Meeting of the Association in Charlotte. To Reduce Production - Reduction of

Freight Rates. Charlotte, N. C., June 10 .- The Southern Cotton Spinners' Association held two enthusiastic meetings here today. represented in person and 150 by letter. The letters came from Georgia, Alabama, Mississippi and Tennessee, and they heartily approved the association

The morning session was called to order at 11 o'clock by Colonel J. T. Anthony, president of the association, who

"Gentlemen, we know the purpose o this meeting is to complete our organization and take definite steps toward curtailing production of yarns and the reduction of freight rates. We have already seen a slight advance in the price in yarns and a reduction of freight rates. We have already seen freigh rates since our first meeting on May 15th. Our work is bearing fruit." A constitution and by-laws, which had been prepared for the association, was read and discussed, but were not adopted until the afternoon session This session was full of life. A motion to curtail the production of yarn mills 25 per cent., beginning June 15th, was offered and unanimously adopted.

The committee on freight rates reported that after June 15th the Seaboard Air Line road would make a rate of 25 cents per bale for cotton from all points on its line. Other lines showed a willingness to reduce the rates during the summer.

Macon, Ga., June 10 .- A special to The Macon, Ga., June 10.—A special to The Telegraph from Montgomery, Ala., says Governor Johnson received a telegram this morning from Sheriff Fulhum, of Huntsville, that a mob of 200 men had captured a freight train at Decatur and started to Huntsville to lynch two Decatur negroes, Lewis Moore and Claude Neville, charged with criminally assaults and Neille Lawton (white), aged 12 years, ing Nellie Lawton (white), aged 12 years, and sent to Huntsville for safe keeping. The train was side tracked at Greenbrier. Governor Johnson ordered the Huntsville company to report to Sheriff Fullhum under arms to protect the jail from any under arms to protect the jail from any mob. Two thousand rounds of ammunithe noon train and Governor Johnson has telegraphed the colonel of the Second regiment to hold one of the Birmingham companies in readiness to go to Huntsville at a moment's notice. a Heavy Gale Under Scaled Orders-Sur-

Boston, June 10 .- The United States cruiser, New York, the flagship of the North Atlantic squadron, with Rear Admiral Montgomery Sicard on board, Members Accused of Lying-Professors steamed out of the harbor at 5 o'clock knowing to what port she is bound, for it will only be when the big white cruiser is well outside of Boston light, with her pilot over the side, that the sealed orders from Washington will be open ed and her destination ascertained. It is generally believed, however, that when she reaches Cape Cod she will turn her nose to the southward and that her twin screws will not stop until she is some where in the immediate neighborhood of Cuba: for when she

> out laying in more supplies. The New York arrived here on May 26th to participate in the ceremonies attending the unveiling of the Shaw monument. The battleship Massachusetts came with the flagship, while the battleship Texas had arrived some days previously. The Texas left a few days ago, but the other two ships have been swinging at their moorings off the navy

started she was fully provisioned and

coaled, and could, if necessary, go as

far as Gibraltar or Rio Janeiro, with-

That Rear Admiral Sicard must have had some inkling of an important cruise seems probable from the fact that for the past few days the entire crew of the New York have been at work getting the ship ready for sea, while her coal bunkers have been filled to overflowing. It was supposed, however, that the cruiser would run around to New York, or, perhaps, Hampton Roads and a local pilot was notified that the ship would probably proceed to sea in a day or two and that his services would be required.

Early this morning something more than the usual activity was noticed on board, and soon the excitement extended to the navy yard. It was seen that all the steam launches were being hoisted aboard and secured as I for a long voyage, while extra precautions appeared to be taken to make everything snug. At noon an officer came ashore and

notified the pilot to report on board at

once, and shortly after 3 o'clock it hecame known that sealed orders had been received from the navy department by Admiral Sicard. Shortly after 4 o'clock the guns of propositons make most radical changes, the cruiser boomed a parting salute to Commodore Howison, of the navy yard. The anchor was weighed and the cruiser swung round in the stream and started out to sea, although a furious gale was blowing.

Washington, June 10 .- The navy department officials were singularly reserved about the movements of the New York and showed a reluctance to answer any questions. Secretary Long, in answer to a direct interrogation re-"The New York is not going to she will next be heard from at some point on the Atlantic coast, well north of Cuba." The secretary refused to answer further, standing on the short reply above given. The chief of the navigation bureau, who usually is always ready to tell where a ship is bound for, refused to say one word as to the destination of the New York. It was learned, however, that the cruiser is expected to report next at Hampton Roads. Va., and that she will be at sea about two days. It is surmised that the navy department, which has been charged of late with the whole of the duty of looking after filibusters afloat, has been advised of the intention of some formidable expedition bound for Cuba, to put out from some northern port, possibly out of Delaware bay, or perhaps there is to be a repetition of the Horsa expedition, and some steamer is to take on arms for the Cubans off one of the now deserted sand beaches of Jersey or Delaware. In such case the department would send out a smaller cruiser usually, but it is said that at this time it was a oureau registrar and secretary to the case of the choice of the vessel able to

A Successful Trial of Prof. Hinton's Patent

Base Ball Pitching Machine. Princeton, N. J., June 10 .- Professor nings in the first fair test of the ma-chine's practicability in an actul game. Nines representing the Ivy club and Tiger Inn, two of Princeton's social clubs, played a match game, using the gun to pitch for both teams and the contest attracted a large crowd of interested spectators, prominent among whom were Mrs. Cleveland, with a party of friends, and many Princeton professors who came to see what success Professor Hinton's invention would meet. The gun is discharged by the batsman, who when remy for the ball to be delivered, steps upon an elec-trical intercepting plate, connected by wires with the trigger of the cannon. The speed with which the ball is thrown is regulated by compressed air, and pronglike projectors from the cannon's mouth impart a rotary motion to the sphere when discharged, producing a curve in any direction, as the position of the projecting prongs is changed. There is but e serious defect in the operation of the machine that will prevent its use in games and that is the long time required for re-loading. This was especially noticeable in today's game, because the intercepting plate was out of order and the frequent delays thereby necessitated did not allow only were played. entered upon the consideration of the sugar schedule. Senator Jones, of Arkansas, made the first speech on the schedule. He had before him small oottles showing the various grades of sugar, raw, and refined, and with these lustrated his argument as he proceeded. He asserted that the new sugar proposition would increase the profits of the sugar refiners in every point. If that was the purpose of the managers of the bill, they should let it

Senator Tillman, "the democrats are in a period of transition. They don't know where they're at. The older, more experienced, proclaim their allegiance to the old, time-honored doctrines. We had an impassioned speech yesterday (by Senator Mills) in behalf of the Walker tariff principles, brought forward at this late day as democratic doctrine. Secession, nullification and other issues which have passed out of the minds of men might as well be brought here. The tariff is merely a question of policy, as to how the government will raise its revenue. I say without hesitation, it is to the best inerest of the American people that the articles consumed by our people should e produced by our people. If that is epublican doctrine, well and good. Chicago platform's declaration on the tariff, it brought Senator Vest to his feet in explanation. He voted in the Chicago convention, amid great uproar and confusion, said Senator Vest, for the long and in part nebulous platform. He never knew, until it had come out here, that the word "only" had been left out of the declaration for a "tariff for revenue." "If I had known it," proceeded Senator Vest, "I would have risen in my place and moved to insent it, for it is the creed of the democratic party. And I believe a majority of the convention did not know of the omis sion, as all our attention was concentrated on the money issue."

Proceeding, Senator Tillman turned to his democratic associates and said they now had a chance, with the votes of a few republican senators, "not lost to all sense of shame and decency," to give some measure of relief to the farmers. They would receive little or no benefit from the duty on cotton and cereals. They asked for bread and were given a stone. They asked some relief and democratic senators set up a mummy and labeled it a "tariff for

revenue only." "Great God, such democracy!" exclaimed Senator Tillman, with dramatic emphasis. Democratic senators had spoken of a "new Evangel," he said, and had twitted him and others instead of offering the cardinal democratic principle of equality, gave the Sodom apple of "tariff for revenu "You are holding the telescope with the big end to your eye," declared Sen-

He arraigned republican senators for the inequalities of their legislation and for "keeping Cuba under the heel of Weylowers of Lincoln, but "you are unworthy to tie the shoe-latches of that great man." This project appears to have about fallen through, owing to the failure of the Greene county people to vote for it. At St. Mary's school here today was commencement day. Rev. Dr. M. M. Marshall delivered the address to the graduates, the latter being Misses Nannie G. Clark, Mary M. Hanff, Lily E. Koonce, Theodora Marshall and Isabella W. Pescud. Miss Koonce was the salutatorian and Miss Clark the valedictorian, Rev. Dr. Bennett Smedes, the rector, presented the diplomas and distinctions.

An "Original Package" Liquor Store in

Charleston, S. C., June 10 .- The first "original package store" for the selling of liquor in this state under the provisions of the recent decision of Judge Simonton, of the United States court, was opened here today. J. S. Pinkussohn, as agent of a New York firm imported 1,000 cases of liquor via the Clyde Line steamers. The goods were hauled through the streets, and, without being molested by the state constables, were lodged in a storeroom on King street, the city's leading thoroughfare. The establishment was opened at once and began selling liquor in original packages. It continued throughout the day without trouble. Within the next few days several similar establishments will be opened here. All the stuff sold day was in gallon packages, but in short time packages containing pints and half pints of liquor will be placed on sale. Exactly what action is to be taken

DID YOU EVER suffer from real ner-vousness? When every nerve seemed to quiver with a peculiar, creepy feeling, first in one place, and then another and all seemed finally to concentrate in a writhing jumble in the brain, and you become irritable, fretful and peevish; to be followed by an impotent, weakened condi-tion of the nerve centers, ringing in the ears, and sleepless, miserable nights?

Dr. Miles! Mrs. Engene Searles, 110 Simonton St., Elkhart, Ind., says: "Ner-
