WILMINGTON, N. C. Dr. PAUL BARRINGER,

Of the University of Virginia,

Recommends Mrs. Grier's Real Hair Restorer. A perfect remedy for dandruff and

falling hair. Mr. T. R. Neel, of Davidson College, writes: In 1886 my little daughter suddenly and unaccountably lost all her hair. From the crown down and from ear to ear was as bald as the palm of the hand. Months and months passed and the frightful baldness remained. My physician, Dr. Paul Barringer, recommended Mrs. Grier's Real Hair Restorer. Determined to give it a fair trial I bought a half dozen bottles. Three bottles of it faithfully used, produced no visible effect, but one morning, soon after beginning the fourth at times was unable to do any work bottle, to our surprise and delight, a new growth of hair appeared and so so nervous that she would have to get rapid and complete was the restoration that only one more bottle was needed. Ten years have elapsed and no one has a finer suit of hair. Less than one bottle is often effectual

in checking falling hair. Read interesting history of R. H. R. MRS. M. G. GRIER, Harrisburg, N. C.

The volume of the dealings in all stocks for the three hours of trading after the noon hour was about one-third of that for the two hours before noon. The lack of confidence in the stability of values on the part of the professional traders, who still ontrol the market almost altogether, was justrated by the promptitude with which they proceeded to take profits on rather provocation. Those who are doing away. Hubbard, Bros., & Co., were he bulk of the trading are evidently in out \$2,000 and they claimed the Posthe market for a short turn, though there tal Company, for which Morris was the was some continuance today of the com

The fall in the Rubber shares was the agent of Hubbard, Bros., & Co. coupled with a rumor that it was cause by liquidation of interests retiring on a count of the declination of a re-election by President Evans. This accentuated the decline without the sales reaching ar extraordinary volume. After an extreme decline of 3½ for the common stock and 134 for the preferred, these stocks ral ed rather strongly, the common closing at 1/2 and the preferred at 601/2. securities of the Baltimore and Ohio that were dealt in showed continued heaviness. n the belief that the company will deault on its June 1st interest payments which, including interest on both bonds and receiver's certificates, amount to bout \$600,000. The stock fell 11/2 and rallied only the fraction. Of the bonds the 5's of 1895 sold 10 points off at 80; the egistered 8 points off at 75, and the con-olidated 5's 12 points off at 90, seller twenty days. One or two other incidents served to depress values somewhat, one eing the hearing of arguments on the orler enjoining the summonses to coal road presidents to answer charges of conspiracy under the New York anti-trust out notably relieving the coal shares from pressure. Some sentimental effect was exerted upon Sugar stock by the trial of the president of the company for conempt of the senate, but the dismissal of the case at Washington yielded no substantial benefit to the stock. The stock was remarkably dull at the periods of leclines. London appeared a ready buyer of nearly all the international stocks when they fell below the London parity. NEW YORK DEMOCRACY.

State Chairman Danforth Says it is Opposed to Ignoring the Democratic National Platform.

New York, May 27 .- Elliot Danforth chairman of the democratic state committee came to town today after a trip through the interior of the state, during which he had talks with the leaders of the party.

"I have talked with leaders of the democratic party in Albany and other counties lately" said Mr. Danforth, to an Evening Post reporter, "and I found that while there is a disposition to get together, there is no disposition to ignore the platform adopted by the national convention last year. The democrats up the state believe, and I believe, that a platform adopted by the national convention of the party stands not for six months, or for a year, but for four years. The democrats of this state indorsed the national platform at the Buffalo convention, and the party stands on that paltform till the next national convention meets.

Those 135,000 voters, I have no doubt, think the same way today and I do not think they will be content to have their national platform ignored. "It is true that the democrats of the city and the state have plenty of other issues to make their fight on . The extravagance of the republican legislature, the high tax rate, the Raines law amendments and Black civil service law are good issues and may help the democrats to victory, but, as I said, the Chicago platform stands for four "Will the state organization make any declaration in that direction?" was

The state committee will meet, probably in August, to select the candidates for judge of the court of appeals and then an address may be issued, stating the issues on which we propose to make the fight. Anyhow, we shall have to address the people in some form some time that they may know where we stand. Our platform will be thoroughly discussed at the state committee meeting, and, while I cannot speak for the committee, I can say that from my talk with the party leaders, I judge that there will be no basksliding from the Chica-

There was one little incident in Rober Fulton's life about which few people know and which Fulton never forgot. Ex-Senators as Lobbyists

That is strange news which comes from Florida, that ex-Senator Call is to go back to Washington as a lobbyist. It must be that the ex-senator's friends have been moving in this matter without his knowledge or consent. For, according to our recollection, there was never in the senate a member more strongly opposed to the practice of lobbying than Mr. Call. And it was quite natural that he should oppose the practice, for it not only detracts from the dignity of the senators to have lobbyists hanging on to their buttonholes and coat-tails, but frepuently perverts the votes of the senators from the recogthe heirs of Mrs. Hallie Onberg \$50,000, nized high senatorial purpose of conthe amount of an accident insurance serving the interests of the people. policy on her life. The court held that Now, as everybody knows, Mr. Call was a mosquito bite had caused the wo- a great stickler for the dignity of the man's death, and that such bite was an senate and the fulfillment of duties to the dear people. He has even suggested that newspaper correspondents be fired out of the press galleries because they dared to suggest in their letters that certain senators were not conducing to the dignity of "the most august deliberative body in the world" and

voting in the interest of the beloved populace. We have it upen the authority of the Washington Star that there is at the apital at this time a very large profesional lobby made up of ex-senators. This body, our contemporary says, is growing in size and the boldess 'of operations." Is the gentleman from Florida going become a member of this body? The Star goes on to say with regard to it: "For some years these former members of the upper house, have set up in business in Washington with their prestige and special privileges as a stock in trade, have led all of the lobbies in daring ventures, and their services have been generally recognized and handsomely rewarded by the various interests that seek to secure favorable legislation by the particular methods best known to members of congress, and hence to retired

statesmen. What this means is that the lobbyists are employed by trusts, corporations or other interests to bring about the passage of bills which may or may not be in the interests of the people-most often not- and that they receive big pay for their lobbying. Ex-Senator Call, however, is to become a lobbyist in the interest of Florida's Indian war claims. Of course he will devote his whole attention to that matter.-Sayannah News.

The Florida Keys The word "key" is incorrect as applied to an island. It is a corruption of the Spanish word "cayo," meaning a small island. "Key West" is wrong, too. Its true name is "Cayo Hueso," or Bone Key, but we have Anglicized and got it as far wrong as possible. It is not even the western key of that chain. Such distinction belongs to the Dry Tortugas, many miles farther west. The Dry Tortugas is fortified, and was a naval post during the late war. It was also the prison of military convicts. It is a small, low, sandy island, projecting but a few feet at any point above high water. To the east several small keys intervene before Key West is reached. The latter is but a few hunhred acres in extent, but, because of its fairly good harbor, a commercial city of about 25,000 populattion has been built on its rocky face. From the channel leading up from Florida straits it presents a most picturesque appearance, with low-lying shore, fringed with the long-armed and high-tufted cocoanut palms outlined against the sky. and the little squatty dwellings. Its aspect is purely oriental and topical, and there is not a port in America bearing the least resemblance to it. Of late years the main town has assumed American airs, and several large buildings have been erected, but happily the shore still presents a vision of fair Cathay. Here is another stone fort now utterly useless, except as a tomb for its garrison in case of an attack. Modern ordinace would riddle it as though it were pasteboard. Yet, in case of war with a naval power, Key West would be an important strategic point. Sponging, fishing and cigarmaking are the principal industries of this topical city. It is the headquarters

of the sponge trade of the western

hemisphere. The fishing industry is an
