More than 3,000 delegates are attending the biennial session of the Order of Railway Conductors at Los Angeles, Some men in a launch, near Bos.

Experts estimate that the proposed increase of 40 cents per barrel in the tax on beer would bring in about \$13,-000,000 of extra revenue every year. The gold yield of California last year was \$17,181,52, and of silver \$422,436-an

increase over 1895 of \$1,669,918. This is onsidered a very satisfactory showing. In Jerusalem Consul Wallace says here are 530 United States citizens. Of these 438 are Hebrews dwelling in the city for various purposes. Of the others, 92 in number, the chief portion consists of those who are there awaiting the second advent of our Lord, which they anticipate as near at hand.

GENTLEMEN: I commenced taking P. P., Lippman's Great Remedy, last Fall, for Erysipelas. My face was completely covered with the disease; I took s short course of P. P. P., and it soon disappeared. This Spring I became much debilitated and again took another course, and I am now in good condition. I consider P. P. P. one of the best blood preparations on the market, and for those who need a general tonic to build up the system and improve the appetite I consider that it has no equal. Will say, anyone who cares to try P. P. P. will not be disappointed in its results, and I, therefore, cheerfully recommend it. ARTHUR WOOD,

P., Lippman's Great Remedy, and was agree ably surprised at the result. The entire sore healed at once. I think I have taken almost every medicine recom-mended for scrofula and catarrh, and your P. P. P. is the best I have ever tried. It cannot be recommended too highly for blood poison, etc.

Yours very truly, W. P. HUNTER. P. P. cures all blood and skin disease, both in men and women. Rheumatism, which makes man's life hell upon earth, can be relieved at once by P. P. P., Lippman's Great Remedy. It makes a PERMANENT cure. P. P. P. is the great and only remedy for advanced cases of catarrh. Stop-

page of the nostrils and difficulty in breathing when lying down, P. P. P. relieves at once. P. P. P. cures blood poisoning in all ts various stages, old ulcers, sores and kidney complaints.

Cotton Futures. (Special to The Messenger.)

New York, May 17 .- There was free iquidation in the cotton market today and a sharp break in the price of the summer months was the result. Liverpool was unfavorably affected this morning by a poor Manchester market and by the reply of Turkey to the demands of the powers, and the cables brought us the very discouraging report of a decline of 2-64d there. Prices here opened 5 points lower, August selling on the first call at 1.38. For a short time after the opening the market was steady, but disgusted and disappointed bulls were heavy sellers, and rices could not be sustained. August de-lined to 7.26, fluctuated between this and 7.29 and closed at 7.27 to 7.28 with the tone of the market steady. The late months were relatively strong, losing only 5 points for the day. Until outside conditions become more favorable we are not hopeful of higher prices, but we advise extreme caution in selling this crop

NO REPORT FROM MR. CALHOUN

His Arrival in Havana-Denial of Instruc tions to Consuls to Make Reports Favorable to Spaniards.

Washington, May 17.-Up to the present moment no word has come to the department of state from Mr. Calhoun, who went to Cuba as special counsel for the United States in the Ruiz case. It is known through General Lee's dispatches that he arrived safely, but from the special counsel himself not a single word has been received at either the White house or the state department. This is no matter of surprise to the officials, because it is hardly time to be expected that Calhoun or any other person in the short period of time that has elapsed since his arrival in Havana could be in a position to report upon so difficult a subject as the actual condition in Cuba, The strongest possible denial is made at the department that Mr. Rockhill, while assistant secretary of state under the last administration, addressed in structions to United States consuls in Cuba warning them to make their reports less favorable to the Cuban cause and more favorable to the Spaniards. Mr. Rockhill is still at the state department by request of the president, alding his successor in the work of the office. He says that the statement is unqualifiedly false, Consul General Lee has informed the department of state that Jose F. Dumas, who was arrested in Cuba April

20th last, has been released by the Spanish authorities. Compensation to the Southern Railway for

Mail Service. Washington, May 17.-In compliance with a resolution of inquiry, the postmaster general today sent to the senate a statement in regard to the compensation paid the Southern Railway Company for the transportation of mail since 1894. The report shows that since January last the compensation on the division between Washington and Lynchburg per mile has been as follows: Six hundred and ninety-eight dollars for transportation; \$215 for postal cars and \$125 for special facilities. The postmaster general says that the weighing of the mails on this line last year was conducted with more than usual care and that all officers and employes of the railway mail service who had anything to do with it were instructed fully as to their duties and required to make reports of any unusual

No Foundation for the Complaints.

Washington, May 17.-Assistant Sec retary Roosevelt has returned to Wash. ington from New York, where he went to make an investigation of the workings of the rules relative to the employment of labor in the navy yard there. Mr. Roosevelt expects, by direction of Secretary Long, to go to Norfolk navy yard almost immediately to make a similar inquiry into affairs
