SENSATION IN NEWBERN.

The Democrats Hau! Mr. Clark Over the Coals-Our Sister City Afflicted With two Boards of Aldermen-The Democrats in the Saddle-Other Matters of Interest. (Correspondence of The Messenger.)

Mr. Clark was given permission to address the meeting, and he did so with an hour's speech, but did not undertake to vindicate his course except on the ground that he desired that there should be a constitutional board, etc.

There was a committee appointed to draft resolutions condemning his action, but as Mr. Clark confessed his error and seemed to be very sorry for his action, the resolutions of the com-

mittee were very light on him. The citizens of New Bern regret very much that he should make such a slipup, as he stood very high here as a man of varacity and political integrity. This action should teach those who are to govern this city to be careful here after and not try to barter away the rights of the voters, in order that pie hunters may be gratified. Mr. Clark was sorely pressed into this action, and no doubt he regrets it very much. The Ellis democratic board is at the

Patents for Cycles. Detrot Tribune.)

To what limits the inventing of bicycle improvements has gone is shown by States. Up to 1876, according to recently published figures, approximately 300 patents for cycles had been issued from that office. In 1876 invention revived on account of the excellent exhibit of English cycles at the centennial exposition. Since 1876 over 4,000 cycle patents have been granted in the United States, and nearly or quite one-half of this number have been issued since 1890. In 1890 one assistant examiner of patents was able to dispose of all applications that were filed. In November, 1896, it required the labor of eight expert assistant examiners to handle the applications for cycles, and even with this force working at them, there have been lately 1,000 applications constantly on hand awaiting action. At the the present time, it is said, no country in the world is granting so many patents for cycles and cycle improvements as the United States,

PRESIDENTIAL PARTY REACHES THE CENTENNIAL CITY.

Escorted to the Exposition Grounds by Ex-Confederates in Gray and Others-An Immense Crowd Greets the President. The Enthusiasm Over His Presence Immense-Speeches in the Auditorium-Receptions to the Women.

Nashville, Tenn., June 11.-The cenennial city extended a warm reception o President McKinley and the members of his party this morning. The distinguished guests arrived at 7:30 o'clock, but long before that hour crowds thronged the streets and railroad station. Mayor J. W. Thomas, president of the Tennessee Centennial Exposition and members of the executive committee were at the depot when he special train arrived. After a cordial greeting the guests of the city there provided with accommodations and breakfast. As soon as breakfast was over the presidential party was ushered into carriages from the Church street entrance of the hotel and the line was soon formed, the press and many gorgeously attired members of Governor Bushnell's staff occupying the three huge tallyho coaches. In the first carriage were President McKinley, Mrs. VanLeer Kirkman, president of Thomas, president of the Centennial Company. In other carriages were the secretaries and visiting distinguished guests and the ladies of the party. As a guard of honor to the president

mounted detachment of ex-confederates, commanded by Captain George F. Hager, ranged themselves immediately in front of his carriage. They wore the old time grey, but the buckles f their belts bore the insignia "U. S. In the rear of the line of the carlages marched the battalion of the Sixth infantry, under command of Colonel Minor, sent from Fort Thomas and headed by their fine band. The state troops and a particularly good looking body of Cincinnati police, under command of their chief, made up the uniformed part of the parade.

Mrs. McKinley had concluded not to accompany the party in the procession and disappointment was expressed at her non-appearance. When she did come, it gave rise to one of the most delightful incidents of the trip. Governor Bushnell was in the midst of the back of the auditorium and thence communicating to the main floor and the galleries showed that some event of extraordinary interest was transpiring. A moment later Mrs. McKinley appeared in the central aisle, leaning on the arm of Mr. James R. Dunn, and accompanied by her aunt, Mrs. Saxton and Mrs. Jno. Hilleakin, the latter of Nashville. Governor Bushnell gracefully yielded the floor and the immence audience sprang to its feet, cheering lustily. The cheers were redoubled,

when this gentle lady of the White house reached the platform. The president hurried to meet and greet her, and conducted her to a seat at his side. A huge bunch of roses was handed Mrs. McKinley from the auditorium floor and as she bowed and smiled her thanks, the crowd again

> The question then reverted to the 1.875 and substituting 1.95 cents. Senator Frye, of Maine, who was in the chair, stated the question and a vote was about to be taken, Senator Jones asking for the yeas and navs. As the roll call was about to begin Senator Caffery, of Louisiana, took the floor and read a newspaper account of the growth and development of the sugar trust. The extracts read by Senator Caffery were very long, covering an entire newspaper page. It gave in detail the profits of the trust by years, its absorption of lesser sugar establishments and the internal busi-

ness affairs of the organization. Senator Caffery then made an argument against the schedule which he said, proposed to give more to the sugar trust than the Wilson bill and that gave too-much. "The trust overshadows the earth with its powers," he said. "Hawaii, the West Indies, Treaty of Alliance Between Russia and Egypt, Java and everywhere else that the trust's ships touch it commands the price. Are we going to accord this institution a further lease of power to raise and control the price at its own sweet will and caprice?"

> "I have no doubt," answered Senator Allison, "that excluding the countervailing duty this bill does not give a greater advantage to the sugar industry than the Wilson bill." Senator Allison, then proceeded to make a general statement. He proceeded to point out the changed conditions since 1846, when sugar earned a duty of 30 per cent. In those days, in the days of his boyhood, very little pure white sugar was seen. Now, no sugar came on the table of rich or poor that had not gone through some process of refining. The refining industry of this country was entitled to some protection. He then explained the house and senate schedules. "Do you believe in protection to la-

> bor or to capital?" interposed Senator Tillman, of South Carolina. "That is a generality," replied Sens tor Allison, "to which the senator well knows my answer. I believe in protection to American labor, but I believe in protecting American capital also from foreign capital."

"Mr. Havemeyer, in his testimony," said Senator Tillman, "said that only 25,000 men were engaged in the sugar refinery industry. Yet you propose to give the refiners a differential which amounts to between \$10,000,000 and \$20,-000,000 for the protection of 25,000 men.' Senator Berry, of Arkansas, reverted to the contaminating influences of the sugar trust, and urged that the senate, by fits vote, put an end to the scandals surrounding this subject. Now was the opportunity, he declared, for republican senators to make good their professions of four years ago

against the trusts. Senator Stewart said he did not expect this tariff bill to afford any mate rial relief to the country, as there was a cancer of financial contraction which ity, "any more than a bread and milk poultice could bring prosperity." The vote was taken amid great exrectation, resulting-yeas, 32; nays, 30. Acquitted of Charge of Murder. * patrick, a prominent physician of Midthe murder of Jos. Sprinz several weeks ago, was given a preliminary hearing at Midville and discharged. Kilpatrick was Sprinz's family physician and friend and the theory of the detectives is that he killed Spring in order to marry Mrs. Sprinz, with whom he was said to be infatuated. The evidence failed to substantiate the charge, and Kilpatrick was given an ovation. Thomas E. Watson, late populist candidate for vice president. was Kilpatrick's attorney.

Messenger Bureau, Park Hotel, Raleigh, N. C., June 11. All the local interest here yesterday and today was in the action of the new board of trustees of the Agricultural and Mechanical college last night. The board had four de cratic members. Two of these, H. G. Connor and B. F. Dixon, withdrew at 10 o'clock ast night, declining to act further with the board. A. Q. Holliday, another democrat, did not vote. Henry E Bonitz, the remaining one of the four. remained during the whole session. I is said that it was really the purpose of some of the board to oust all the faculty. When asked why it was proposed to do this the reply was: "They wanted pie. It is a simple matter." The board ousted Herbert B. Battle as state chemist, but did not fill the position, and will have to go out of the state to do it. Dr. Battle had made this station the ranking one in the south. His reports have been transated into French and German and published abroad. There was a spite against him. This was known lonago. It is no secret.

President Holliday is retained; sala y \$2,300; professor of chemistry, W. A. Withers, \$1,800; professor of English, D. H. Hill, \$1,800; professor of agriculture and agriculturists at experimen farm, F. E. Emery, \$2,000, (displacing Professor Irby); professor of mathe of mechanics, N. R.
