The shelling of the American warships drove the rebels from Bacoor, so that the Americans control several miles of coast. General Lawton, with his staff and a troop of the Fourth cavalry, started to ascertain the nature of the insurgent position. He rode five miles along the coast to Bacoor without discovering the enemy. He found the town full of white flags, but there were no soldiers there. The women and children, who had fled to the woods during the bombardment, were camping in the ruins of their homes. The shells had almost knocked the town to pieces. The big church was wrecked and many buildings were ruined. Even the trees and shrubbery were torn as by a hail storm.

Several hundred women and children appears to have rtired on Imus, abandcame into the American lines for refuge and the road from Bacoor was covered forty wounded; majority at crossing, all day long with processions of them, and carrying goods on their heads.

Services for twenty-two were held in the Catholic church and from the Congregational church ten. There is still a large number of unburied dead, and, but for the fact that coffins failed to arrive today it is feared the number of funer als would have been close to fifty. Ten bodies still remain unindentified All of these have been counted in the list of dead, sent yesterday.
