Citizens Meeting Yesterday Morning.

In response to the ringing of the court house bell yesterday morning, about 9 o'clock, the citizens met in the court house to take some action looking to the detection and punishment of crime in Greensboro.

Col. Boyd having stated the object of the meeting, Mr. S. S. Brown offered the following resolution, which was unanimously adopted:

WHEREAS: Two of our citizens have already been knocked down upon our streets in the night time and killed by some unknown assassins, and whereas on last night our townsman, Mr. W. B. Crump, was dangerously assaulted on a public street; all this we see with an increasing alarm.

Now, therefore, in order that all such offenders may be apprehended and punished by law, we, the undersigned, promise and agree to pay the sums opposite our respective names to any person who shall secure the arrest and conviction of the person or persons who assaulted the said Crump or either of the two citizens (Mr. Parker and Mr. Owen), heretofore killed, on such condition.

Col. John A. Barringer thought the better plan would be to authorize the commissioners to employ a detective at once, and thought the amount offered should not be subscribed for the detection and conviction of the criminal, but should be used in paying the expenses and salary of the detective, as it was difficult to obtain a detective where it was a condition that the party should be "convicted."

Judge Schenck offered the following as a substitute for Mr. Brown's resolution, but afterwards changed it to a separate resolution, which was adopted: Resolved, That the committee heretofore appointed by the public meeting of the citizens be requested to have an amendment added to the city charter granting power and authority to the Board of Commissioners to employ detectives and offer rewards and take measures to discover and bring to justice the perpetrators of crime in the city.

Mayor King made some remarks and introduced the following resolution:

Resolved, That the chairman of this meeting appoint a committee of five citizens authorized to solicit voluntary contributions to be added to such reward as may be offered by the city to secure the arrest and conviction of the murderers of Parker and Owen, and the person who assaulted Mr. Crump. Adopted.

The following persons were appointed to constitute this committee: Messrs. Sample Brown, G. Will, Armfield, John H. Whitt, W. S. Moore and E. P. Wharton.

Mr. L. M. Scott made remarks favoring the action of the meeting.

Col. John A. Barringer offered the following, which was adopted:

Be it resolved: That it is the sense of this meeting that the mayor and commissioners of Greensboro, N. C., are authorized and requested to em-

ploy a detective at once and pay his expenses and remuneration as they may see fit, and do all other things necessary to ascertain, arrest and convict the party who assaulted Mr. Crump, which occurred on the night of the 11th inst.

Remarks were made by the editor of the Workman, Hon. D. F. Caldwell, and W. S. Ball.

Judge Schenck offered the following additional resolution, which was unanimously adopted:

That the mayor and two other citizens appointed by the chair be requested, in such manner as may seem best to them, to collect all the evidence they can, bearing upon the crime committed last night, and to request the aid of all good citizens in this work.

The following persons were appointed on this committee: R. M. Reece and J. D. White.

The meeting then adjourned.

There are 1,071 Young Men's Christian Associations in the United States. None in Greensboro, however.

No man is fit for God's service who is not willing to do little things. The people who are always waiting for an opportunity to do some great thing never accomplished anything.—Moody.

There is nothing preferable to the remembrance of a good action, except the intention of doing a better.

A harsh voice, a coarse laugh—trifles like these have suddenly spoiled a favorable first impression. The cultivation of the heart must be real, not feigned.

Day by day we are making the influence which will presently be our rulers; we are making our destiny. We are choosing our habits, our associates, our traits, our homes. In time these acquire a power over us which enslaves our will, and we neither will nor can break loose.—Orphan's Friend.

There is seldom a line of glory written upon the earth's surface but a line of suffering runs parallel with it; and they that read the lustrous syllables of the one, and stoop not to decipher the worn and spotted inscription of the other, get the least half of the lesson earth has to give.

A poor little boy, while attempting to jump from a city car the other afternoon, fell beneath the car, and was fearfully mangled. As soon as the child could speak, he called piteously for his mother, and a messenger was at once sent to bring her to him. When the bereaved woman arrived, she hung over the dying boy in a agony of grief.

"Mother" whispered he, with a painful effort, "I sold four newspapers, and the money is in my pocket." With the hand of death upon his brow, the last thought of the suffering-child was for the poor hard-working mother, whose burdens he was striving to lighten when he lost his life.

That intemperance is the monster evil of the land is a self evident proposition, and though people may differ as to the means to be used in its suppression, still a tree must be judged by its fruit, and the fact that the temperance workers have done much good will hardly be denied by the most ardent anti-prohibitionist.—Danville Register.

Sleep.

Dr. J. Menli-Hilty, recommends a position during sleep in which the feet will be elevated about eight inches; the habit can be easily formed if the process is undertaken gradually—the pillows being taken from beneath the head and placed under the feet. Many years experience with this method of sleeping convinced the writer that the circulation is improved and better nutrition for the brain and nerves obtained. As the thyroid gland acts as a regulator for the distribution of the blood, no undue congestion of the brain need be apprehended. He recommends his method for nervous disorders depending on anaemia of the brain and spine; coorea, epilepsy, etc., and in diseases of the heart and lungs.—Health and Home.
