## THE LATEST NEWS.

## A BRIDE WON BY FORCE.

## Young Farmer Bumgartner and Eight Friends Carry Off Mary Richardson.

LOUISVILLE, Ky., Aug. 7.—With a body guard of eight stalwart young farmers B. D. Bumgartner and Miss Mary E. Richardson came down from Munfordville, Hart County, this morning and were married. The ceremony was performed at Jeffersonville by the Rev. N. Fields. Returning to the city the couple stopped at Mrs. Gardner's boarding-house. Their escort took dinner with them and returned home. The fresh, bright face of the girl, hardly old enough to leave school, no less than the number of friends accompanying her, attracted attention and provoked questions: The groom, in a good humor with the world, answered freely. Bumgartner and Mary lived on adjoining farms near Munfordville. They became fond of each other a year ago, when Mary was not yet fifteen, and as she developed to womanhood this regard grew into love and they were engaged. Some time ago Bumgartner asked the consent of Mary's parent. They indignantly refused and ordered him off the place. But the young people were determined to marry, and several elopements were planned and frustrated. Finally Mr. Richardson locked up his daughter, only allowing her the liberty of the place at certain hours, when she was closely watched. Bumgartner grew desperate, and, counselling with his friends, determined to seize his sweetheart by force at the first opportunity. Late yesterday afternoon, at an hour when he knew Mary was allowed to walk around the yard, he and his eight companions made a sudden descent upon the Richardson place. Six overpowered and held all who resisted till the others had got safely away with the girl. They then joined the elopers at Munfordville, where they took the night train for Louisville.

## Gone Wet by Probably 100,000.

GALVESTON, Tex., Aug. 6.—The complete return received from 451 voting precincts in the State, including all the large cities and palaces convenient to telegraphic transmission and a few complete county returns, place the total majorities for State Prohibition at 5,054, and the total majorities against State Prohibition at 60,305. This indicates that the amendment has been defeated in the State by more than 100,000.

## Seizure of Vessels for Sealing.

NEW WESTMINSTER, B. C., Aug. 6.—The steamer Olympian, just in from Alaska, brings news of the seizure of the American schooner Challenger, of Seattle, W. T., and the Canadian steam schooners Anna Beck and W. P. Rayward, of Victoria, B. C., for seal fishing in Behring's Sea. The captain of the American schooner says the charge is that they were catching seals when within three marine leagues of land, and says such a charge is ridiculous, as the seals are never looked for within twenty miles of the shore and as far out as 150.

## North Carolina Grapes.

The Grape Show has clearly indicated the capabilities of North Carolina in the culture of the vine. Those capabilities are great and the profitability of grape-growing has been established by practical experiment. Now let our tillers of the soil take the lesson to heart and proceed to the diversification of their crops by the introduction of grape-growing as well as of the other possibilities additional to the staples. Agriculture will thus be made more agreeable as well as more profitable than it is.—Raleigh News-Observer.

The soothing and restorative efforts of Ayer's Cherry Pectoral are realized in all cases of colds, coughs, throat and lung troubles, while its powerful healing qualities are shown in the most serious pulmonary disorders.

## He Chewed a Cat's Tail Off.

Cor. Raleigh News and Observer.

ENFIELD, N. C., Aug. 4.

The quiet little town of Enfield is greatly excited over a heretofore unheard of crime. It seems that one John Bellamy came into town yesterday with fruit, &c., for sale, as is his custom, and stopping in the store of Mr. John Borzeman, who is one of the prominent merchants here, offered to chew a cat's tail off for \$1.75. The money was quickly made up by several bystanders which had no idea that Bellamy was in earnest, but found out after it was too late their mistake. Bellamy seized a cat that was walking about in the store and putting her head in a bag (a negro holding the bag and cat) commenced his diabolical task, literally chewing the cat's tail off within a few inches of her back bone. He accomplished the bloody work in about five minutes. No motive or reason is given for this miserable act except the promise of the money, which was promptly paid.

This is certainly something new in criminal history. The people of the town greatly regret that such a thing should have happened.

Bellamy is about 25 years old, a son of Rev. Wm. Bellamy, a Primitive Baptist minister who lives near town, and is a married man. Arrests have been made, and the case will be tried before the magistrate's court tomorrow.

## What a Whopper!

A Cincinnati dispatch describes a wonderful trumpet, the invention of Harry B. Cox, a young electrician residing near that city. The trumpet is intended to be used for telephoning at sea, and is the outgrowth of his discovery of the great distance that echoed or reverberated sounds will carry and the discovery that speaking trumpets, if made to give the same fundamental note, would vibrate and produce the phenomenon known in acoustics as "sympathy." With this trumpet conversation in an ordinary tone of voice was carried on between parties four and a quarter miles apart. People sitting at their windows or on their porches a mile away conversing in an ordinary tone could be distinctly heard, and in two instances they were told the nature of their conversation and admitted that such had taken place. By listening to the whistle and tracing it to and beyond Farmbank to Lawrenceburg, Ind., it was found that the instrument has a well-defined range of twenty six miles; that is, a loud sound like a locomotive whistle or the rumbling of a train can be distinctly heard at a distance of thirteen miles in every direction. Conversation was readily carried on between two men on high hills on opposite sides of the Ohio river, about four and a half miles apart. Tests made on the water showed that the trumpet was even more available than on land. The instrument will be patented as soon as perfected. A name has not been chosen for it.

## Useful to Composers.

Musical composers are indebted to science for two new instruments. The melograph is designed to accurately record the notes of any tune played upon a piano, and the melotrope has just been devised in France to faithfully reproduce upon any piano the pieces automatically copied by the first apparatus.—Arkansas Traveler.

## Arrested.

CHATTANOOGA, Tenn., Aug. 8.—R.

Lee James was arrested in this city this evening on a charge of murder. On August 11th, 1886, James Moore was lynched at Macon, for an alleged assault upon a woman. It turned out that Moore was innocent. James is accused of having led the mob and tied the rope to the limb of a tree where Moore was hanged. He was going under the name of Edward Harris here. He was taken to Macon tonight.

## Murdered by Mexicans.

TUCSON, Ari., Aug. 6.—Advices from Janos, Chihuahua, Mex., dated July 26, says that the reports sent out from El Paso that a band of Apaches were depredating this region are not true. There has not been an Apache seen in the vicinity since Geronimo's band surrendered to Gen. Miles, nearly a year ago. There is an organized band of Mexican outlaws, with some Americans, who scour through this country stealing or murdering but are no Indians. It is not known whether either McGraw or Van Ness Smith has been killed at all.

If either has, no doubt Mexican ruffians did the work. It is absolutely certain that there is not a San Carlos Apache off the reservation, much less in Sonora or Chihuahua. There have been but two persons by the Apaches since Geronimo surrendered, last June. Every Indian who went on that raid was driven to surrender. Five have been tried by a military court and it is believed that their sentence is death.
