Dr. PAUL BARRINGER, Of the University of Virginia,

Recommends Mrs. Grier's Real Hair Restorer

A perfect remedy for dandruff and falling hair. Mr. T. R. Neel, of Davidson College, writes: In 1886 my little daughter suddenly and unaccountably lost all her

hair. From the crown down and from ear to ear was as bald as the palm of the hand. Months and months passed and the frightful baldness remained. My physician, Dr. Paul Barringer, recommended Mrs. Grier's Real Hair Restorer. Determined to give it a fair trial I bought a half dozen bottles. Three bottles of it faithfully used, produced no visible effect, but one morning, soon after beginning the fourth Bottle, to our surprise and delight, a mew growth of hair appeared and so rapid and complete was the restoration that only one more bottle was needed. Ten years have elapsed and no one has a finer suit of hair.

Less than one bottle is often effectual in checking falling hair. Read interesting history of R. H. R. MRS. M. G. GRIER, Harrisburg, N. C.

BELLAMY ROBERT R. DRUGGIST,

The Court Came Back. Judge Randolph of Kansas was hearing a divorce case last fall, says The Chicago Times-Herald. The witness was the plaintiff, a white-haired man, broken in health and in spirit, and wearing a bronze button in his lapel. The examination was severe and the

sion monotonous. You say your wife abused you; tell s just how," thundered the attorney. The witness looked appealingly at the judge. "Answer the question, sir," was the order from the bench. "Well, she said I was an old hypocrite to be proud of my war record. She said all the brave men who went to the war were killed and that only the cowards and deserters lived to come back, and-'

"Stop," commanded the aroused "This divorce is granted. The ourt spent four years in that warand the court came back." The monotony was broken for that

(Special to The Messenger.) New York, May 19 .- This was another very quiet day in cotton. The only notable feature was the purchase of about 10,-000 bales of August by the same house whose buying yesterday was so marked. In spite of this buying, the market developed no strength. The weakness in Liverpool was renewed this morning and contributed largely to the willingness of holders here to sell out their lines. August opened at 7.29, declined to 7.27, rallied to 7.31, again gave way and closed at 7.28 to 7.29 with the tone of the market quiet. RIORDAN & CO. (By Associated Press.) New York, May 19.-The cotton market opened steady with prices 3 to 4 points generally bearish crop accounts. There was a further decline of 2 to 3 points, The selling was particularly active by a prominent German house who appears to be the leading bear factor. The markhowever, was a small one, the tota sales of future deliveries reaching 61,600 bales. The feature of the early session was the buying of something like 10,000 bales, said to be for a local firm forced to cover short contracts. Several unsuccess ful attempts were made to rally markets, but reports from the cotton belt were too generally favorable for success

in this direction. The close, was quiet at a net decline of 4 to 6 points. The Chicago Markets,

THE FIGHT IN THE HOUSE

Over the Cuban Resolutions Today Likely to be a Lively One-Two Reports to be Made From the Committee on Rules. Washington, May 19.-Speaker Reed has called a meeting of the committee on rules for tomorrow morning for the purpose of framing a rule under which the house will consider the resolution passed by the senate to appropriate \$50,000 for the relief of American citizens in Cuba. The republican leaders have canvassed the Cuban question and decided practically that the house should adopt the senate resolution tomorrow and ignore the question of rec+

ognition of belligerency. 'Mr. Bailey, the democratic leader, is determined to present a minority report from the rules committee, which he says will permit him to offer Senator Morgan's resolution as an amendment to the one making an appropriation. It is expected, however, that the speaker will declare the minority report out of order. Such a ruling will result in a filibuster by the democrate if they carry out their present purpose In anticipation of this, the republicant have telegraphed to all members of The republicans say they are willing

to have a resolution for belligerency considered under proper conditions, but regard the relief appropriation a busis ness question which should not be complicated by the greater progration Many republicans are in favor of the recognition of the Cubans, but the party probably will be united in its support of the rule. The leaders fear that any action on Cuba at this time might hinder the progress of the tariff bill. Mr. Bailey says he believes recognition would lead to a settlement of the war in a short time and that the house

A red-haired woman, one with the bronze red hair, looks her best in sables and reddish gowns; a golden-haired blonde with blue eyes should select a gown of some shade of her hair with a bit of her eye blue at her throat. This, intensifying the color of the eye by a throat bow of its predominating shade, is a hint to be remembered, particularly by women whose eyes have lost some of the youthful depths of color. Edmund Russell gives his formula or artistic dressing to be: "Match the hair as nearly as possible for day and the eyes for evening wear." FOREIGN BUSINESS MEN

To Inspect Our big Cities-The Tour Through the Country-The International Commercial Conference in Philadelphia Philadelphia, May 19.-The official programme for conducting the business of the big international commercial conference and the entertainment of the visiting delegates, to be held in this city, commencing June 1st, was decided upon today the directors of the commercial museums. It provides for the business meetings and the consideration of various international questions which will come up for discussion, in addition to which a plan has been outlined to show the foreigners various points of interest within the city. The business of the conference will continue three days.

The programme contemplates the presence of President McKinley and members of his cabinet in the city on June 2nd. The president has been invited to preside over a general meeting in the academy of music on the afternoon of that day. In the evening a banquet will be held at the bourse, with covers for 1,200. President McKinley has been asked to preside and invitations have been accepted by the cabinet officers, many of the foreign ministers, the mayors of many large cities, and about 250 delegates from vari-

ous commercial bodies all over the United States, in addition to fifty or more delegates from South American countries. At the conclusion of the conference the foreign delegates will visit many of the large cities in a body, traveling on a special train. The programme as at pres outlined provides for visits to Washing-ton, Baltimore, New York, Boston, Provi-dence, Fall River, Pittsburg, Cleveland, Cincinnati, Louisville, Nashville, Chicago Milwaukee, St. Louis and other cities. In each of these cities the foreigners will entertained by local commercial bodies. This tour, which will last until July 15th. is expected to be much more important in results than the pan-American tour a few years ago.

Our lawyer friends inform us that in two cases at least the Supreme Court of North Carolina has held that bonds issued by cities and counties without any vote of the people, if issued for necessary expense, are as valid and binding in all respects as if authorized by a regular election. We are referred to the cases ofc Tucker vs. Raleigh, 75 N. C. 267, and McCless vs. Meekins, 117 N. C., 34.-Charolotte Observer.

There are some phases of oun free school system in North Carolina that have not been discussed by the papers. No man of intelligence can afford to feel even indifferent to the cause of education for it is necessarily the hope of our land; but the glittering generalities with which some enthusiasts speak and write on the matter of free schools are not quite so glittering when they are brought down ace to face with the men through whose hands and from whose sweat the money comes to run the free schools. We have thought much over the school system in North Carolina, and have never given expression before; but we believe that the ree school money for this State ought to come from the poll tax and not from property tax.-Scotland Neck Common-

But he was much too simple for the very artificial and complexly moving Senate. Tillman brings the Senators back to face the fact that the object of the inquiry in which Chapman was caught was to find out if Senators had invested in sugar stocks and were voting to increase the value thereof, "We do not want Chapman," said Senator Tillman, Havemever to talk.—Asheville Gazette. Some of those who have been sentenced to hang have had their sentences commuted to life imprisonment.
