#### THE LAWLESS ELEMENT-A LES-SON AS TO SAMBO.

Northern papers are agreed fully a to the failure in appointing negroes as officers. They are talking out emphatically on the utter disqualifications of the Sambos to command other negroes. In all this land it is doubtful if there are one hundred negroes who have any fitness for the responsible places of commanding officers. The attempt to force negro equality in time of war upon the whites in service was very foolish, and proved a a political move wholly, but it is dent McKinley is to be known for his effort to force negro equality in the army, it will gain for him an unenviable name among the soldiers." Of course the little major is at the bottom of it all. He is a small sort of fellow any where, whether in the congress or the presidential chair, in in war. He was a force bill advocate against the south and voted for it every time. The Washington Fost, an able republican paper with independent leanings, has this to say

"We fear that the negro troops, and especially those which have colored gro makes a fair soldier. He will nght. He has endurance. He is sufficiently courageous. But the experience of the past few months has shown us that the negro officer is impossible under any circumstances, and that the negro soldiers are as a rule, discordant with our scheme of society and civilization. In their unrestrained deviltry they have gone two or three times so far as to actually break into jails in Florida, to intimidate sheriffs and release negro prisoners. The Post admits that negro admirers in the north are much "Uncle Tom's Cabin," Mrs. Stowe's, grotesque caricature, have sniffed and tive of the race, and the wrongs portrayed really distinguished slavery as seen in every southern state in the past, and have gone off into ecstacies of worship, and become fanatical and cution war in which more than a million of right. whites perished, and a colosssal debt was fastened on this country for generations for the benefit of fellows who fought for the negroes, and the rich men who found safe investments in the bonds. Now they are awakening to facts all the time known to the southern whites, but only through the rude shock of arms. To give the ig- him a chance and he may make a good norant, stupid, blind, boisterous, unruly negroes the franchise with which to govern twelve states, was a crime against humanity and all wisdom. To try to involve the races in the south in social equality as well as political equality, is a blunder of the greatest magnitude, and can only precipitate a race war and the destruction of the blacks. It is very certain if it ever begins and gets headway 15,000,000 of whites will end the social and political career of 7,000,000 of negroes. No one

The lawlessness was pronounced and the fighting of the deputies splendid.

ACCUMULATING EVIDENCE-NO. 1

The Messenger for quite ten days has proposed to consider some of the evidences that accumulate to prove that it is positively necessary for the White Men of the state to unite for its preservation and in behalf of equitable and honest government. We shall pursue this steadily from time to time as our limitations and other duties will allow.

That the rule of the Negro in North Carolina has been baleful, distressful, disgusting and deplorable intelligent men with wante skins, who are candid and honest, will at once admit. snare. Some time ago we saw it mentioned in state papers that Governor Russell cellent condition. A gentleman who was insane. less than five years the white man's money will go no more towards educating blacks to wrow up as their enemies The Raleigh Post considering negro

lawlessness gives this: "An incident which occurred here a few days ago fully sustains this wreckless disregard of a law on the part of negro troops such as is referred to by curred in Tennessee and Florida. The negro regiment that passed this city several weeks ago remained here some hours. One of them got drunk and the police arrested him. It soon was reported that his fellow soldiers were threatening to release him by force, but, it reached their ears that the chief of police was prepared for any such attempt, and better judgment prevailed. There was an ugly state of affairs for awhile."

We anticipate that when the lawless Jim Young gang are disbanded that they will be the leaders of disorder and crime; and may get up a big row in more than one place.

When one sees the daily announce ments of a fusion in this county and that between black radicals and deserting pops who betray their own that no "combine" with the pops and democrats was made remotely possible in this year of grace. The fellows who trade now with the radicals for. grub and grab would have betrayed the democracy at a critical moment, if a better offer came from the unscrupulous, unprincipled radicals before battle was delivered. It was indeed most fortunate that the old party stood four square for principle.

It is a good point to remember that as early as 1866, the negroes lately freed, drew firmly the race line. In that year they voted pell-mell for the radical candidates, and from that day to 1896, the last opportunity offered. they have almost to a voter gone with white deserters of their race trying to whites. So it is a race division of Carolina mean to get together in 1898, to stamp out negro rule of whites in this grand old commonwealth of freeborn men of the Aryan race, the nation builders and great civilizers.

The Democrat desires to congratulate the democracy of Duplin upon the ticket which it has placed in the field this year. It is composed in its entirety of men of character and intelligence who are respected and trusted most by those who know them best. The answer is because he is against us. The negroes fight solid phalanx and it is reasonable that the white race should be solid against them. It is true a few negroes vote with the whites, and a few whites vote with the negroes. How they can do it in either case is a surprise to many, but it appears now, that the 'jig is up." and if you are white you will be expected to vote that way. The negroes stand by their color.
