GUIDE TO HEALTH.

Druggist Will Egga It to You for

Tells You the Symptoms of All Common Diseases-Tells You Just What to Do for Each shows You How to Be Your Own Doctor.

Thousands of dollars have been pent by Prof. Munyon in the preparation of a people's handy health manual. One that could be understood by anybody that could read-that would render doctors' visits and doctors' bills absolutely unnecessary, and today it is as near perfect as scientific researc money and the most advanced medi-cal knowledge can make it. It is called "Munyon's Guide to Health," and it is yours for the asking. Not a penny of cost to you. Get it at your drug store. If your druggist hasn't it a postal card to Prof. Munyon.

1505 Arch street, Philadelphia, will The Munyon remedies act instantly, doses and affecting a rapid cure, even reformists, took part, and it is hinted a separate Munyon remedy for each the representative of the firm of Haup- disease and each specific has plain

A Willed Epidemie A story as weird, fantastic, and creepy as anything Poe ever wrote, thought advisable to explore that par- Ibsen ever concocted, or Maeterlinck ever conceived, comes from Richfield Centre, Ohio, That place, according to a veracious New York Herald correspondent, is suffering from an epi-demic to which the smallpox, the yellow fever, the cholera, or the bubonic plague cannot hold a candle. It is an epidemic of intangible, elusive, delusive, but none the less vocalic black cats. The sombre-hued felines, or spooks of sombre-hued felimes, enter the bedrooms of the people, no matter how tightly the rooms may be closed jump on the beds, catawaul, hiss, follow the inmates around, and cut up high finks generally, but as soon as the bedrooms are vacated the invaders disappear as mysteriously as they appear. Half the people in the town are suffering from the epidemic, we are told. They believe themselves bewitched, and the doctors are unable to diagnose the condition of affairs or give any relief. The latter incline, however, it is stated, to the opinion that the enidemic arises from some "santtary de-rangement from which a disease that

Lozas and Figuero, General Luque grows."-Richmond Dispatch. The Progress of Electric Science In spite of the adverse conditions which have prevailed during the last ew years, it is gratifying to observe that the progres of electric science has not been in the least interrupted.
This statement applies with special force to electric railways. In 1887 there has been such that in 1895 there was no less than 850 electric roads in this country, operating over 9,000 miles of track and 23,000 cars, and representing At the present time, however, a still greater activity is to be observed. From recent, reports there are 1,000 different ines in the United States, including mileage of 19,000 miles and operating 00 000 cars. In 1896 alone something like
