of F. A. Woodard and others, The illicit whiskey dealers are now shipping whiskey in boxes marked 'meat." Revenue officers have captured some The Southern railway has decided to

make Salisbury one of its terminal points. The minority populists seem to be very uncertain just where they stand. Senator McCaskey is one of the lucky ones. He left today for one of the state farms, of which he is elected assistant supervisor, with the understanding that after September 1st he will be in entire charge of it. Thomas Russell, a brother of the governor, is the new warden of the penitentiary, and W. H. Moore is deputy warden. It is significant that these were not elected by the board but were appointed by Superintendent Smith and

confirmed by the board. Secretary of state Thompson is elected superintendent of the Sunday school of Central M. E. church here. A farmer named Abraham Hester, who sued Thomas Robertson, a young farmer, for seduction of his daughter, who was under 21 years of age, gets \$1,500 damages, and the costs and lawyers' fees are \$1,000 more. Besides this Robertson is to be tried in the criminal court on the charge of trying to bribe men to swear the poor girl's character was bad.

An act of the late legislature gave the Marion and Asheville turnpike the use of fifty convicts, but the penitentiary authorities are trying to avoid furnishing them. Goldsboro subscribes \$15,000 to se-

cure the extension of the railway from

Snow Hill to that point. John B. Kenney is appointed a delegate to the southern insurance convention at Southern Pines. Some of the Baltimore papers are scoring this convention, saying it is sectional and that two kinds of letters are written by those who are promoting it. The April Bulletin of the agricultural department will be out in a day or two. It contains an interesting synopsis of the work of the department during the wenty years (1877-97) it was in democratic hands. Among its special lines of effort were the fish hatcheries (the good effects of which are yet felt), surveys of deposits of pyrites, for making sulphuric acid; exploration of the phosphate beds; the promotion of searches for coal; expositions at Vienna, Atlanta, Boston, ew Orleans and Chicago; surveys of the oyster beds; aid in the development of the sand hill region; Batteries: Ehret, Rhines and Peitz; the creation of the finest state museum in the country; the issue of valuable hand books; improvement of

nected with railroad construction in Nebraska, writes: "My heart troubled and pained me for 19 years. Shortness of breath was the constant and most common symptom. Intense, excruciating pain, generally followed any severe exertion. Faintness, hunger without any appetite; fluttering that made me clutch my breast, and palpitation that often staggered me as if I would fall, were frequent attacks. Again, everything would turn black if I arose from a stooping posture quickly. Sleepless nights with their Dr. Miles' prostrating unrest were numerous and I could Heart Cure get no rest day or night. I consulted leading phy-

Six of the warships have entered the river and two others remain in the bay. A French warship has also Dr. Miles' circulars described my case so exactly that I took Dr. Miles' New Heart Cure and I am now a well man. I hope every one troubled with heart disease will try Dr. Miles' remedies. If they will write me personally, I will gladly give them full eign minister, Senor De Soveral, in an interview this afternoon with reference to details of my experience." EDW. EDMONDS. P. O.
