Deal and Dumb Burglars Don't Count.

PETERSBURG, Va., July 21.- A novel and interesting trial to-day was that of Burwell Lancaster, a mute, thirty years old, indicted for burglary. The indictment was read to the prisoner by the Clerk of Court, but of course the prisoner could hear of it, and appeared, as he doubtless was, entirely ignorant of what was going on around him. The father of the young man testified that he was born deaf and dumb. The Court instructed the jury if they believed the prisoner to have been deal and dumb at the time of the commission of the alleged buglary they must acquit. The jury rendered a verdict of not guilty. Lancaster was then taken back to jail to await trial for two other effenses.

Beach Hawley's Suicidal Shot.

NEW HAVEN, July 21 .-- It appears that Beach Hawley, the nine-year old son of Edison Hawley who shot himsell at Newton yesterday after startiing out on "expedition to Africa," attempted suicide instead of shooting himself accidentally. Another young ster had promised to run away with him, but did not put in an appearance, and this made Hawley melancholy. When he left home he took his brother's bank book in mistake for his own, and was alraid to return home on this account. He then made up his mind to kill himself. The shot took effect in the head, but he has a slight chance of rec very. His father said | Saher of Sinde, two of the Indian Prin, to-day that it was undoubtedly a case of attempted suicide.

We then subscribed for a large number of copies, loaded with local advertising and great advantages, and we found by conversing with parties who finally came here prospecting that the full advertising columns of our papers which they had seen did more than all else to impress them with the growth and importance of the place. We found then we could not overdo this thing-that the more we paid out for these purposes the more were our profits. Every new comer was a customer to most of our stores, and while their advertising paid to them rich returns, it served the double purpose to impress the Eastern man who had an eye to business with the fact that Wichita was a rising town, and thus we have gone on until we have added population since 1 came here of over

20,000, and property has increased in business places more than a thousand fold, and in the country round about per cent.

I know as well as you can know that printer's ink is the best capital to boom a town. Had we not used it unspairingly Wichita would not have been larger than Carthage. As it is we will soon outrank any town in the State."

That is certainly a most excellent statement of the case. But it took money to do this. Hundreds of thousands of circulars, special editions of local papers, &c., could not be sent out without costing some money. Did it pay? Well, the growth of Wichita in a year or two from comparatively nothing to a great trade and railroad center, the increase of over a thousand per cent. in the value of real estate, and an increase of over 20,000 in
