

EDITORIAL DASHES.

Congressman Mahoney, of Brooklyn, is about to visit Ireland, his birthplace.

The ex-school tax gatherer of Conshohocken, Pa., has disappeared with about \$1,000, more or less, of public funds.

Prominent engineers are recommending the use of heavier steel rails, and have had 100 pounds to the yard tried.

Mrs Perry, widow of Commodore Perry, the hero of Lake Erie, is living at Stratford, Conn., in good health and spirits for an old lady.

Manuel Barriant and wife, of Matamoros, Mexico, recently celebrated the 80th anniversary of their wedding.

Joseph Medill, of the Chicago Tribune, ventures the prophecy that Cleveland will be the Democratic nominee for President in 1888, and that the Republicans of New York will decide who the Republican standard-bearer is to be.

The visit which Jefferson Davis proposes to make to Richmond in October, when the ceremony in connection with the Lee Monument will take place, will be his first visit to that city since Gilbert C. Walker was Governor.

The health of the Empress Eugenie has greatly improved since her stay in Amsterdam. The treatment of the Dutch doctors appears to suit her constitution.

Lovers of the waltz may celebrate its centenary. The first dance which could be described as a waltz was introduced to the public in an opera Vienna in 1787 by one Vincent Martin Solar (commonly called Martini lo Spagnuolo), who was a popular composer at the court of Joseph II.

The Lee Association, of Mobile, Ala., has undertaken to push to completion the work inaugurated some time ago for the erection of a monument in that city to Admiral Raphael Semmes.

The prohibition issue is making things warm in Texas, warmer even than the season warrants. A paper from out there says it does not feel called upon to answer every hissing reptile that "crawls his slime" across its pathway.

General William T. Sherman—who is so much more practical than his brother John—says that for \$25,000,000 to be expended on harbor fortifications for New York he will engage to put the city in a position to defy the iron-clads that to-day can lay that city in ashes in two hours.

His engines of destruction across South Carolina in '65, left Columbia a smoking ruin, and the country for miles a stretch of blight and devastation, and said a crow flying across the State would starve—perhaps the cowardly whelp now realizing that his days are few and beginning to feel the hot breath of a future conflagration, bigger than any he ever kindled, has awoke to the fact that there is a possibility of his blood-thirsty villainy coming home to him.

The Eighteenth Century.

Carlyle's dislike and contempt for the eighteenth century, which he calls "a bankrupt century," having nothing grand in it except grand universal suicide, named French revolution, by which it terminated its otherwise worthless existence, is the contempt of one who had made such a study of that century as no other writer has made.

If any man has a right to pronounce judgment upon a century, from a thorough study and appreciation of its men and thing and events, Carlyle has a right to do so in the case of the eighteenth century.

They would have adorned any century of the past. Then the eighteenth century was the birth century of Webster, Clay, Calhoun, Bryant, Irving, Cooper, Channing and others, who gave to us national renown and character, and established on a firm basis the work of the founders of the federal government.

The old world it was the era of such epoch-making rulers, militarists and administrators of government as Czar Peter (who, in spite of his vices, was a great statesman and emperor) of Russia, Frederick the Great of Prussia, Charles XII of Sweden, William Pitt, the great commoner of England and the coadjutor of Frederick the Great in humiliating the Bourbon despots of Spain, France and Austria; of Clive and Hastings, the conquerors of India, and of Wolfe, the conqueror of Canada; of the portentous French revolutionists, Mirabeau, Danton, Marat and Robespierre, colossal in their wickedness as the worst of the twelve Caesars.

A Queer Story.

I heard a queer fact to-day that seems to come fittingly under the head of mind-reading. Last fall there was a company of Zuni Indians stopping in and around Boston.

This newspaper man has received a letter from Mr. Frank Cushing, the young ethnologist who was instrumental in bringing the Zunis here.

—Minnepolis Tribune.

"It Saved My Life" In a common expression, often heard from those who have realized, by personal use, the curative powers of Ayer's Cherry Pectoral. "I cannot say enough in praise of Ayer's Cherry Pectoral, having as I do said, but for its use, I should long since have died from lung troubles. — E. Dragdon, Palestine, Tex.

LYDIA F. PINKHAM'S VEGETABLE COMPOUND. For all those Profuse Complaints and Weaknesses to which our best female population are liable. A Medicine for Women, Prepared by a Woman. PREPARED BY LYDIA F. PINKHAM, Lowell, Mass.

No Whiskey! BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a healthy source of intemperance by promoting a desire for rum.

Rev. G. W. Rice, editor of the American Christian Review, says of Brown's Iron Bitters: "In O. Nov. 16, 1881, Gent:—The foolish waiting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation."

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.
