Suit Against a Railroad by a

Drummer Who was Put

Off the Train.

A dispatch from Atlanta says: In

the United States Circuit Court Mon-

day, Judge Newman presiding, a very

interesting suit for damages against a

railway company was begun. The

plaintiff is John W. Harrison and the

defendant is Henry Finck; the receiv-

er of the East Tennessee, Virginia &

Georgia Railroad. The damages

claimed are \$5,000. The plaintiff.

who is a commercial traveller, too's

passage last February on a train on

the East Tennessee, Virginia and

Georgia, at Floville, his destination

being Jackson, only five miles away.

Not being provided with a ticket he

offered the conductor the price of the

ticket in currency, A strict rule of

the company provides that persons

not holding a ticket shall pay 25 cts

in addition to the amount of the fee,

receiving in return a rebate check,

which is cashed at any ticket office

been in effect some time, and Conduc-

tor Harris was familiar with it, and

had enforced it frequently. The rule

bonus. The passenger refused to pay

BRUTAL FISTICUFF.

A Bloody Prize Fight in Indiana.

HAMMOND, Ind., Feb. 3.-A bloody prize fight occurred here last night. The principals were Ed. Barry, of New York, and "Speed" Murphy, of the Chicago stock yards. Murphy was unknown to fistic fame, but Barry has a record of fifteen hard won battles on and about Birmingham, England. The fight was for a purse of \$300, and was attended by a crowd of 150 Chicago sports. Murphy is 34 years and Barry 24, and they each weigh about 150 pounds. Twelve rounds were fought and Barry won. Both were plucky and the fight was a good one. Barry forced the fighting from the outset.. In the first three rounds he rained in some severe face blows upon Murphy, cutting his eyes and his left cheek. It was hammer and tongs all the way through, but the most severe fighting took place after the tenth call to time, Then Barry, urged on by his friends, began endeavoring, with all his ability, to knock out his man. Several severe face hits told upon Murphy and he was staggering when Barry struck upon presentation. This rule has him a heavy right-hander. Barry followed it up with blows in the face. They clinched and fought back the ropes, and when separated, blood was called to Harrison's notice, and was streaming from cuts in Barry's the conductor proceeded to collect the face and shoulders. Several falls follow and Murphy bleeding, bruised it. The conductor tried to get the and breathing heavily, staggered money, but Harrison was obdurate. vainly forward as time was called and The train was stopped, and it was the his second threw up the sponge. conductor's purpose to put Harrison off, but the recalcitrant passenger not

comply with the rule and pay the The Sub-Committee Make Estimates for War Vessels.

WASHINGTON, D. C., Feb. 3 .- The sub-committee of the House committee of naval affairs, which has for some time been at work upon a bill praviding for the coustruction of war vessels and which has had the various measures on the subject before it, completed its work to-day and will lay the result before the full committee to-morrow with a view to securing action in the House early next week.

The bill prepared provides for two steel cruisers of about 4,000 tons displacement of the type of Newark number 1, with the best boilers and machinery, to cost not more than \$1,300,000 each; 4 steel guuboats, each of about 1,700 tons displacement of the type of gunboat No. 1, to cost not over \$525,000 each; one steel cruising torpedo boat of not more than 150 nor less than 135 feet in length, with a maximum speed of 24 knots an hour over a government knot course and with a speed with armament and coal sea service of not less than 20 knots an hour for six consecutive hours, to cost not more than \$100,000. and to be completed within one year from the time the contract is signed. The other vessels are to be built as near as can be under the terms of the act of August 3rd last. The bill appropriates \$2,450,000.

South American Mails.

WASHINGTON, D. C., Feb. 3 .- The Senate committee on appropriations has incorporated an amendment in the post office appropriation bill, which authorize the expenditure of \$500,000 in the transportation of South Ameri an mails.

· A FEARFUL DRAMA.

No. 20

Mother Propares Paris Green for Herself and Six Children.

ASHTABULA, Ohio, Feb. 3.-The house of William Morrison, of this city, was the scene of a fearful drama last night. The family consists of Mr. and Mrs. Morrison, and six children ranging in years from three months to 12 years. During the absence of the father, the mother prepared a bowl of paris green and water which she attempted to force the children to drink. She succeeded only with one, a little girl of six years. The mother then threatened to cut her own throat but was restrained by an 8 year old son who suggested hanging as an easier mode of dying. A rope was obtained, the little boy went aloft in an unfinished portion of the house and tied the rope to a joist The mother then secured a barrel, got upon it, placed her head through the noose, kicked over the barrel and swung off. With presence of mind the son hurried aloft, cut the rope and saved his dying mother. At last accounts the little girl is hanging to life by a thread, and the mother is too prostrated to realize her nearness to eternity or the fearful crime she so nearly consummated.

No Difficulty Apprehended.

WASHINGTON, Feb. 4 .- Senator Voorhees does not apprehend any difficulty in the seating of Senator elect Turple, who was yesterday chosen Senator by the Indiana Legislafure. He says the election was regular in its overy proceeding, and that Turpie's title cannot be successfully disputed.

Excitement in London

LONDON, Fel. 4.—The Stock Exchange has been excited all the afternoon and closed panicky. This unsettled feeling was due chiefly to feverish reports of heavy failures in Paris, and rumors of the collapse of an enormous banking concern in Ber-

The Dimensions of Hades.

The Landmark was visited yesterday by an intelligent young colored man who gave his name as Professor Caesar A Taylor, a native of Alabama, and at present residing in New York. The visitor stated that he was in this section to deliver a series of lectures to the colored people, shawing them that the investigation of science has not brought to light anything that is contrary to the teachings of the Bible. The sable hued Alabamian cited the well-known theory of the interior of the earth being in a state of fusion as a proof of the truth of the passages in the Scripture which indicate that Hades is located in the bowels of the earth. The visitor had several diagrams on which he had the location of Sheal down to a fine point, He locates it at about fifty-four miles from the earth's surface, or, as he expressed it, " about twice the distance to Newport's News." He declined, however, to commit himself to the statement that Newport's News was half way to Hades. He announces it to be his mission to refute the statement of the arch infidel, Colonel Robert G. Ingersoll, and stated that if Mr. Ingersoll was in town he was welcome to the iecture.

The diagrams are curiosities in themselves and well worth looking at. They show the "Interno" to be 7822 miles in diameter and 23.466 in circumterence, having lots of room, as the visitor remarked, for all who are unfortunate have quit work herause "scab" coal is enough to get sent there. - Norfolk Ludmark.
