THE LINCOLN LITHIA WATER CO .:

Dear Sirs :- I take great pleasure in bearing this voluntary testimony to the curative qualities of the Waters of the LINCOLN LITHIA SPRINGS. Before my visit to you last summer I had been suffering intensely for eight years with my kidneys and my physical being was well-nigh run down. So far as I have been able to judge my kidneys have been permanently cured, and my system was so much built up by the use of the water that I gained flesh at the rate of a pound a day for a time. I never had anything to do me so much good for the same length of time.

I. OLN LITHIA WATER is for sale by druggists generally, or in cases of one dozen half gallon bottles-\$5.00 F. O. B. at Springs. Cases re-filled at \$2.00 each. If shipment made by express, emties returned to Springs free.

The New York Stock Market, New York, June 24-The prices of stocks nade a further average advance today, outting the top level in the current bull novement one notch higher. The advance, however, was not universal and some prices are lower, the anthracite coal group losing something of its strong advance of yesterday. The international shares, some of them, displayed the sympathetic effect of lower prices in London

and of selling here for London account Others of this group were bought for London account and gained in price. There were times during the day when prices were generally below last night's close and there were evidences of heavy realizing in some stocks. The volume of the dealings was smaller by over 40,000 shares than yesterday, but was rather better distributed, though the grangers, Chica-go Gas, Bay State Gas and Sugar absorb-ed about three-fifths of the total dealings. An aggressive advance in Northwestern, which was resumed after a day's halt, carried that stock up  $23_4$  points to  $117_{4,}$ and was a sustaining influence in the whole market. The grangers also maintained their strong upward tendency and heir potent influence in the market under eavy dealings and in spite of some larmist reports of damage to crops.
