SENATOR TILLMAN

AGAIN BRINGS HIS SUGAR TRUST MATTER TO THE FRONT.

He Wants to Relieve the Committee of Further Action on His Resolution-A Heated Discussion With Senator Gallinger and Others-Graves of American Soldiers Buried at Buena Vista Desecrated-Another Day's Work on the Tariff

Washington, June 3 .- Senator Vest. of Missouri, offered a resolution reciting that the skeletons of American soldiers killed at Buena Vista in 1847 were now exhumed, and asking the state department to investigate the subject and report the facts to congress. A letter was read in this connection from Con-

The charges against him were stale, Senator Tillman said. He had met them before and he read an open letter written to the people of South Carolina, characterizing the charges as vert attention from the sugar scandal, the senator declared, but the attempt would fail. He had made no charges against the senator from New Jersey, (Smith), he declared, but had merely submitted the published charges now before the public and, since the committee had made no report on the resolution he would now move to dis-

charge the committee from further consideration of the resolution. "So that," he added, with rising inflection, "senators can now put themselves on record as to whether they want these charges investigated." . Senator Tillman dropped into his chair but was quickly on his feet again. He had, he said, approached the chairman (Jones of Nevada), of the committee on contingent expenses and had been told by him that he was ready to report the resolution but was awaiting

the action of the other two members of he committee (Jones, of Arkansas, and Gallinger, of New Hampshire). Senator Gallinger then secured recognition for a statement of the attitude of the committee, he being the senior member in the absence of the chairman, Senator Jones, of Nevada, "Every man in public life feels the sting of false charges," he said, "and must the senate pause every time such accusations are brought, to spend its time and ney general tells the marshal that the money of the United States in pursuing these charges. Persons Arrested for Counterfeiting Bonds of the Costa Rican Government.

New York, June 3 .- One of the most extensive counterfeiting plots ever discovered by the secret service bureau of th postoffice department was brought to light today when Richard D. ReQuesens and his wife Eugenia were arraigned before Commissioner Shields charged with issuing counterfeit bonds of the Costa Rican government of the denomination of 100 pesos. The prisoners were arrested by officers of the United States secret service on an order issued by Chief Hazen, based on information received from the consul general of the United States at Port Limon, Costa Rica.

Re Quesens has a printing establishment in Maiden Lane, this city and he was arrested there. No plates, dies or other counterfeiting tools were found in the rooms. The woman, who was arrested, and who said she was Eugenia Re Quesens, is fine looking and apparently about 35 years old. She told Chief Hazen that she met Re Quesens several months ago and that he told her he had "a big scheme to float in Costa Rica." She said: "We went to Port Limon about the middle of March. As to this charge of attempting to float forged bonds of the Costa Rican government I can positively say that I have no knowledge of it whatever. If my husband attempted to put any such ly that I know nothing of such a

Richardo De Re Quesens, the alleged principal in the floating of the counterfeit bonds refused to make any statement. Both prisoners were held in default of \$3,000 bail for examination on June 16th.

The counterfeits are excellent imitations of the original bonds and bear the signatures of the president, F. Pesulta, and Secretary Octuno. It is said they were issued from New Orleans. It was reported this afternoon that fully \$1,-250,000 of these bonds had been floated, but only a small portion of the bonds, it is said, have been marketed in this city. There is a story to the effect that Re Quesens and his wife went to Costa Rica to float he bonds in an effort to benefit insurrectionists in that country. It is also said that a large amount of the bonds were placed among the conspirators against the Costa Rican government.

Alfred Walcott, an English waiter in the Hotel Imperial, in San Jose, Costa Rica, is said to be under arrest there, and it is also stated that 847,000 pesos of counterfeit notes were found in his possession. It is further claimed that a bundle of the counterfeits was found in a sofa which was shipped from this

There were fifteen men in the building at the time of the accident. There was not a second's warning of the fall of the tanks. They had been filling water for testing and were nearly

of an inch thick. To prevent the water from bulging their sides, stout iron bands had been placed on each tank.

The fall of the tanks, carrying with them five floors of iron and wood work, was heard for several blocks around.

At the fall of the tanks they carried iron girders and beams a foot in width and four inches in thickness, snapping them as if they were pipe stems. There was no stopping as they struck the floors in succession, so enormous was the

weight of the tanks. All of the men who had been inside the building were got together and counted. It was found that two were missing. They were Jacobson and Frazer. A wrecking firm undertook the removal of the debris. At 4 o'clock Frazer's body later it was taken out.
