> Weather Conditions. U. S. Weather Bureau

U. S. Weather Bureau office, October 6. 8 p. m. The high pressure area lover the upper Mississippi valley last evening has moved rapidly eastward and now centrals over the new England states, with much cooler weather throughout the Ohio valley and thence eastward to the coast. It is also some cooler as far south as the Carolinas and Georgial The pressure has fallen sharply in the states of the upper Mississippi and Missouri valleys, with a general rise in temperature and cloudy weather in the same sections. Rain is now folling at Kansas City, Mo., and light scattered showers have occurred during the day throughout the southwest and in the Gulf and Atlantic coast states. Light thunder storms are reported in Georgia and Mississippi. The weather is mostly clear tonight to the eastward of the Mississippi valley

familiar with these suits. Mr. Jordan Branch first instituted proceedings before Justice Fowler against the three ommissioners in behalf of himself and the state of North Carolina. Then Mr. Nicholas Morriss also sued the commissioners before Justice Bunting, and obtained a judgment first. One of Mr. Branch's suits was thrown out High pressure generally, being above as the initials of Dempsey were wrong, the normal ever all sections. But it is but in the other two he claimed the right of priority over the suits brought lowest over the southwest, where the by Mr. Morriss and appealed to the suwinds indicates a slight local disturperior court. TO STOCK OUR RIVERS WITH FISH

Committee reports were called for. Mr. R. W. Hicks, who was appoint ed with Mr. B. F. Keith as a special committee to confer with the United States Fish Commission with reference to stocking the Cape Fear and its tributaries with shad, reported that the committee had acted with some degree of success. After corresponding with the fish commission it was arranged to send a couple of cars with a lot of small fish to this section on the 30th of September. The first car was to be stopped at Fayetteville to distribute some of the fry in the Cape Fear river and the other was to go to Burgaw. It was arranged for Mr. Kelth to meet the car at Fayetteville and Mr. Hicks to meet the other at Burgaw and put the remaining fish in the North East river. Mr. Keith could not go to Fayetteville, so the committee got Mr. Thos. F. Bagley to meet the car there. Mr. Hicks stated that Mr. Bagley went to Fayetteville and could report what had been

Mr. Bagley stated that he went to Fayetteville on the day agreed upon, and got there shortly after 12 o'clock and found that the fish car had been there and gone. He learned that it brought only three cans with 600 small fry black bass, and that two cars of the fish had been left there and placed in a private pond and the other car had gone to Smithfield or Dunn to distribute one can of the fish there.

Mr. Hicks stated that when the shad season opens, the committee was encouraged to believe it would succeed in getting a stock of fish placed in our rivers. The committee was, therefore, continued.

THE POLITICAL SITUATION.

New business was then called for, whereupon Mr. Samuel Northrop arose. He said in view of the horrible conditon of affairs here politically. socially and otherwise, it had been deemed expedient for this body to take some action looking to better government. He held in his hand the copy of some resolutions which he said he had been asked to present to this body with the request that they be adopted, spread upon the minutes and that copies of the same be furnished to the daily newspapers. Mr. Northrop then read the following resolutions, which were heartily applauded when he

STRONG RESOLUTIONS FOR WHITE GOVERNMENT.

"Be it resolved by the Chamber of Commerce, that the political situation in this city and county is a menace to the peace and order of the community, in which property has no protection and the life of the citizen no security; that the feeling of unrest and apprehension following upon an incompetent public service which, while it exacts tribute in taxes, offers no immunity from danger to the property or person of the citizen, is detrimental to every business interest, arrests enterprise, hampers commerce and repels capital which might otherwise find investment in our midst. That such commercial stagnation and social disorder are the logical outcome of a condition which finds the control of government in the hands of corrupt and incompetent men, whose authority fails to inspire fear in the worst element of our population as it does to command the respect of our best citizens; that this lawless and wholly irresponsible element, fortified by the consciousness that the authorities are either impotent or unwilling to impose restraint upon them and protect life and property, convert liberty into license, perpetrate outrage on every hand, disturb the peace of the community and offer indignities to our white women, which have culminated in instances of personal violence to them on our streets, and in an attack on the virtue of the womanhood of our Southland by the negro editor of the infamous Daily Record.

"Resolved, That in view of these intolerable conditions, it is the sense of this meeting that it is the duty of every good citizen to exert his utmost influence and personal effort to effect results which will restore order, protect property, and give that security to our lives and our homes

which obtains only in civilized communities.. "Resolved, That this Chamber'is sensible that its province is commercial and not political, and the intention or desire to enter the sphere of politics is distinctly disclaimed, but the conditions confronting us and calling for solution are commercial and social, and not political; and as citizens and business men, with the one desire to promote the prosperity, peace and happiness of the community, we declare to the world that these blesssings are not possible under government by the present political regime, whose existence and power are predicated on the blind adherence of the negro element of our population, which, taken as a whole, with some worthy exceptions, are under the most absolute bondage and domination of a few designing men of the white race, who for selfish ends, play upon their prejudices to array them against order and good government."

ADOPTED BY A RISING VOTE.

Mr. George Harriss, Jr., moved that the resolutions be adopted by a rising vote, and the motion was seconded by Captain T. C. James. "Any remarks on the question?" asked President Chadbourn.

Some discussion followed as to portions of the resolutions. but re allowed to stand as presented. Mr. Thos. F. Bagley stated that he desired to read a letter bearing on

the subject from one of his northern correspondents. He read it and its contents constituted a convincing reason why the resolutions should be

The resolutions were then put and were unanimously adopted, every man rising to his feet without regard to political affiliations. Without considering any other business the meeting then adjourned

By request of Colonel Thomas W. Strange, most of the citizens remained and held a meeting for the purpose of taking action towards laying the situation here and elsewhere in Eastern North Carolina before the people of the state. Mr. H. C. McQueen was called to the chair and Mr. W. E. Worth was made secretary. Resolutions covering the purpose were adopted amid applause. The resolutions were signed by all present, after which the meet-
