Concord Standard: On Tuesday last Simpson Lefler, who lives in No. 9 township, near Cold Springs church, was busy cradling his wheat in the harvest field, and becoming thirsty laid his cradle at the butt of a large dead tree and went ment address to a to the spring for water. When he re-turned a woodpecker entering ahole at the top of the tree attracted his atten-tion. While gazing intently at the bird the tree fell and smashed his cradle o pieces, Mr. Lefler himself barely escaping being caught beneath the falling tree.

Asheville Citizen: Gastonia, June 24-Mr. Tom Reichel, who lives near Bessemer City, had the misfortune to lose his dwelling, containing five barrels of whiskey and about \$250 in money. The fire is thought to have been of incendiary origin, as the family was away from home at the time, and a water pitcher, which was in the house, was found in the yard near by.—Rev. Fayetteville Observer: Our former townsman, Professor Alex, Graham, for the past several years superintendent of the Charlotte Graded schools, was yesterday elected president of the teachers' institute, at the Teachers' assembly in Morehead. No better selection could have been made, and we congratulate the teachers upon their wise choice.-Yesterday afternoon, about 6:30 o'clock, a negro boy named Doc. Patterson, 11 years old, was killed on the Bennettsville di-vision of the Cape Fear and Yadkin Val-ley railroad by the down passenger train.

All who know the accomplished lady agree with the following in the Oxford correspondence of The Charlotte Obser-"The removal of Miss Eva Minor, of Oxford, from the position of music teacher in the deaf and adumb institution at Raleigh, without any other cause except to give the place to another, is the cause of deep regret among her many friends in Oxford. Miss Minor is a fine musician and one of the most estimable young ladies in the state, and her removal was unexpected.'

Oxford Ledger: We learn from ex-Judge Graham, attorneys for the parties, that Messrs. J. G. White, of New York, and E. C. Hambly, have purchased of Mr. D. G. Cheatham his mill tract containing 275 acres at the price of \$7,500. They will immediately put in a very large plant to work the mine on an extensive scale, compressed air being used as the power to drive the drills instead of steam.—Oxford is indeed somewhat of a bicycle town. There are about 140 wheels here, making some \$7,000 invested in the way of slipping along over the earth. (Oxford has about 2,000 inhabitants.

Rockingham Rocket: The Rocket extend congratulations to its friend, Lieutenant Colonel H. Clay Wall, on his re-cent promotion to this office by appoint-ment of General W. L. London, U. C. V's. A well merited tribute to Colonel Wall. -Roberdel is a thriving little village situated three emiles northeast of the town of Rockingham, on Hitchcock creek. Sixteen years ago there was nothing here but a little saw mill; today we have a town of some 700 inhabitants. Nine years ago there was not a church in the place; today we have three nice churches, with a membership of over 300. We have three good Sunday schools, prayer meetings three times a week, and reaching every Sunday and many times It was on the eve of their bridal day. during the week.

New Bern Journal: Like a rat in a hole, Allen Miller, a colored man aged 50 years, suffered a most horrible death Tuesday night. He was employed upon the pile driver owned by Major Dennison and slept in the cabin of the flat. Yesterday morning persons about the cotton gin, at the market dock, noticed that during the night the flat had gone down. It being known that Miller slept aboard the boat, inquiry was made to learn of his whereabouts. He was nowhere to be found alive, and a force of hands were at once engaged to raise the flat. When the boat came to the surface a man with a boat hook dragged Miller from the cabin. He had been dead several hours. -The Clermont cotton mills is apparently being run to its full capacity, and giving labor to a number of persons who, without this kind of employment, would have no opportunity of being wage earn-

The New York Stock Market,

New York, June 26.-Today's stock market showed a subsidence of the apprehension caused yesterday by the vol-

a necessary reaction in the market were busily at work on this basis and sough strenuously to bring about the reaction which, they confidently maintain, is long over due in the market and must come ultimately. The St. Paul statement for May, showing an increase in gross earnings of \$101,719 and in net of \$118,496, was the first influence to stem the downward course of prices. The low point of the morning was a slight fraction below last night's close in many stocks. The rally was characterized by great animation and by heavy dealings, the prominent stocks changing hands in large blocks. Bur-lington was the leader of the market in point of activity and was carried up 1% from the low point and held there until the close.

The week has witnessed a further notable raising of the level of prices, the advance being especially notable in the granger group and not being so well distributed through the list as in some previous weeks. The market as a whole has firmly resisted, almost to work a reaction, the severest strain coming Friday with the news that the week's gold shipments had run up to a figure exceeding any week since the first of the present movement. The present high level of prices is generally recognized as discounting commercial and industrial improvements which are yet to be realized. But the firmness with which the high prices are held is a measure of confidence of security holders that future conditions will improve to warrant higher prices. The advance is spoken of as steady, which is true of the average price, but the whole market has not moved uniformly. At times some one stock has taken the lead as has been the case in a marked degree with Northwestern this week on the prospect of refunding its bonds so as to benethe stock. Sugar made a similar bound on the agreement of the republicans upon the sugar schedule several weeks ago. These special movements have helped to raise the level of other prices, though in less degree. The grangers and Vanderbilts, as groups, have at other times assumed the leadership. Each lay also has witnessed its own irregularity, the vibration sometimes carrying prices generally below the previous day with a rally and sometimes above with a reaction. The result has been to make the average net sail, but almost invariably on the side of the advance. Many professional operators are confident that the level of them arket has advanced too far to be warranted by present condi-tions. They are at work constantly to effect a reaction, but their utmost efforts have hitherto been unsuccessful, excepet in a trivial degree, and all their offerings have been promptly and steadily ab

The idea of the bear traders is that if they were able to work a reaction of imposing proportions by manipulation they would catch an enormous number of stop orders and, perhaps, even a large amount of long stock, tempted by the very considerable advance of the last few weeks after the long and weary wait to take a profit. But such a manipulative reaction, unless justified by a less promise of prosperous development, could only be temporary. That the current upward movement of prices in the stock market is due to the conviction that the country is ready to realize the benefit of its severe rocess of retrenchment and is the view taken by such traders as are going willingly with the current. The total sale of stocks today was 159,-734 shares, including Tobacco 14,800, Sugar 12,600, Burlington and Quincy 17,500, Chicago Gas 8,000, Louisville and Nashville 5,000, Rock Island 15,900, St. Paul 23,300. The bond market shared in the general buoyancy which permeated the security markets during the week and there was an absence of that hesitancy to values for the low grade mortgages was regarded with considerable favor by the lead-ing interests. The middle grade securities developed the most aggressive strength and were favorably influenced by de-velopments in specific issues. The speculative liens lagged in the advance but, nevertheless, gains of 1 point or thereabouts were made in some instances. The aggregate sales were \$9,802,000. Government bonds ruled strong throughout and sustained general fractional improve-ments. The sales were \$543,000.

The Chicago Markets.

Chicago, June 26.—July and September wheat changed places today in point of speculative interest. July started out with the usual "corner" scare, but before the session was half over September was commanding the attention of most of the traders and was much the strongest at the close. Final prices showed a ½c ad-vance in July and 1½c to 1¾c rise in September. Other markets were dull and neglected. Corn and oats closed unchanged and provisions unchanged to 7½c lower.

He is now Cured, and He Thanks God and P. P. P., Lippman's Great Remedy, For It.

Mr. George Briggs, of Moore, Okla., suffered almost indescribable torment for three long years. Neuralgia held him captive. The right side of his face was so badly affected that the slightest touch would cause the unfortunate man intense agony. For several weeks he could open his mouth just wide enough to be fed with liquid nourishment, and in this manner life was sustained. Read the following extract from his letter: "Truth is stranger than Fiction." NEURALGIA, CATARRH AND RHEUMA-

TISM COMPLETELY CURED. George Briggs, of Moore, Oklahoma, writes that P. P. P., Lippman's Great Remedy, cured him of catarrh, facial years of intense suffering. The pain by in his cheek bone and temple, down the right side of his face, along his upper lip, and from the slightest touch he suffered agonies for weeks at a time. Could only open his mouth wide enough to admit a teaspoon, and any acid in his food would put him in torture. He had a consultation of the best physicians in Texas, but all to no purpose.

Catarrh and rheumatism were also causing him much trouble, until he tried P. F. P. He says he is well and will swear that there are no cases of catarrh and rheumatism no matter how chronic or how old the cases are, that P. P. will not make a total cure of.

Mr. Briggs winds up his testimony by saying he thanks God and our medicine, P. P. P., Lippman's Great Remedy, for the great cure. Kidney troubles, if neglected, bring

about serious and painful and very often fatal results. P. P. P. removes the irregularities, and cures the diseased parts. Dyspepsia and indigestion, skin and blood diseases, can be speedily removed

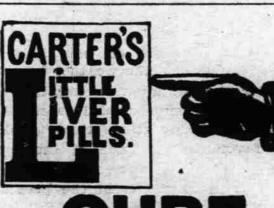

by P. P. P., Lippman's Great Remedy. Ladies, take P. P. and rid your face of pimples, blotches, freckles, yellow or muddy skin, wrinkles and vulgar redness. Sold by all druggists.

Sick Headache and relieve all the troubles inci-dent to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after sating, Pain in the Side, &c. While their most remarkable success has been shown in curing

Headache, yet CARTER'S LITTLE LIVER PILLS

are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

is the bane of so many lives that here is where we make our great boast. Our pills cure it

while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; we for \$1. Sold everywhere, or sent by mail.
