> The revolutionists were led by Alverez and Calixto, who left Luzon sometime ago and for the last seven months had been stirring up the people, winning a considerable following. The commercial depression and the lack of food resulting from the island's blockade set the people against the revolutionists and culminated in the assassination on November 15th, of Calixto, a firebrand and the real leader of the revolution, by Midel, mayor of the town of Tetuan.

> Midel, under a pretext, secured Calixto's presence in Tetuan and were the mayor's guards were stationed. The latter fired a volley, killing Calixto instantly. Midel at once repaired to the Castine and arranged with Commander Very for the occupation of Zamboanga. Commander Very asked that Datto Mandi, with 500 of his followers, stationed on a neighboring island, come

The Castine was saluted with twenty-one guns and Com-mander Very landed 100 bluejackets and took possession of the town and fortifications. Datto Mandi's men arrived in the afternoon. They were armed with wooden shields and swords and were used on picket duty. Commander Very dispatched gunboat Manilla on November 15th

Alvarez sought to arrange for a sur render of the arms and artillery pieces On the afternoon of November 20th Midel called a meeting of the local chiefs, who formally deposed Alvarez as leader of the revolutionists in the island and elected Midel president of the new insular government establishcontrol. The chiefs then requested Commander Very to grant exemption from taxes until the re-establishment of commercial relations, permission to carry arms in the mountains, religious freedom and the power to conduct local governments as they had previously done, which requests, pending the arrival of Brigadier General Bates, the military governor of the district, the commander granted.

Commander Very then effected an apparently reconciliation between Alvarez and Midel and their followers, Alvarez signing a formal resignation of the position of revolutionary leader on November 22nd at a point on the coast near the rebel town of Mercedes. WAR MUNITIONS SURRENDERED. Alvarez delivered thirty Nordenfeldts and Maxims, with ammunition, which stored on board the Castine. Eight Nordenfeldts and Maxims were delivered to the army in Zamboanga, as were also over 200 rifles and ammunition. THE MACABEBE SCOUTS.

Washington, December 1.-Word omes from the Philippines that the two companies of Macabebe scouts under Captain Batson are doing so well that it has been decided to organize a full battalion of these natives. The additional two companies will be very useful in the present campaign, in tracking the fleeing remnants of Aguinaldo's disorganized army. E. C. Sell, in the presence of their immediate families.

The marriage on Thursday was in the Methodist church at 11 o'clock. It was a very pretty and impressive marriage ceremony, the pastor uniting in the bonds of matrimony Mr. Samuel Davies Rice, a highly esteemed and rominent business man of Honaker, Va., and Miss Mabelle Pearce, the accomplished and popular daughter of the late Captain E. L. Pearce, of Scotts Hill. Rev. E. S. Sell, the pastor, was the officiating minister.

The church was beautifully and artistically decorated for the occasion and with ferns, palms and chrysanthemums, the work of loving friends of the bride.

As the bridal party reached the church and proceeded up the center aisle, Miss Henrie Shepard, of Wi mington, skillfully rendered the brida march from Lohengrin. One of the most exciting runaways some time was late Thursday afternoon on Third street. A horse attached to a buggy, the property of R. H. General Methuen Wounded-Another Desperate Battle Expected Daily British and Boers Concentrating Below Ladysmith - List of Casualties Not Yet Complete - British Public Impatient Over Delay.

MODDER RIVER TO BE BRIDGED

London, November 30-The war office is today beginning to receive a list of the British losses in the terrible battle of Modder river last Tuesday.

The totals have not been made public, but it is known that General Methuen, the British commander, was wounded. A number of other officers

There is no news, of the further advance of General Methuen's column. It is though here that he halted today to get fresh ammunition and reinforcements. As soon as these arrive he may be trusted to continue his advance despite the wound he has received. In the meantime the Boers may have

been able to bring up fresh commandoes. Probably another obstinate battle will have to be fought before Kimberley is reached.

Before the advance is continued it is clear that the Modder river will have to be bridged, as the British are still on the south side of it. To repair the railway will be impossible with the resources at Methuen's command. Passing the troops across pontoon bridges will necessarily be slow.

British military experts say more men are clearly needed in all directions. Methuen's column is still weak. In Natal General Buller's relief force is not considered too large, while Generals French and Gatacre have only small detachments to operate in a difficult country-northern Cape Colony. Lord Wolseley announced tonight that the war office had decided to call out another division of 10,000 men of all arms for South Africa. This is the seventh division mobilized since the berinning of the war.

AN ADVANCE IN WAGES Granted to All the Mill Operatives in Fall River.

Fall River, Mass., December 1.-The move of M. D. Borden, of New York president of the Iron Works Company in this city, in voluntarily giving his help an advance of 10 per cent., forced the hand of the Manufacturers' Association, and at the conclusion of conference this afternoon between the five secretaries of the labor unions in the textile council and the special committee of the manufacturers, it was announced that the entire body of mill operatives in Fall River would be given an increase in wages of 10 pe cent. beginning Monday, December 11th, one week later than the date or which the Iron Works operatives will receive the full advance. The operatives, however, are asked to agree to the adoption of a sliding scale o wages, to govern the future wage list rior to next July.

The manufacturers, while not willing o admit that Matthew Borden's stand upon the wage question forced them to ollow, admitted that they were disapinted at his action. They claimed to have had authentic information a few weeks ago, when the agitation for an increase was begun, that Mr. Borden was opposed to the advance and would fight against granting it. On the strength of this the manufacturers committee said they sold \$2,000,000 fu tures to next March at figures that did not consider any advance in wages. The members of the textile counci have concluded to accept the new of fer of the manufacturers and refer i to the mass meetings of the unions. in the Stomach. Jacksonville, Fla., December 1.-Mrs. John D. Williams, a well known and beautiful woman of this city, died last night. Today after all arrangements had been made for the funeral, an order came from the coroner to hold the body, as an autopsy would be held. This action was taken by reason of certain suspicious circumstances connected with the death of Mrs. Williams that had been brought to the attention of States Attorney Hartridge. Shortly afterward a warrant was ssued for the arrest of John D. Williams, the young woman's husband and he was soon apprehended and placed in the county jail charged with the murder of his wife.

The autopsy developed that Mrs Williames came to her death by a vioblow in the stomach, bursting the bladder and rupturing other vessels. The woman died in great agony, but made no charges against any one. The husband had quarreled with his wife about a week ago and was heard to make threats against her. He refuses to talk except to deny the murder.

BRIGHT CHRISTMAS

The main object and desire of all yuletide giving is to convey PLEASURE. To this end we should select with an object to EVERYDAY usefulness. The costliest presents often afford the least pleasure because not wisely chosen. There are hundreds of Sisters, Brothers, Fathers, Mothers and Grandparents with dimmed and strained vision whose sight could almost instantly be restored to normal conditions by the application of proper glasses. Why not give YOURS new eyes for a Christmas present? Could you give them more pleasure or happiness? No wiser course could be pursued unless it be the course that leads to us for the glasses.
