The Morning News.

VOL. I. GREENSBORO, N. C., MONDAY, JUNE 27, 1887. No. 141

CITY COMMISSIONERS' MEETING.

The Board of City Commissioners met on Friday night according to adjournment. In the absence of the Mayor, on account of sickness, Com. Bevil was called to the chair.

To the Honorable Board of Commissioners of Greensboro.

The School Committee respectfully reports that it met on the 22nd, and gave full consideration to the subject of "The Graded School" for the white children of the City.

There is one conclusion, upon which we are unanimous, and desire to emphasize it.

1. That there shall be a grade established in the school in which shall be taught the necessary studies to prepare the boys for entrance into the Freshman or lowest class in College.

There are many bright and promising boys in the City who have ambition to acquire the elements of a classical and mathematical education so that they can enter College or continue the pursuit of knowledge by their own efforts after gaining the foundation upon which they can build, but who have the misfortune to be too poor to enter the higher schools of the State or its Colleges, and it is the duty of those who are blessed with property and pay taxes to assist these worthy boys to get a good education at home, at their own doors, and the community will be amply repaid by the honor which they will bring to the City.

It is a mistake to say that the Graded School is a "poor man's school" and that poor boys do not crave nor need anything but an ordinary English education. It is the poor boy who feels the need of education to enable him to compete with wealth and power, who most ardently and earnestly desires to enlighten his mind with intelligence and learning and elevate himself socially and morally to the best grades of society, and, happily, in this land, education and moral worth are the tests of merit and reward. Neither wealth nor birth is of much value in the race for honor in a Republican State like ours.

Your Committee also deems it a great risk to send boys to College at the tender age of fifteen or sixteen years, when they usually complete their English studies in the Graded School. It is an age when they are most susceptible of being misled by the vices and influences of unworthy associates, who are the first to gain their confidence.

These boys should be taught at home until their judgments are more matured, their habits more fixed and where, above all, they have the example and influence of home and church to protect them from temptation and "the wiles of the devil."

The Committee, therefore, recommend that a Grade preparatory to College be taught by the Superintendent of the School.

2. The Committee recommends that another teacher be employed, increasing the corps to six instead of five, and that the Superintendent assign said teacher to such place as the necessities of the school requires.

The Committee recommends that this teacher be a lady of experience in the profession. The Committee has not thought proper to recommend any rules, in detail, for the government of the scholars, but thinks it wiser to leave this to the management of the Superintendent,

intending, who shall confer, from time to time, with the School Committee, and that it shall be the duty of the Superintendent to carry out these rules faithfully and to report every violation of them, by the teachers, to the Committee, and to require the scholars to obey them, on their part. Respectfully Submitted, D. SCHENCK, Chairman.

Upon the receipt of a petition from citizens living in the neighborhood of the jail, and after a discussion of the matter by the board, Com. Schenck offered the following which was adopted:

Whereas, the County Jail has been unfortunately located on North Elm Street, the most public and beautiful of the City Streets, where more citizens and strangers and business men pass than any other, and whereas from time immemorial the sight of prisons and their inmates and the unpleasant incidents and appurtenances connected therewith have been very objectionable to our citizens generally and especially to those in the immediate vicinity thereof, and whereas the Board of Commissioners are using every effort to improve the City and make it attractive to those seeking homes among us, and whereas the present jail is the most unsightly building in our midst, Resolved, That we most respectfully request our County Commissioners to procure a lot at some less objectionable location and remove the jail to it. That a Committee of three be appointed to present this resolution to the County Commissioners and urge them to grant our request.

The election of teachers for the colored Graded School coming up in regular order, on motion, (by request of some of the applicants for position) the election was postponed until Friday night, July 1st.

Mr. Woodroffe, the architect, being present, exhibited his plans and specifications for the new Graded School building, after which it was ordered that the committee advertise for bids on the building to be opened on Tuesday, the 12th of July, 1887, with privilege to reject any or all bids, or to accept the lowest and best among them, if preferred.

A communication was received from Mr. A. Hagan accepting the offer of six hundred and fifty dollars for 26 feet of his property and allowing him one hundred and fifty dollars for removing his building. On motion it was ordered that Mayor King and W. E. Bevil be appointed a special committee to settle the matter of difference with Mr. C. F. Thomas in regard to opening a street through his property and to confer with J. E. Gilmer as to the small strip taken from his lot on Greene Street, and report to the next meeting of the board.

Mr. Turner, chairman of the Street Committee, was instructed to purchase for the use of the city a street scraper. He was also instructed to hire a horse for temporary use. Coms. Schenck and Turner were instructed to confer with Mr. Merritt in regard to the street that runs through his lot.

On motion, the committee on North Elm St., was authorized to construct a brick culvert on Schenck St., near Edgeworth.

There having been complaint as to the irregularity of lighting the street lamps, Col. Leftwich came before the board and made a statement. It was agreed between himself and the board that hereafter all the street lamps are to be lighted by 8 o'clock on each dark night. It was also understood that during moonlight nights, when the sky is over cast with clouds, the lamps must be lighted.

Several questions looking to the betterment of city interests were talked over in a conversational way, and may result in some good legislation in the future.

Bills for blacksmithing, a record book, freight and some lumber, amounting in all to \$13.55, were ordered paid, when the board adjourned to meet Tuesday night, 28th inst.

Little Butter Cups. Pure and sweet; little butter cups made every day by GREENSBORO CANDY CO.

THE LATEST NEWS.

Production of Coal in United States.

WASHINGTON, June 25.—The United States Geological Survey furnishes the following statistics of the production of coal in the United States in 1886: The total production, exclusive of that consumed at the mines, was 107,682,200,209 short tons, valued at \$147,112,755 at the mines.

Mrs. Cleveland Chosen a Trustee.

AUBURN, June 25.—Mrs. Cleveland was today chosen a trustee of Wells College, at Aurora. To bring about this it was necessary to first pass a resolution, admitting women to the board.

Three Men Killed.

MILWAUKEE, June 25.—Three men were killed and two others badly injured by the breaking of a derrick at Isabella mine, near Iron City, Mich., yesterday.

Boys Who May go Swimming.

If you have a boy named Bill, or Bud, or Sam, or Tom, you need not fear that he will be drowned during the swimming season. The boy who has a plug name and whose hair stands up straight like a hazel brush, and who has stone bruises on his feet, is not in danger of drowning.

Rules for Business.

- 1 When you work, work! and when you play, play! but do not combine the two. 2 Social calls should be made very brief during business hours.

CONDENSED STORIES.
