

GREENSBORO ALMANAC.—Sun rises 4:23. Sun sets 7:40. Moon sets 8:42.

—Old newspapers for sale at this office at 25 cents per hundred.

—Capitalists who wish to make investments in North Carolina lands, are invited to correspond with the editor of the MORNING NEWS.

—The Durham Plant announces that the daily Durham News has suspended, a second time, for the want of subscribers and paying advertisers.

—The Wilmington papers announce the arrival of Mr. Bonitz with his printing material, and say that the first issue of the Wilmington Messenger will appear next week.

—The twenty-foot poles for the electric lights were distributed through out the city yesterday, and holes dug preparatory to their erection. This begins to look as though we are really to have the light.

—Our reporter ought, probably, to have used the word suggestion instead of proposition, in his report of what was done at the meeting of the Board of Commissioners in regard to the Presbyterian church lot.

—Work began in earnest on the streets in the Northern portion of Greensboro yesterday. About a dozen new hands were organized into a corps under a competent overseer, and the work last evening looked quite satisfactory. The corps will be increased and the work pushed with energy.

—Mrs. E. Warren, mother of Joe Warren, candy maker for the Greensboro Candy Co., brought some fine schrimps from Wilmington, N. C., which may be seen at the store of the Greensboro Candy Co. Those who never saw a shrimp will be interested in looking at him in his coat of pink mail.

—The old Forbis Furniture Corner has undergone a complete change. One who knew it a year ago would scarcely recognize it now. What with its elegant glass front, a coat of dark red paint and with its bright penciling, it presents a very handsome appearance. The fact is, South Elm street, as a whole, has wonderfully changed for the better within the last twelve months.

—The question of a "Sunday Law" coming up before the Board of Commissioners on Tuesday night, quite a discussion ensued as to what should be sold on Sunday and what prohibited. A proposition to prohibit everything except "necessaries" did not meet the case, as it was argued that some might feel that liquor and cigars were "necessaries." The question was finally postponed to Friday night next.

—At the meeting of the Commissioners held Tuesday night a fee of \$50 each was allowed Cols. Morehead and Boyd for prosecuting, on behalf of the city, Jim Boyd and Carter Johnston, the men who knocked down and robbed Mr. W. B. Crump in February last. The arrest and conviction of these two men cost the city only \$2.31. They are now engaged in the internal improvement business, on the C. F. & Y. V.

—There is now little doubt that 1887 will be the biggest building year that this country has ever known in railroads, factories and other houses. It is now estimated that 21,000 miles of new and 19,000 miles of old railway track will be laid this year—thus affording the iron furnaces and steel rolling and rail mills an abundance of work. The cost of these railroads is estimated at \$533,000,000 for the new and \$100,000,000 for the old roads—or say \$650,000,000 of capital needed for the rail roads alone.

GOOD NEWS.—Mr. W. B. Farrar is always up with the times. He has just invented a new device for regulating watches to the second, and has applied for a patent. Railroad employes and all persons owning good watches can now have them regulated to the second. Go and see him and he will take great pleasure in showing his device. He also has a telegraph line running to his bench which gives the time each day at 12 m. Others may imitate Farrar, but they can't beat him.

—The North Carolina Teacher which is being issued daily from Morehead City during the Teachers' Assembly, has the following: An idea of the number of people at the Assembly may be formed from the fact in bread alone over two barrels of flour and two hundred pounds of lard are consumed daily! And at breakfast this morning there were used one whole ox and a half, three sheep, one thousand fish,

ten hams, twenty-five hundred biscuit, six hundred chickens and two thousand eggs! Sixty gallons of soup are eaten at dinner and over two tons of ice are consumed daily.

—Dr. Eugene Grissom, Superintendent of the N. C. Insane Asylum, was unanimously elected President of the National Convention of Superintendents of American Institutions for the Insane at the Convention held in Detroit, Michigan, last week. In referring to his election to this prominent position, the Biblical Recorder very truthfully says, Dr. Grissom is one of the most accomplished physicians in the South, a man in every way worthy of the distinguished honor conferred upon him by this National Convention of his learned brethren. We congratulate him and his State on his election.

—Died, in this city, Wednesday evening, June 22, at 6½ o'clock, John W. Kernodle, after a severe sickness of five weeks. Brother Kernodle was taken sick of the prevailing summer complaint, which, in connection with other complaints, caused his death. He was carefully nursed by his wife all the while he was sick, whose attentions were constant, night and day, and who administered all his medicines. She was assisted in his care by the Odd Fellows, of which order he was a member. He was also a member of the Market-street M. E. church. Mr. Kernodle was born in Rockingham county on the 15th day of March, 1853, consequently he was aged 34 years 3 months and 6 days. The funeral will be attended by the Odd Fellows, probably at 5 o'clock this p. m. He leaves a devoted wife and two children.

—A correspondent writing to the Wilmington Star from Morehead City says that the meeting of the North Carolina Teachers' Assembly of that place is the greatest gathering known in the State. Nine hundred and fifty members of the Assembly are present. All the lectures are by residents of this State, and in addition to the regular course there are thirteen special lectures by prominent North Carolinians. Lieut. Francis Winslow, of the United States Navy, lectured Saturday evening. Gov. Scales lectures next Thursday and ex-Congressman A. M. Waddell next Friday. Next Saturday a special report will be made on the establishment of a North Carolina State Normal College on a scale far larger than anything previously attempted. The Assembly adjourns on the 30th inst., and then goes to Washington in a special train and steamer to spend a week there.

A CORRECTION.

Mr. Editor:—There is a slight error in your account of the proceedings of the Board Tuesday night as to the purchase of additional ground for the Graded School building. The Presbyterian congregation has not yet determined to erect a new church, but a number of its prominent members favor it and it was a part of their plan to build a neat wall around the old grave yard so as to preserve and protect it and then to sell the front, where the present church stands, to the city as a site for the Graded School building. Then the old Graded School lot would afford a play ground for the children. The present proposed building will nearly fill up the old lot and have no room for the children to play. The new proposed location, where the church now stands, would give great prominence to the beautiful building to be erected and it will be in a conspicuous place adding much to the adornment of the city.

If the city will give the Presbyterians enough for their lot to purchase a new lot for their church, which no doubt would be an elegant building, then the city will have two instead of one new public building which will be in accord with the spirit of progress in the city. The title to the church property can be arranged satisfactorily in the opinion of competent gentlemen who have investigated it. Communities are judged by their school houses, which more or less indicate educational advantages and the intelligence of the people; by its churches, which represent its Christian character, and by its court houses, which are warnings to evil doers. Let us have all these things in harmony and in the advance line of progress.

June 22, 1887. Odd Fellows Notice. The funeral of Bro. J. W. Kernodle will take place from his late residence this afternoon at 5 o'clock. All Odd Fellows are requested to meet at their hall at forty five minutes past 3 to make preparation for administering the rights of the order. Visiting brethren are invited to attend. By order of Noble Grand. J. W. Albright, Sec'y.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1886. For a long time I have been suffering from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

Constipation

Is a universal and most troublesome disorder. It causes Headache, Mental Depression, impairs the Sight and Hearing, destroys the Appetite, and, when long continued, causes Enlargement of the Liver, Inflammation of the Bowels, and Piles. Constipation is speedily cured by Ayer's Pills.
