WILMINGTON, N. C. FRIDAY, JUNE 4, 1897.

THE QUESTION OF GOOD AND BAD ROADS.

It requires line upon line to make good a new plan. You must educate by illustration. Take the country roads question. The Messenger has hammered upon it year after year.

The secretary of the Farmers' National Congress, Mr. John M. Stahl, has recently published a pamphlet full of instruction and general interest upon the losses sustained by bad roads to the people.

Most coughs may be cured in a few hours or at any rate a few days, by the use of Ayer's Cherry Pectoral. With such a prompt and sure remedy as this at hand, there is no need of prolonging the agony for weeks and months.

Is the new bicycle in danger? There are doctors of established reputations who say it is very hurtful to many riders. Some are permanently injured. Then the use of it is driving out horses in the business of many kinds.

The Republicans are compelling by their unwise course in seeking to make higher the tariff taxes that the battle as to taxation shall be fought again.

THE TOWNSHIP VOTE FOR EDUCATION.

A newspaper like The Messenger that has been faithful in advocacy of education for all classes, conditions and races, can not be expected to help the country build more roads.

The south is not asleep as to cotton manufacturing. While four southern mills have recently closed because of the hard times, others are on the way.

Parents and guardians are particularly interested. The proposition to be submitted to a vote of the several townships is that \$500 be approved and paid for a corresponding sum. This will give the township \$1,000 for school purposes after the law takes effect.

Every community that it alive to education and is strong enough to vote \$500 for the schooling proposed will not be derelict. If it is said that the sum is too great, beyond the needs or the ability of the township then consider this; how much money is expended unnecessarily each year; how much for drinks and smokes and fun and frolic and travel and so on.

Most, if not all, of the new cotton mills in the south have been erected by northern capitalists who have been identified with cotton manufacturing interests in New England.

HOME FOLKS.

Several new books on "Sanctification" have appeared in the south within a few years. It may possibly split the Methodist church as it is announced that Rev. John R. Brooks, D. D., presiding elder in the Charlotte district, is writing a book on it.

Some gentlemen at Fayetteville have requested information concerning the Perry expedition to Japan. The question mooted is, did Commodore Perry open up trade with Japan or was it Secretary of Navy William A. Graham?

The Philadelphia Record showed recently how well it is posted as to the Mecklenburg declaration. It said: "Eminent authorities have pretty conclusively proved, however, that the Mecklenburg resolutions were not authentic."

Most coughs may be cured in a few hours or at any rate a few days, by the use of Ayer's Cherry Pectoral. With such a prompt and sure remedy as this at hand, there is no need of prolonging the agony for weeks and months.

THE NEW BICYCLE.

Is the new bicycle in danger? There are doctors of established reputations who say it is very hurtful to many riders. Some are permanently injured. Then the use of it is driving out horses in the business of many kinds.

The Republicans are compelling by their unwise course in seeking to make higher the tariff taxes that the battle as to taxation shall be fought again. They have been badly whipped in every battle for protection beginning with 1896. They will be defeated again, but it will take time and effort to do it.

SHARPS AND FLATS.

The anti-toxin diphtheria remedy has been thoroughly tried. The New York Medical Record reports 1,704 severe cases. The mortality was much reduced, but the death rate was as high as 21.2 per cent.

Why should southern writers class Mrs. Margaret J. Preston as one of the south's authors? She was a woman of rarest excellence, and of something very like genius, but she was born in Pennsylvania, but married in Virginia.

Mr. J. T. Graves, of South Carolina, gives \$1,000 to the University of Georgia and calls upon others to raise \$99,000—the total may be \$100,000. There are 2,100 living alumni of the university.

And now it is Dave Hill who is talking about what the great democratic party should do "to get together." What folly! He is of the kickers and can no longer say—"I am a democrat."

Parents and guardians are particularly interested. The proposition to be submitted to a vote of the several townships is that \$500 be approved and paid for a corresponding sum.

More torturing and disgusting itching, burning, scaly skin and scalp humors is instantly relieved by a warm bath with CUTICURA SOAP, a single application of CUTICURA OINTMENT, and a full dose of CUTICURA RESOLVENT, greatest of blood purifiers and humor cures, when all else fails.

There is trouble in New York in trying to enforce compulsory education. We are glad to hear it. There ought to be trouble. Here is the way it is proposed to enforce it:

COUNTY COMMISSIONERS EXPELLED FROM THE BOARD.

At the called meeting of the county commissioners last Monday quite a sensational thing was done. An order was passed declaring that the services of J. C. Hadley and Thos. Felton as members of the board of county commissioners were no longer desired, and they were thereupon discharged.

Take JOHNSON'S CHILL & FEVER TONIC.

Standard Oil shares have advanced 30 to 40 points, and sold at 312 Saturday in New York. The company has declared 20 per cent. in regular and special dividends this year, does not satisfy the street, and the less because the stock has passed the 300 mark since the last dividend was declared.

Ex-Senator Ingalls knows exactly how to put the right brand on a bad thing, and how to fibbet the conspirators against the people. He said just what he thought and foretold words that "it would be better that the tariff bill should fall than the senate sugar schedule should stand."

Fifty thousand workmen in the coal mines of Pennsylvania are on a strike. The bimetallic delegation to Europe have been well received in Paris. The bolsheroists in Iowa have declared that they will stay botlers. They will probably slide into the republican ranks and be absorbed.

Fifty Years Ago.

Grandfather's hat! And within you see, grandfather's favorite coat ready. Whether Was Asthma, Bronchitis or Croup, Or baby's nightwaked the house with a whoop, With Ayer's Cherry Pectoral Grandfather's hat and within you see, That no cold or cough would e'er fall of a cure.

Ayer's Cherry Pectoral has no equal as a remedy for coughs, colds, and lung diseases.

It is a fact that the silver men in congress are together as to currency. A recent meeting attended by the men of all parties showed this. It is said to be a fact that in every state that has given out a delirverance as to currency that the demercur is sold for the bimetallic fight.

The Hartford Courant calls the talk in behalf of Cuba in the senate "fool talk." It is much better and more patriotic "talk" than that heard in Connecticut about 1812, when this country was getting into a war with Great Britain.

Dr. PAUL BARRINGER, Of the University of Virginia. A perfect remedy for dandruff and itching hair. Mr. T. R. Neal, of Davidson College, writes: In 1887 my little daughter suddenly and unaccountably lost all her hair. From the crown down and from ear to ear was as bald as the palm of the hand. Months and months passed and the frightful baldness remained.

FINANCIAL STANDING JAN. 1, 1897. PHILADELPHIA UNDERWRITERS. Reserves for Insurance in force, \$7,000,000.00. Assets available to Policy Holders in the United States, \$1,000,000.00.

Willard & Giles, Resident Agents, WILMINGTON, N. C. ATLANTIC COAST LINE. Schedule in Effect May 27th, 1897.

ROBERT R. BELLAMY, DRUGGIST, WILMINGTON, N. C. Hall & Pearsall, WHOLESALE DEALERS IN Groceries and Provisions.
