OFFICE OF J. F. GREER, COUNTY JUDGE, Green Cove Springs, Clay Co., Fia. { GENTLEMEN: Twenty-three years ago I was attacked with inflammatory rheumatism. I was attacked by the most eminent physicians in the land. I visited the great Saratoga Springs, N. Y., the noted Hot Springs of Ar-kansas, and many other watering places, always consulting with the local physicians for directions, and finally came to Florida, ten years ago. About two years ago I had a severe attack of rheumatism, was confined to my room for twelve weeks, and during that time was induced to try P. P. New York Stock Market.

New York, January, 13.-There was another dull day at the stock exchange, the sales footing 116,126 shares. The movements in the market were exremely erratic throughout the day, although, in the main, the tendency was upward during the morning, and toward a lower range during the afternoon. The fluctuations in the Grangers, Chicago Gas, General Electric, Western Union, Reading and Missouri Pacific were confined within a range of 1/4 to s per cent. These stocks advanced to provement. Sugar, after rising 5% to to 112%, declined to 111% on the announcement that Arbuckle Bros., who are fighting the sugar trust, had made an application for a receiver for the Woolson Spice Company, of Toledo, The sugar trust, or individuals identified with it. recently obtained a controling interest in the Woolson Company, but the Arbuckles managed to secure a

St. Paul, Minneapolis Sioux City, Omaha, St. Joe, and St. Louis were all in the path of the storm last night and either snow or rain fel heavily in each place before morning. At Duluth the winds were high and Lake Superior was unsafe. Throughout Nebraska, and portions of Montana, it was snowing all day yesterday and drifts have formed in the railroad cuts. On the range the cattle can easily get to the grass under the show. Reports, however, indicate a heavy fall in tem-perature as probable and this will put a new and serious phase on the situa-tion. The Nebraska grain men are jubilant over the weather, as they say there was never so much moisture in

the state in this season as at present. Throughout Iowa heavy snows are also reported with some delay in railroad

The Chicago Markets. Chicago, January 13 .- Wheat prices apparently could not advance, and, as the only alternative was to decline, that course was, perforce, adopted. The opening and first hour was marked by considerable strength, but the selling against calls, although only the lowest figure for those privileges was touched was effective in producing a feeling of discouragement, and when a ½c break took place longs became alarmed and sold without regard to price. A further decline of %c succeeded the firs. break, and the close was practically at the inside figure. Cash wheat was weak and 1 to 1%c lower. The dullness in speculation generally has no exception in the corn pit, where business was in an inert and stagnant condition. Prices exhibited a firmer tone early, merely as a matter of sympathy with wheat, and not because any one was particularly anxious to Cash corn was %c to %c higher. Oats were as active as any of the other grains, which does not mean that the volume of trade was large. Local transactions were the only.ones noted. Prices were easy late in the session with those of wheat and corn. Cash

pushed with vigor. It is reported that f the commissioners accord the complainant a hearing interesting developnents will follow. Wheeling and Lake Erie shares developed renewed weakness, although nothing occurred to confirm the rumors current yesterday about an impending receivership, the ommon declined 1/4 to 1/4 and the preferred 3¼ to ¼. The general market was adversely influenced during the afternoon by dispatches from Washinghim. on that the senate will probably take

no action at this session on the treaty etween this country and Great Britain and by advices from the west of hostile legislation in Nebraska and elsewhere to the railroad interests in that section. The market closed quiet and barely steady in tone. Net changes show delines of 14 to 56 per cent., Sugar and Wanhattan leading, Ronde were higher. sheep. The sales footed up \$1.581,000.

ard, a gold man. New York, January 13 .- It was a dull narket today, unsatisfactory alike to bulls and bears. A disappointing Livrpool led to a lower opening but buying orders from New Orleans and Pritchard. abroad caused quick recovery to prices higher than yesterday's closings. Toward the close the market became very dull and on selling by room traders, there was a slight recession from the highest. March opened at 7.03, advanced to 7.12 and closed at 7.08 to 7.09 with the tone quiet and steady. The receipts todaw were fairly liberal. We would rather buy than sell cotton. But it may be that for weeks to come the fluctuations may be small. We advise our friends to buy on weak spots and leigh. to take whatever profits they may be able to get out of the rallies. The profits may be trifling, but that is better than seeing gains turn into losses while waiting for a decidedly higher

RIORDAN & CO. market. (By Southern Press.) New York, January 13.-The Sun's cotton review says: Spot cotton here was unchanged. Liverpool advanced 1-32d on the spot, with sales of 12,000 bales. Futures there opened 1 to 2 points higher, but closed unchanged to point up. Futures here declined 4 to points, recovered the loss and advanced 1 to 2, but reacted and closed

quiet but steady at a net advance of 2 points, with sales of 10,000 bales. Speculation today was dull and of a local, scalping nature. The fluctuations were confined within a narrow range, and at the close prices were practically unchanged as compared with last night's final figures. At the opening prices ceclined, owing to the increased semi-weekly movement. Liverpool re-

acted after a higher opening, and selling orders were received from that market. But the pressure to sell soon abated, and on a small local demand the loss was recovered and a slight advance ensued. The receipts at the ports were smaller than had been expected, and the total for the week is now expected to fall about 10,000 bales below last week's movement.

Balloting for Senator in Idaho Boise, Idaho, January 13 .- The first callot for United States senator yesterday taken in the Idaho legislature esulted as follows: Claggett, populist, resulted as follows: Claggett, populist, 30; Dubois, silver republcan, 20; Glenn, populist, 5; Nelson, populist, 3; Balan-tine, populist, 1; Copper, populist, 1; Angel, populist, 2; Cook, populist, 1; Reyburn, republican, 1;—no choice, 36 votes being necessary to elect. Five democrats voted for Clagget and Dubois polled the full strength of the silver republicans. Te populists are now making strenous efforts to reach an unlerstanding with the democrats but the

latter are holding off in hope of securing the election of a democrat, Johnson

This is perhaps the first time in the history of North Carolina when the judiciary feels that it is not lowering itself by active political work. It means danger to the state and disgrace for the judiclary.

His constant changing and shuffling is not calculated to raise him in the estimation of right thinking people, but the politicians nowadays are out for the stuff and they take the shortest cut to get it, regardless of consistency or anything else. Pritchard's position, however, is doubtless understood and approved by the republican leaders in Washington. (Asheville Citizen,)

W. J. Peele, of Raleigh, has writ-ten an article in The Progressive Farmer comparing Senator Pritchard to the old school teacher who told the school committee that it was a matter of indifference to him whether the world was flat or round; that he could teach either the flat or the round theory, as the committee desired. It looks like Jeter's convictions on finance

are just about as accommodating as that. (Washington Post.) The gold standard populists appear to be quite numerous in the North Carolina legislature.
