New York, August 3.-The following stacement regarding the yellow fever situation was given out tonight by Dr. A. H. Doty, health officer of the port of New York:

'What is claimed to be an authoritative statement regarding the cause of the outbreak of yellow fever at the national soldiers' home, at Hampton, Va., appeared in the press yesterday. The substance of the statement is as

'An elderly inmate of the home obtained leave of absence and visited Santiago and on his return he brought with him some extra clothing with which in some way he passed New York quarantine without examination and disinfection of clothing and subsequently reached Hampton.

"I think that the people on the peninsula at Newport News are thoroughly protected by a shot gun cordon around their town, which is absolutely effective. Old Point is an ideal place for quarantine, as it is connected with the land by a bridge only with Phoebus and the soldiers' home. The management of the situation there as you know, is this: Dr. Pettus, United States marine hospital representative, is in full control with absolute power and authority. The outside man both at Phoebus and the soldiers' home is Dr. White, an efficient and competent man and one of national reputation in the special line. Dr. Wertenbaker is the o-operative man at Newport News.

Mr. St. John said: "I see no cause for special anxiety. On the other hand I see many reasons for believing the present troubles will continued to be confined to the small territory within which they originated. To my mind there is not the slightest occasion for alarm. Norfolk, Portsmouth, Berkeley, Ocean View, Virginia Beach and the territory connected therewith to the present time have produced not one single case, and I believe are not likely to. Norfolk and Portsmouth are in the hands of city governments, which command the respect of the people and the gentlemen in charge know well how to act in emergencies. On the other hand Surgeon General Wyman at Washington, is looking after the situation at the soldiers' home, Phoebus and Hampton, and there is no question as to his ability to cope with troubles of this kind; and that he will confine the disease to those localities in the belief of all who know the man and appreci-ate his wonderful abilities.

Mullins was captured soon after the crime was committed and while the officers were earrying him through the county to Newman, where it was thought he would be safe, a mob was trying to overtake the officers and se-cure the prisoner. When the Newman jail was reached the Newman Guards were called out and the company guarded the jail through the whole night. The officers this morning, fearing further trouble, brought the negro to this city where he will be held until his trial.

Receiver Asked for a Building and

Loan Association Pittsburg, August 3 .- In the United States circuit court today Harvey Gray of Connecticut, filed a bill in equity against the NewYork National Building and Loan Asssociation, asking that receivers be appointed to take charge of the assets of the defendant company in this district, valued at \$200,000. The states in which the defendant company has property are New York, Pennsylvania, Alabama, Connecticut, Iowa Tennessee, Kentucky, Virginia and

It is alleged that the defendant association is insolvent; that it will be unsafe to further carry on the business and that the interests of the creditors require that receivers be appointed to preserve the assets The court fixed tomorrow for a hear-
