negro was in the country two years ago. News comes from almost every townthip in the state that there is great lissatisfaction over the so-called fusion n many counties by which the pop-lists are expected to vote for goldbugs or the legislature, and that many pop-

lists declare that they will scratch every goldbug who is put on their tick-et.—Chairman Holton has a populist arrested in Winston because he seeks to be certain that parties desiring to register are bona-fide citizens. As the agent of his party. Mr. Holton has this onest populist registrar brought to Raleigh, subjecting him not only to great humiliation but also to great expense. And for what? Because he sought to secure a fair election at his own town.-Raleigh News and Observ-

Messrs. Locke Craig and R. R. Davis, lectors-at-large on the Bryan ticket, will begin their canvass of the state speak at Concord on the 16th. They will speak in Charlottee, probably during the last week of the campaign. The democratic and populist state chairmen have both issued posters announcing the canvass and the two parties will jointly participate in the

meetings. The biggest democratic rally that has been known at Hickory Grove in ten years was held there last night. Messrs. Dowd and Clarkson addressed the crowd. Chairman Robertson was on hand to say a word to the faithful. -Hon. R. B. Glenn spent yesterday in the city and left last evening for Concord, where he spoke at 8 o'clock p. m.—Gastonia, October 14.—Judge Russell spoke here this afternoon to a small crowd of white republicans and negroes and a few democrats and populists. Most of his speech was taken up in discussing democratic election frauds. He said the democrats rottenegged Butler into the senate and they are now engaged in licking the eggs off and offering him eggs cooked in the most palatable style. A good deal of his speech seemed to have been directed to the populists, advising them to stick to rep-pop fusion. --- Monroe, October 4.-Dr. Cyrus Thompson, the foxyfaced populist of the state of Onslow, spoke to 185 of the faithful here today. The burden of his song was abuse of democrats, and he lambasted them a-comin' an' a-goin'. " He made' very polish and absurd remarks about demo ocrats not being in earnest on free silver and scared up the old gag about democrats taking away the rights of the populists to vote in case the dem-

ocrats get in.—Charlotte Observer.

(New York World.) The World's Havana advices show that since General Lee took hold o American interests in Cuba, he has attempted not only to secure proper treatment for American citizens, but also to assist the merchants of Havans in securing a peaceful settlement with

General Lee has failed in both attempts, not because of lack of ability and zeal, but because he has been constantly checked from Washington. It was understood when he left for Havana that his work was to be largey instrumental in terminating the war. But since then the department of state has issued another proclamation in Spain's favor, and the cuban secretary of war has been arrested and imprisoned in New York on the unsupported statement of Pinkerton detectives hired by Spain.

Consul General Lee has not yet re signed, but it is hardly to be expected that his manliness and his well known Americanism will allow him to hold office much longer, in view of the humiliating attitude in which the state department places the country.

Reed's Ratreating Policy.

The Hon. Thomas B. Reed's article two years ago in The Contemporary Review, if brought up to date, would make him a supporter of Bryan and Sewall. It declared that owing to the suspension of the free coinage of silver by the western world and the consequent fall in silver, India and Argentina were superseding the United States in wheat production, and rising into formidable rivalry in cotton. "The vellow man," said Mr. Reed, "with the white metal, was getting the better of the white man" (i. e., the American farmer) "with the yellow metal." Why did not Mr. Reed introduce hat pithy sentence into his Old Orchard speech? Why was he com pelled to fall back on that ancient saw about the absence of strikes in Africa? If he could perceive two years ago that American farmers were suffering because of their adhesion to "the yellow metal," in their cometition with the wheat raisers of India who were using the white metal. and if this is precisely the grievance which the democratic party now aims to redress, why are not Mr. Reed's wit and sarcasm trained on the same side of the fight now as then? Does the substantial grievance of

two years ago, when Reed thought that the republican party would undertake to redress ft, become only "great prom ises and wild harangues" when demo crats set out to correct it?-New Yor Journal.

A leading colored man recently stated n Wilmington: "It don't make any ing for the straighout goldbugs difference if Russell did call us savages on the fusion ticket. If they vote for and say we stole six days in the week and prayed off the sin on Sunday. We are not voting for Russell but for our negro city clerk in Wilmington, seventeen negro magistrates in New Hanover county, and that Russell helped us to get them. He may talk against us but he helps us to get office."---Morganton, N. C., October 14.—(Special)— Two thousand people were on Burke fair grounds today. Fusion with the populists approved almost unanimously by our people. Vinton, goldbug. speaks here tonight. The eel we prooose skinning is named Russell, and all our fool friends cannot prevent it. The talk about humiliation is rot. The real humiliation would be the loss, of the state to the negroes. C. M. McDOW-ELL, Chairman Co., Com.-Raleigh
