and toring derived great benefit from the same, having gained 11 pounds in weight in four weeks. I take great pleasure in recommending it to all un-pleasure in recommending it to all un-Cash quotations were as follows: Flour was quiet and steady; prices unand having derived great benefit from

ransactions were only 88,227 shares and a number of stocks were practically neglected. There was an indisposition to trade on all sides and even when it was announced that the senate had voted in favor of taking up the Sanguilly resolution, business remained dull and stupid, although the bears succeeded in bringing about a gen-

erally lower range of prices. Speculation at the opening was fairly firm insympathy with the receipts of slighty higher quotations from London and the leading shares improved 1/8 to 3/4 per cent. Buying orders were limited however, and as soon as the traders saw that the big operators were taking little interest in the course of the market, they lost no time in getting out. A little stir was created by the announcement that a receiver had been appointed for the Columbus, Hocking alley and Toledo road, especially as he stock declined 2 and the consolidated 5's 1/2-per cent., but the consoli-dated 5's and 6's subsequently advanced 5 to 51/2 per cent. on well authenticated reports that the road will be re-organized by J. P. Morgan & Co., and that firm will probably offer to ad-

vance \$25 a bond on the 5's deposited with them pending the preparation of a plan for the rehabilitation of the property. After the action of the senate on the Sanguilly case became known, the bears were more aggressive and a decline of ¼ to 1% per cent. ensued right through the list, the market closing weak at about the lowest point. Among the high priced issue omaha preferred advanced 2, while Consolidated Gas and New York and New Hampshire declined 1 to 11/2 per cent. The weakest stocks in the late transactions were Sugar, Manhattan.

Jersey Central and the Grangers. Sugar figured for 17,800, Hocking Valley for 10,600, Burlington and Quincy for 8,500, St. Paul for 6,500, Tobacco for 5,900, Leather, preferred for 3,600 and Reading for 3,500 shares. No other stocks were traded to the extent of 3,000 shares

Net changes show declines of 1/2 to 5/2 per cent. Sugar and Jersey Central leading. Hocking Valley was an exception and closed 1% lower on the day. The features of the trading in bonds today was the strength of the Hocking Valley issues. The total sales vere \$1,330,000.

The Chicago Markets.

Chicago, February 25 .- Wheat prices scored an advance where a decline was generally expected today. The early news was adverse to holders and the early trading was therefore at depreciated values, but as the session advanced the tone hardened and in the last hour a sharp up turn took place. New rumors of war in Europe gave shorts a fright near the close and on the buying thereby induced the final bulge resulted. Disquieting talk about the situation in Cuba was partially responsible for the early weakness. Cash wheat was irregular, closing 1/2 to %c higher. There was good buying of May corn by a large elevator concern and of September by a prominent commission house, these purchases holding the market in a very firm position during

the morning. The opening was rather easy in compliment to weakness in wheat at the start, but the fractional depreciation, which then took place, was not enduring. Cash corn was steady. The oats market was in an absolutely

stagnant condition. A few scalping operations were all that took place. No outside orders were received. The action of the market depended entirely on the strength or weakness of the surroundings. Cash oats were easy at

%c lower. The provision market started in with air activity and a firm tone, but the usiness on hand was soon transacted and no fresh orders were received Prices soon began to sag and the early advance was lost. The hog market was higher, which accounted for the opening dullness. May pork closed 2½c higher, May lard a shade lower and May ribs a shade higher.

England's Policy in the Eastern Question

Company is hereby authorized and knowing this, will sacrifice the intermpowered to lease its property and ests of their constituents and sel franchises to any railroad company principle for place.
