Rockingham Rocket: A narrow escape was that of the stiller at Mr. T. L. Mc-Nair's still on last Saturday. Lightning struck a tree right near where he was standing, he was badly shaken up but not hurt.—Colonel Henry Lefbetter, of Anson county, died at his home, near Wadesboro, last Sunday.

Cherokee Scout: J. F. Allen was exhibiting on our streets the other day a nugget of gold that weighed 90 pennyweights and which he claimed came out of a mine in Clay county.—The laying of broad gauge iron on the A. K. & N. reached the state line on Saturday. Work is being rapidly pushed.

Judge McIver has issued an order to the board of commissioners of Cumberland county, the sheriff and dispensary board to appear before him next Saturday and show cause why they should not be enjoined from establishing a dispensary in Fayetteville. Fraud and unconstitu-tionality are alleged by the parties applying for the injunction.

Winston Sentinel: Mr. W. H. Chick, while doing some painting in the western part of the county this week, met Mrs. Sarah Keiner, who is 26 years old. She told Mr. Chick that she raised 10 children—7 girls and 3 boys. She has 77 grand-children, 172 great grandchildren and 12 great great grandchildren. Par-Anglicanism and Orthodoxy

While there are no prospects of any reunion between the Roman Catholic Church and what is known as the Church of England, all hopes in that direction having been dashed to the ground by the recent pronouncement of the Pope on the recent pronouncement of the Pope on the validity of Anglican orders, yet the negotiations with the view to an under-standing between the Church of England and the Orthodox Church of Russia are proceeding apace. The Archbishop of York has been visiting the ecclesiastical au-thorities in the dominions of the Czar, being received by them with great hos-pitality and distinction, and now the Orthodox Church has delegated the Metro-politan Archbishop of Finland not only to represent it at the Jubilee ceremonies in London next week, but also to attend the Pan-Anglican Synod, which is to be in the early part of next month under the presidency of the Archbishop of Canter-bury at his palace at Lambeth.—New York Tribune.

The New York Stock Market,

New York, June 19 .- Today's stock market again reflected the constant watchfulness of the large professional traders for a reaction, the day's profit-taking being on a very large scale. The net changes are very small, owing to the last night's close. But the reaction brought about by the realizing movement and by sympathy with the heaviness in Sugar left most shares below last night's close. The trading was dull and showed a very marked diminution in the range whole is credited to Sugar. Much of the selling of this stock was attributed to Liverpool, June 19-1 p. m.-Closing Cot- Washington orders, supposed to be based on information of the Sugar schedule of the tariff bill being in danger in the conference stage. Chicago Gas showed a sharp fractional decline from the best price, adding to the heavy tone of the

sagged 1 point at the lowest with only a feeble rally. The selling of these stocks was attributed to foreign orders to realize, the recent foreign buying having been quite heavy. The Goulds were a weak spot in the market and showed a wide recession, but Western Union rallied to above last night's close. On the other hand, Lake Erie and Western preferred and Minnesota Iron registered an advance of 2 points each and Edison Electric, of Brooklyn, 14. Sugar's extreme decline was 15 and the net loss 14. The closing was firm, and closing prices as a rule were above the lowest, but net losses were general throughout the list. The feature of the week has been the firm resistance of the market to the efforts at reaction of professional operators. On Tuesday and Wednesday there was continued heavy selling to realize, some of the largest operators on the floor be-

ing credited with a complete turn in their holdings. These traders based their action on the theory that reaction was overdue in the market because the advance had been so steady and so long continued, for a month practically without a break. The manipulators for a decline had no ground in the general condition to offer as an argument, the general condition continuing much as it has been ever since the advance begun. Their effort to break the market proved a signal failure, and all joined the long side on Thursday. The change in the general level of the market is indicated by the comparison of prices of some active shares at the close on Saturday, May 22nd, and today. Advances are: New Jersey Central 13%, Sugar 12% (dividend on), Consolidated Gis, Chicago Gas and Burlington a fraction over points, Rock Island and Tennessee Coal over 6 points; Northwestern, Delaware and Hudson, Missouri Pacific and Western 5 points or over, and St. Paul, Louisville, Leather preferred and Northern Pa-cific preferred over 4 points each. The number of stocks showing lesser gains

increases, but with a few exceptions all prices are higher. Railroad earnings show improvements in that time, and the finances of the companies immediately concerned are in better condition; but the higher prices quoted do not by any means represent the immediate returns in money hoped for from shareholders in the companies. They must be accepted rather as the barometer of expected and hoped for improvement in the business of the country at large. It is certain that the business of the country at large has not increased in the last month in the same ratio as the prices of stocks. But the firm resistance in the prices of stocks to reaction and the readiness of buyers to take them at the existing level is a measure of the confidence felt that business is about to improve in proportion. Probably the unimpeded progress of the tariff bill on the final stage of its disposal has been the most encouraging to Wall street

The Hawaiian annexation treaty caused The Hawaiian annexation treaty caused Depression, of any one factor. a momentary tremor to pass along the pocket nerve through the street, but the complacent attitude assumed towards the matter by the powers of the world has quieted apprehension as to Japan's pro-test. The latter part of the week shows some growth of apprehension over the new impetus given to the gold movement and the hardening of exchange, said to be due the drawing of exchange, said to be due the drawing of exchange for tour-ists' account and for July settlements of dividends and interest payments on se-curities held abroad. But Wall street has taken note of the fact that the gold re-serve in the treasury has remained almost stationary at a little above (and for two days a little below) \$144,000,000 ever since May 22nd. The amount of specie held by the New York banks has increased since the date named from \$88,295,500 to \$90,050,-200 held today.

The gold shipped from the country by gold exporting houses since the same date amounts to \$5,237,794. The shipments today amounting to \$350,000 and those announced for next Tuesday amounting to \$1,350,000 have not yet appeared in the treasury statement. Not all of this gold will be taken from the treasury, but the withdrawals will probably be sufficient to bring the treasury reserve to the lowest point it has reached in the present gold movement. The increase of \$782,400 in specie in New York banks this week in view of the fact that \$600,000 in gold shipped on Thursday was all taken from the banks, is worthy of note. Dealings in governis worthy of note. Dealings in government securities were marked by general firmness, with the new 4's conspicuous for a rise to 1254, the highest price yet attained for this issue. The improvements in other grades were less noteworthy, with the trading rather light. The total sales of stocks today were 89,135 shares, including 25,500 sugar.

ENGINEER CROCKE

Cotton Futures.

THIDE WILLIAM OF TON MIDSSION GIOR, SUNDAY, JUNE 4. 1881.

(Special to The Messenger.) New York, June 19 .- The prominent feature in the cotton market this week and that which has overshadowed all other influences has been the great improvement in spot business at Liverpool. The sales of cotton there have jumped, without warning, from very small to extremely large proportions. This and the consequent strength of the near months here
has bolstered up the entire market and
resulted in an advance of 20 points since
last Saturday. The leading bears here
appear to have lost confidence in their
convictions, for they have been the principal buyers during the last two days.
Liverpool cabled us an advance of 1-64d
this morning, which was hardly regarded
as adequate, and our market opened
slightly lower. The Chronicle's report on
the progress of the new crop during the
opening caused prices to droop, but the
covering fever was still strong among the sales of cotton there have jumped, withcovering fever was still strong among the shorts, and the market became very firm again and scored a fair advance. August opened at 7.29, declined to 7.27, advanced to 7.36 and closed at 7.34 to 7.35, with the tone of the market very steady. That there has been an undeniable and radical change in sentiment generally there is no doubt. The belief that we are about to pass from a period of business depression to one of active and merited prosperity has become general. The effect of this cheerful feeling has been very marked upon stocks and has had not a little to do with the advance in cotton this week The strength of the statistical position is again talked about on all sides, and the opinion is frequently expressed that with good business present and in prospect the manufacturers will not face the vicissi-tudes of the growing crop, but will become competitors for the small stocks of cotton now on hand. Although the bulls are most' confident, it must not be forgotten that the course of the market has entirely overlooked the great improve-ment in crop prospects that has occurred. Public and private accounts alike agree that the crop is now in splendid condition. It must also be remembered that a rise in price may check the spot demand at any time. There are no signs of spec-ulative revival as yet and we are inclined to think that if the crop continues to improve no advance of consequence can be long sustained. Sales of summer months, however, are undoubtedly extremely dan-gerous. RIORDAN & CO.

(By Associated Press.) New York, June 19.—The cotton market opened fairly steady. The first call showed unchanged prices to a decline of point. There was a further decline of to 4 points, after which the market made a sharp rally of 6 to 9 points. The rise was chiefly on the months of July, August and September. The early weakness was the result of pounding by local bears, who took advantage of outside support. The strength later was due to covering by shorts in anticipation of the Liverpool holidays and on favorable reports from business centers at large and notably from the dry goods trade and Fall River. The close was very steady at net un-changed prices to an advance of 5 points.

The Chicago Markets. ago. June 19.—Business was ver dull on the board of trade and prices all suffered from the lack of interest in the trade. Wheat declined 4c; corn unchanged for July, but %c lower for September. Oats closed about unchanged and provisions show 21/2/071/2c decline.

Aggravated Suicide

Some intense vexation distorted the usually placid features of the undertaker. "Talk of cheating the hangman!" he yelled, with purpling emphasis, "but there are worse crimes than common suicide. "You mean that the murder of another is worse than the taking of one's own life?" said the liveried hearse driver, who served once as a jurer.

"Naw! I mean aggravated suicide Didn't you read of those two men in New York last week who tried to poison themselves with embalming fluid? They meant to cheat law, medicine and undertaker with one stroke. No wonder times are bad!"-New York Journal.

Japan and Our Hawaiian Treaty. Washington, June 19.—The Japanese minister has filed with the secretary of state a formal statement of the position of his government with respect to the proposed annexation of the Hawaiian islands by the United States. Although it is officially denied that Japen has protested against the annexation treaty, it is admitted that that government has represented in the strongest terms its expectation that its treaty rights in Hawaii shall be fully respected in case of annexation. The letter of the Japanese minister on this subject will be forwarded to the senate for its information in the consideration of the treaty.

KERN - SOAP.

The manufacturers of the above Soap are the original inventors of the Scheme plan for selling Soaps. THEY GAVE AWAY THE FIRST WAGONS, their prize lists comprise the largest variety and the most attractive offered by any

Every family in this city has been sent through the postoffice a catalogue illustrating the prizes, in which you will find a Coupon calling for one bar of the Soap free. Don't fail to send and get the Soap and look over the Catalogue and see what dainty things for the house and table you Save your wrappers and obtain the prizes.

We wish to call especial attention the quality of the Soap. THERE IS NO BETTER LAUNDRY SOAP MADE. It will do anything that any other will do. Nearly every grocer has it. Send your Coupons to your Grocer and get the Soap. Any retailer who has not yet been supplied, can get it from us and with every five boxes get a wagon free to show. We leave the distribution to the retailer. A consumer cannot come to us and buy a bar, box, or one hundred boxes. We protect fully our customers! as in every article we sell. PROTECT YOURSELVES and PUSH THE KERN SOAP.
