Dr. Kirby Talks on the Criminal Insane Scandal . (Special to The Messenger.)

Raleigh, N. C., September 23 .- Dr. Geo. L. Kirby, superintendent of the

central hospital for insane, says that when he heard the reports about Dr. Kirby Smith at the penitentiary he immediately went there and investigated. From information he gathered appropriation. he concluded that Smith had been imprudent in going into the rooms of the female criminals without any attendants; that he then instructed Williams, he attendant, not to let him have the keys; that he found Smith had been drinking and 'upon consultation with Superintendent Smith, Kirby Smith was dismissed at once. He says, further, that Kirby Smith was not an officer, but simply an attendant. The law in regard to the criminal insane provides that they shall be under Dr. Kirby's control and it is his duty to appoin the attendants. He did not appoint Kirby Smith. The latter's father appointed him. Dr. Kirby says Superintendent Smith has always been faithful in his efforts regarding the criminal insane and that no blame attaches to him.

There were fewer cases than were reported on yesterday, but there was one more death than in the previous twentyfour hours and at least four of the pa. tients were reported at 6 o'clock to be in a dangerous condition. At the close of the last twenty-four hours the record here stood: The deaths were Marie Dubois, 3 years old; S. Cereto and Mrs. Gasparo Lessemes. There are eight new cases. The ninth new case reported today was that of Mrs. Lessemes, whose death is mentioned. The woman had been sick for several days, but she had apparently no friends, or if she did, they were afraid to go near her. It was only this morning that a doctor was summoned, and when he went to the house e diagnosed the case as yellow fever. The woman died of inattention as much as of the prevailing fever. Marie Duboi who died this morning, was a child nearly 31/2 years old, living in Carrollton, where he disease has been especially prevalen She was taken ill on the 16th and her case was diagnosed as yellow fever.
