Germany and the United States.

ountry, which is now in favor of main-

neither would the president, for that

matter, so that the suggestion of Euro-

pean interference, if it had any effect

There are many reasons why Ger-

nany should not do what the Paris dis-

sugar and tobacco, but these are

in the United States, not to enumerate the immense holdings of German-

American citizens of this country.

Moreover, Germany has a merchan

marine which has grown to great di-

mensions in the past few years, keep-

ing pace with the marvelous develop

ment of German manufactures and the

extension of German commerce. Wa

with the United States would mean war

country, upon the property of hundreds

German descent, and last, but not least

the loss of all of the business with

Cuba. Germany's principal loss, how-

ever, would be the damage inflicted up

on its merchant marine. It has not a

navy sufficient to protect its shipping

interests, which would be at the mercy

of the privateers fitted out in the

United States to prey upon its com-

merce. A blow would be dealt from

which Germany could not recover for

many years, and Great Britain, of

which it is now a formidable commercial

rival in nearly all the markets of the

world, would become so firmly estab-

lished that there would be little hope

For these reasons it is not likely that

Germany will give any substantial aid

to Spain if the latter should ever be

come involved in war with the United

States. However much Emperor Wil-

liam, the "War Lord" of Europe, may

be itching ot give his army and navy congenial employment, he will not un-

dertake to fight Spain's battles when

he has nothing to gain and so much to

ose by intervention. And even if his

fondness for war were to override his

prudence, he would find himself oppos-

ed by the strong common sense and conservatism of the German people,

who have no desire to enter into a con-

the Atlantic. Moreover, war with the

United States would be an invitation to

provinces of Alsace and Lorraine, which

is the dream of every Frenchman

Consequently, the statement from Paris

that Germany contemplates making

war upon the United States if our gov

upon any reasonable hypothesis, and

carries its denial upon its face. Ger-

many is too busy extending its com-

meree and developing its manufactures

to think of hostilities with the United

The little key that opens the small padlock is the real thing that opens the massive The door that will withstand the attack of a crowbar opens readily with the proper use of a key one-thousandth part as big and strong. Big things are not always the most useful or the most effective. Dr. Pierce's Pleasant Pellets are little, so small that forty of them will go into a vial no larger round than a lead pencil and two inches long. They are tiny, sugar-coated granules, but they do their work more effectively than nauseous doses a hundred times their bulk. They are for the cure of constipation. They cure the hundred and one symptom of constipation. They cure headaches, bilious-ness, sour stornach, foul breath, heart-burn, palpitation of the heart and pimples, and they assist in the cure of almost every disease with which mankind is afflicted. No one can get well unless the regular, healthy action of the digestive organs is restored. The "Pellets" will do this. One little "Pellet" is a gentle laxative and two a mild cathartic. Without causing any pain, griping or any other unpleasantness, they will restore the natural action of the bowels, and when this is done their use may be discontinued. They are not ment to supersede Nature, but to help her, and that is all she power. needs. There are druggists who for the sake of a slightly greater profit, will endeavor to sell you something else which they say is "just as good." They are trying to make a profit at the expense of your health. For the physiology of women, in health and disease, read Dr. Pierce's great work, the "Common Sense Medical Adviser." After the publication of the November report of the Burlington ernment recognizes Cuba is discredited and Quincy the market developed increased weakness. The statement of the company showed a decrease in net earnings of \$195,735, and a decrease in surplus after charges, of \$202,780. Burington and Quincy naturally scored the heaviest loss in the railway list and fell from 70% to 68%. St. Pul reacted to 7214, and Rock Island 11/2 to 641/2 Northwestern and Omaha were practically unchanged. Consolidated Gas was the feature of the industrial group, and broke from 141 to 136%, with a late rally to 139. The selling of this stock was due to the revival of the reports of \$1.00 gas. Sugar held tolerably firm, considering all talk about a war with the Arbuckles. The losses in the general list were unimportant. In the last hour of trading, the market developed firmness on efforts to cover short sales made early in the day. Sugar and Reading were the notably firm stocks, the last named having been strengthened by the announcement of the payment of the January interest in general 4's and the reported improvement in antracite coal conditions. Fire in a Church at Wilson. (Correspondence of The Messenger.) Wilson, N. C. December 28. While people were returning home from church yesterday the alarm was given that the Disciples church was on fire. Both fire companies quickly responded, reaching there just in time o see the blaze as it was hrough the walls and roof. Without lelay, a flood of water was poured upon the building from the hose pipes. Soon the floor inside was hoe deep with water. The smoke was intense, By lesperate efforts the fire was gotten unier control and the building saved. The damage, however, was great, reaching erhaps over \$1,000, partly covered by nsurance. The fire originated from the furnace beneath the church, and had gotten considerable headway before it was discovered.

Until the church is repaired the Dis ciples congregation will worship in the Baptist church, an invitation having been extended to them before the fire was extinguished.

P. P. P., Lippman's Great Remedy, Saves

a Man From Becoming a Cripple. Mr. Asa Ammons, a well-known citizen of Jacksonville, Florida, was afflicted by a terrible ulcer. Medical skill seemed unavailing in stopping the ravages of the terrible disease. The leg was swollen and intensely painful, as the ulcer had eaten its way down to the very bone. All medicines and treatments having failed to effect a cure, the doctors said the leg must come off. Just when it seemed that Mr. Ammons would become a disabled and a crippled man, he tried P. P. P., Lippman's Great Remedy, and the re-

sult was wonderful. P. P. P. SAVES HIS LEG. "Jacksonville, Fla., July 1, 1895.— Two years ago I had the worst ulcer on my leg I ever saw. It had eaten

down to the bone, and my whole leg below my knee, and my foot was swollen and inflamed. The bone was swollen and painful, and discharged a most offensive matter. My physicians said I had necrosis of the bone, and my leg would have to come off. At this stage I commenced to take P. P. P. and to bathe my leg with hot castile soap suds. It began to improve at once and healed rapidly, and is to-day a sound and useful leg.
"I think P. P. P., Lippman's Great Remedy, is all a man could ask for as a blood purifier, as I have known it to cure so meterrible cases of blood poi-

soning in a remarkably short time. "ASA AMMONS." TERRIBLE BLOOD POISON. The body covered with sores—two bottles of P. P. P. made a positive and permanent cure.
