JUDGE LYNCH'S WORK. Five Men Taken from Jai and

THE LATEST NEWS.

Five men, all colored, were hinged near Yorkville, S. C., yesterday morning, by a mob. The names of the parties who were lynched are: Dan Roberts, Giles Good, Prind The nson, Bailey Dowdle, Mose Lipscombe. They were lynched for the brutal murder, some months ago, of a little

white boy, named Johnnie Good :.

The five prisoners arrived at Yorkville from Columbia last Monday, and were placed in jail to await their trial before Judge Pressley, of the Circuit Court. Their trial was set for yesterday and was to have been commenced in court yesterday morning, but Judge Lynch declared it otherwise. At three o'clock in the morning, the jailer was aroused by a noise at the jail door, and looking out he saw that a mob of about 200 people had as-Ten thousand feet of lumber was sembled, and though he must have realized that resistance against such a crowd was useless, he firmly declined to surrender the jail keys. The lynching party, however, was prepared for this, and had taken the precaution to come armed with axes and sledge hammers. The jailer was overpowered and the leaders of the gang rushed into the jail and with their axes and hammers commenced battering down the doors. Iron bolts slowly but surely gave way before the storm of blows, and within a few minutes the trembling captives were be-

> ing hurried away to their doom. As the crowd emerged from the jail with the prisoners the whole party took up the march for the woods and reaching a spot about one half of a mile from the town, a halt was called. Ropes were quickly produced and adjusted around the neck of each prisoner, and then without any furthup and the mobbers dispersed. Four of the men were hanged to one tree and the fifth was hanged to a tree near

The men who were lynched were five of a gang of desperadoes, who belonged to a regular organized band of robbers. The band had committed serious depredations in York county, and they were detected in stealing cotton from a farmer named Goode, by Johnnie Goode, his son. The boy threatened to tell on them, and to avoid detection they killed the little fellow. One of the party decoyed the boy into the woods, where the whole crowd fell upon him with rocks and sticks and beat him to death, not even desisting until the body of the unfortunate boy was terribly mutilat-

The prisoners were confined, for safe keeping in the penitentiary, at that place, and were kept there until Monday, when they were taken to Yorkville, the scene of their brutal crime, to stand trial, with the result already de-

A Novel Bear Hunt.

A correspondent of the New Berne Journal is responsible for the following interesting account of the killing of a bear :

The citizens of Swansboro were

aroused from their quietude Wednesday morning last by a large black bear walking in to see them. Immediately the citizens to the number of forty or fifty started out in pursuit of bruin, armed with the proper implements of murder-some with guns, some with broad swords, others with pickaxes, reaphooks, drawknives, brierhooks, scythe blades, clubs, axes, etc., and with dogs to assist, soon came upon Mr. bear near a pond of water, sitting up, or down rather, with Mr. Russell's little fiste dog keeping company, the rest of the dogs having turned tail towards home. Shooting soon commenced. Bruin received two or three random shots, one by Capt. Heady, another by Robt. Jones, the first in the face of bruin, the next in the side near the shoulder. This made bear mad, and he jumped in the pond followed by Heady, who jumped on his back and rode him across the pond, where he was met by Capt. Loughlin with a brier hook, also Russell with a reap hook, and Dan Ward with a club, and some one else with an axe, and after something less than two hours' time from the beginning, bruin was captured, killed and skinned. This was a very large bear, weighing 280 pounds dressed. The supposition bear, from his actions during the chase and capture.

The Newbern Journal says that some of the justices of Craven county have been surprised by the sheriff who has recently arrested them upon capiases by the Clerk of the Superior Court. They were presented by the grand jury at the Spring term of the court, 1886, for failing to make returns to the Clerk, as the law requires, and at the Fall term true bills were found against all who had failed in this duty, and capiases are now issued to secure their appearance at the next term of the Court.

On the Defensive.

It is surprising, when we come to look at it, how perpetually on the de-fensive all mankind are. There is hardly anything worth having which we do not have to defend. We have an army of doctors to defend our lives and an army of lawyers to defend our property. Not even a farm, not even a field, not so much as a cottage garden, is without fence or wall to protect it from dreaded aggression. Locks, bars, shutters, bolts are in universal use in our civilized land, showing that everywhere it is vain to have anything without tak-ing means of defending it! In short, we are always and everywhere compelled to be on the defensive. -Ex-

Why? Just because people offend God's imperative command, "Thou shalt not steal." Only think at what a cost we defend ourselves! Now, what inducement can we place before people to incline them to obey LONDON, Apr. 6.- The suspension of was that it had been once a tame God? Dr. Rosser: Rev. Dr. Rosser is over 71 years of

every day since 8th January last, and on Sunday twice. He keeps up well. His preaching is very remarkable. His sermon on Sunday night deserves to rank with the other five or six ablest sermons we have heard in nearly fiftynine years. We do not remember to have ever heard a greater preacher take him all and in all. Some of his sermons are positively tremendous. A man should have courage of conment. We are not sure that he is not the greatest preacher we have ever heard. You must hear him often to get the measure of his powers. He is a wonderful old man. Mind you, we have heard Tyng, Hawks, Chapin, Balch, Ives, Atkinson, Hezekiah Leigh, Dr. Fuller, Dr. J. L. M. Curry, Tom Lowe, Bishop Pie:ce, Linus Parker, Deems, Moran, and other famous preachers. Lowe was more eloquent than any. Pierce was no doubt the greatest preacher in the South, but the sermon we heard him preach was far below several we have heard from Dr. Rosser.

Hotel Clerks.

"I'll tell you why the newspapers ridicule clerks so unmercifully." said a member of that much-abused profession the other night. "One of the chief duties of the hotel clerk is to answer questions. A thing you are in the habit of doing all the time soon becomes almost automatic, and you can do it while your mind is really on other things. People ask the same questions of a hotel clerk a hundred times a day. He quickly gets the answers down to the briefest possible formula. These he rattles off in a perfunctory, uninterested way to all inquirers, including newspaper-men. The newspaper-men get an idea they have not received sufficient attention, and immediately jump to the conclusion that the hotel clerk's abstracted manner is due to self-conceit, when it is simply a result of systematizing his work.

There's a great deal in this, but the fact remains that in some unaccountable manner many hotel clerks, and especially young ones, absorb the idea that they are of vast consequence in a community and above the necessity which other business-men find of being civil to all comers. I saw a very chipper young snob of a clerk beautifully taken down by an older and more experienced snob at an up-town hotel a few nights ago. The young man in question handles the mail of so many distinguished statesmen that he quite considers himself one of them, and feels competent to patronize all ordinary people who fall in his way. A well-known Senator of a dyspeptic diathesis and uncertain temper had just arrived. The young clerk beamed on him with all the kindliness of personal regard, inquired after his health, and wound up by asking in a rather loud tone of voice when the statesman's wife and daughter would return to town. The Senator turned on him with a look that just desolated the smirk on his countenance, and dryly but loudly answered, "Well, I'll let you know in time for you to make the fires in their

the chocolate voice of the contralto, the Whistler symphonies of color, and perfumes in the major and minor modes are nothing new, but small Tommy hit upon a transposition from the domain of one sense into that of another when they gave him an emulsion of cod-liver oil the other day. "It doesn't taste very bad, does it?" asked the ring of kinswomen who had gathered around, adjuring him to "take it like"-like several sorts of heroic beings. "No," said he, trying to renew the sensation caused by its passage over his tongue, "n-no! It tastes like a bronze-kid slipper-with a squeak in it."-Boston Transcript.

In Sweden, if you address the poorest person in the street, you must lift your hat. A gentleman passing a lady on the stairs at a hotel must do the same. To enter a store or bank with one's hat on is a terrible breach of good manners. He brought his wife a present of a gold watch and chain, and went back to his home in the woods to live as usual.

The vicissitudes of fortune are strongly illustrated in a New York case, where a man whose name not long ago would have been good for \$2,000,000 spent two or three hours in the rear office of a Wall street broker a few days ago, waiting for an opportunity to borrow \$10 from one who was once his clerk.
