ADMIRAL KAUTZ'S REPORT. Secretary Long today made public so much of a recent report from Admiral Kautz upon Samoan affairs as touches the killing of a number of American scilors by the Mataafa adherents near

Apia on April 1st. The report is an elaboration of the description of the affair which was cabled at the time by the Associated Press from Auckland. No mention is made at any point of the reported par- General McNulta, the Receiver, Testiticipation in the affray of the German, Hufnagel, the manager of the plantation where the fight occurred. Admiral Kautz says that it was the opinion of all the officers who had the matter in charge that the force was ample to do the work without risk, especially as it was to move out along the beach and return the same way, under the protection of the guns of her majesty's ship Royal-It is safe to say, says the admiral, that after Lieutenants Freeman and Lansdale had conferred together, they did what they deemed best under the circumstances and the disaster that llowed could not be foreseen.

Admiral Kautz appends the reports of the surviving officers of the expedition, which were transmitted by Captain White, of the Philadelphia. In this letter of transmissal the captain commends in the strongest terms the work of Passed Assistant Surgean G. A. Lung. He says:

"At times when the fire from the concealed natives was thickest and at all times, by his example he encouraged 350 to 360 different varieties of germs the young and inexperienced men to the proper performance of duty. On the completion of the work of his profession, he assumed command of our bluejackets and marched them to the United States consulate.' THE AMBUSCADE OF APRIL 1ST.

Captain White describes in some length the happenings of April 1st, as gathered from close examination of the officers and men engaged in the fight. He says that several excursions had been made into the beach back of Apia during the last ten days of March. Very few natives had been observed and when seen they always fled when fired upon by the Colt automatic gun. Lieutenant Lansdale set great store by the gun and frequently operated it nimself. Says Captain White:

"He appears to have depended great-iy upon the gun when the party was ambushed on April 1st. Twice it did not work and time was lost in overhauling it and great delay was consumed in trying to get it through the wire fence. Lieutenant Lansdale was loath to abandon it, but the fire was so galling that before he was wounded he was compelled to scatter the important parts and leave it behind. Prudence led him to deploy his men in open order. The men were not in sufficient numbers to hold out any longer and they were forced along by a charge which it was im-possible to withstand. 'Ensign Monaghan did stand. He stood steadfast by his wounded superior and friend; one against a score of savages. He knew he was doomed. He could not yield. He died in heroic performance of duty.
