It is now said that Texas will carry Prohibition in the coming election-being naturally, a very dry State it will no doubt do so.

The color line is agitating the Grand Army of the Republic in Louisiana as well as the Episcopal church in South Carolina.

A. L. Parent, the defaulting cashier of the Hochelaga Bank, of Montreal, having returned the stolen funds, is angry at being prosecuted in Chicago.

General opinion in Great Britain recognizes that recent political events there point to a revival of Mr. Gladstone's popularity and influence.

The Bell Telephone Company has just declared an extra 4 per cent. dividend, making 12 per cent, for the year. The Bell Company has a very enjoyable monopoly, as the public will attest, but according to the eternal fitness of things the time has now arrived for a collapse.

Brother Long, its new editor, is a graduate of the University and has just not a nation of seamen, and it is hard entered the journalistic profession. He is making an excellent paper and we predict for him a brilliant career.

The negroes of Tarboro do not seem to stand much in awe of the recent fate of one of their number who was lynched for an assault on a white girl. They now insist that the evidence was insufficient, and propose to take revenge by hanging-the white girl who was the rascal's victim. They will probably open their eyes if they carry their purpose into execution.

Tenement houses in New York present an awful record of mortality whenever there are a few successive days of very hot weather. Last week there were 1,276 deaths in the whole city,

### INDEX OF A PLACE.

The hotels and the local press are a good index of a place. A-newspaper is more than a private enterprise, for it is a public teacher, a disseminator of local news and a motive power in the development and prosperity of a country. Then it becomes the duty of every true citizen to The Concord Times, since it help build up and support his county paper and take an interest in its welfage. If the citizens were to pay promptly for their local paper and aid the editor with cash instead of censure, then would our country press rejoice in The Southern Passenger prosperity. ## A Naval Need.

"We need something more than good men-of-war if we should have a little bout with Britain," said an ex-naval officer. "We also need good American seamen; men who love their country and can be relied on in battle. These we have not. Why, do you know that fully two-thirds of our sailors are foreign born, with foreign shections, and without a thought of becoming citizens of the country from which they earn their substance? These men are undoubtedly good seamen, but if a great naval war came on, to which their native countries were parties, would you consider them reliable? They serve us solely because we pay them a little more, give them better rations and clothes and more privileges; so they could not be held by motives of paratism and might desert us at a ccitical moment. I am sure I would not like to command a man-of-war in The Winston Sentinel comes war times with two-third of my men the very nation I am fighting.

"How did all these foreigners get into the United States navy " asked

the reporter. "Because, in the first place, we are to get Americans to go aboard our vessels. Then, it seems that the naval authorities have a particular love for foreign seamen and accept them more readily than Americans."

"Why?" "Because foreign sailors, especially the Dutch, Swedes, and Norwegians, are servile, cringing, and will submit to treatment that no American would brook. They are said by the naval officers to be more amenable to discipline, but the fact is they are liked because they have been used to brutal treatment and show no signs of objection to it."—Cor. St. Louis Republican.

The Swiss people appreciate the value of their natural scenery in attracting the foreigner. A short time ago it was announced that manufacturers were making arrangements to construct a huge dam, by means of which they hoped to subsidize the Rhine to a degree of fifteen thousand horse-power for the service of their factories. The government of the place immediately forbade the scheme on the plea of beauty and business, and another, though smaller, Niagara

# No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a nonintoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881. Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hun-dreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief
