

KING'S WEEKLY.

VOL 2—NO. 24

GREENVILLE, N. C. JUNE 12 1896.

25 CTS. A YEAR.

Has Three Times the Circulation of Any Other County Paper.

JOTTINGS.

Walter C Faye has been convicted at Omaha, Neb., of forging and uttering a bond for \$1,000 of the school district of Cook county, Ill, which he had given to his bride as a wedding gift. He must have fooled her badly enough to get her to marry him, but some people are never satisfied.

The prospect of a free silver candidate has led the New York Democrats to take less interest in the election than if a New York Wall Streeter should be the man. The country can certainly return the compliment for it is tired of uncertain New Yorkers.

Federal authorities have discovered that 20,000 spurious silver half dollars were made in China and passed in this country. The heathen Chinese is fully up to the tricks of the Melican man.

The names of President Cleveland and Secretary of the Treasury Carlisle were hissed by the Kentucky State Democratic convention. How the mighty are fallen, but?

Cleveland is favored by some Republicans for the nomination for the Presidency by their party. Give it to him. He never has been a Democrat.

A single swallow according to an authority can devour six thousand flies in a day. Some staddle bugs must have trained under the little fellow.

The gold reserve in the U S Treasury has about reached the Cleveland danger point, viz, \$100,000,000. Wall street prepare for bond buying.

Senator Tillman, of South Carolina, is looming up as a Democratic Presidential possibility. He has an eye single to the silver interests.

Almost every Democratic State convention has put up a vice - Presidential candidate. Barkis is generally willing.

FROM OTHER LANDS.

Russian Riot.

A dispatch from Vienna to the Daily News says that according to a Polish-Galician paper there was a riot at St Petersburg on the evening of coronation day. A drunken crowd, it is alleged, filled Newski Prospekt and became unmanageable, whereupon Cossacks galloped into the crowd, which responded by throwing stones. The Cossacks, it is further said, thereupon used their sabers right and left, and finally fired into the crowd, of which 250 persons were killed and wounded and 500 were arrested.

Still Favors Annexation.

Resolutions declaring that the Legislature and Hawaiian voters still favor annexation to the United States were adopted by the Senate and the House of Hawaii on the eve of adjournment.

FROM ROAN TO ROANOKE.

Mr Geo W Pack, a wealthy citizen of Cleveland, Ohio, who spends his winters in Asheville and has considerable property in that city, has set wealthy North Carolinians a worthy example. Yesterday he made the offer of \$2,000 for a monument to the late Senator Vance, the only condition named in the offer was that the location of the monument should be in front of the county court house. It is useless to add that the commissioners accepted the generous offer. —Asheville Citizen.

The contract for building and equipping the Carolina Tennessee and Ohio railroad from Wilmington to Southport has been let to Leonard, Foby & Co., of Philadelphia. This contract will include large terminal docks at Southport for the handling of a large volume of coal and merchandise traffic, work to be completed within six months.

The huckleberry crop this year is very large and in a few days the woods in Harnett, Sampson and other counties east of here will be full of pickers. Fancy prices are offered for them in the Northern markets, being quoted at from 15 to 20 cents per quart, says the Sanford Express.

Last week Madison county sent up five murderers to the penitentiary. Jeff Mace gets fifteen years, John Flasher five years and Newt Mace eight years, for the murder of Zeb White. Jim Stanton and Rod Shelton get fifteen years each for the murder of Everett Shelton.

The report of the House elections committee having the Lockhart Martin case in charge, was sustained by the House Friday—Mr Lockhart was unseated and the Rev Chas H Martin was sworn in as his successor.

There are now 145 convicts in the penitentiary, and of these about 100 are employed in brick making. About 4,000,000 bricks are made annually, and they find a ready sale.

The University alumni will put up a \$30,000 building of granite and brick, at Chapel Hill, to contain all the lecture and recitation rooms, which are now scattered.

The Commissioners of the town of Halifax have adopted an ordinance forbidding bicycle riding on Main street, the fine for violating the same being \$1.

Large issues of equipments are being made to the State Guard including new pattern forage caps, campaign hats and webbing cartridge belts.

The new trunk factory, at Murfreesboro will soon begin regular work in the manufacture of trunks.

North Carolina tobacco, grown near Germantown took the highest prize at the Atlanta Exposition.

The Senate has confirmed the nomination of B O Guthrie as postmaster at Burlington, N. C.

Mr T M Whitlock of Richmond county has a son nine years old, who weighs 96 pounds.

Wrightsville will likely be the encampment grounds for the State Guard this year.

While in this State Vice President Stevenson was dumb on all political questions.

Minister Ransom is home again on leave of absence.

BREVITIES

Cora Belle Fellows, whose marriage to Chaska, a Sioux, created a sensation some years ago, has been deserted and left in destitution by her Indian husband. She came of an excellent Washington family, but fell in love with Chaska while teaching on the reservation near Pierre, S. Dakota, and married him in spite of the opposition of her family. They acquired quite a fortune by exhibiting themselves in dime museums throughout the country; but he has squandered all her money and disappeared with a woman of his own race, leaving his wife with four children to support.

Anano, one of the chiefs of the Naval Department of Japan, will arrive in San Francisco on the next steamer from the Orient with contracts in his possession for the building of two warships for Japan. One of these, it is understood, will go to the Union Iron Works, in that city, and the other to the Cramps Company, in Philadelphia. Another important matter connected with the coming visit of Anano to the Pacific coast is the opening of a new steamship line between Tokio and the Pacific coast.

The Travelers' Protective Association of America met at Terre Haute Ind., in seventh annual convention. The address of John A. Lee, National President, shows that the organization has grown in numbers and extent of territory, now comprising 32 State divisions, 110 municipal post organizations, and 11,090 active members.

One of the speakers at the Tennessee centennial called attention to the important fact that the capacity of the iron furnaces of that single State is now greater than the output of the entire country in 1860.

As a result of the partisan war waged by the free silver men of Arkansas the sound money men of the Republican and Democratic parties have decided to put a ticket of their own in the field at Little Rock.

Austin Corbin, of New York, lawyer and financier, was thrown from a carriage on his estate near Newport, N H, last week, and died that night. His coachman was also killed.

There are living at present eleven ex-Governors of Vermont, including the venerable war Governor, Frederick Holbrook.

Thanks. Take Him.

A Republican writing to the Washington, D C. Post, favoring Cleveland for the Republican Presidential nomination instead of McKinley says: Where is the duty of the Republicans of the hour? Can anything be plainer, where patriotism rules the conscience of the delegate? Major McKinley must be repudiated, Grover Cleveland nominated, and triumphantly elected. In answer to all criticisms, as his advocates we can point with pride to the fact that during his entire incumbency in the office of President of the United States he has looked for his support in all his policies not to Democrats, but to Republicans in the Senate and House. That giant in the cause of the single standard, John Sherman, would repudiate the utterances of McKinley and join in the acclaim which would place Grover Cleveland the nominee of the Republican Party at St Louis. Let no childish prejudices stand in the way, but manfully and fearlessly let every delegate to St Louis recognize the strength of Grover Cleveland as the Republican candidate for President in 1896. McKinley and defeat or Grover Cleveland and victory—which shall it be?

Facts in the Case.

The gold standard Democrats of Illinois have held a conference to consider bolting at Chicago. They decided to send contesting delegations to Chicago. Speaking for the gold Democrats of Illinois and placing patriotism before party in their estimation, the conference agree that if the Republican platform declared for gold and the Democratic platform for silver, the gold Democrats will vote for the Republican ticket. If the Republican money plank is not satisfactory, the gold Democrats will name an independent ticket, appealing to all citizens of like sentiment to support it. While they will not "bolt" the regular ticket unless compelled to they decided to organize "honest money" clubs at once in every county of Illinois, so as to be prepared to bolt, and a permanent organization was effected with Chas A Ewing, a Decatur banker, and cousin of the Vice-President, as chairman.

Prefer the Penitentiary.

Hungary's millennial development as a State, which during its present thousandth anniversary has been specially commended for its legislative evolution, seems, after all, not to have resulted in the adoption of perfect marriage laws. In Hungary, says a continental exchange a man convicted of bigamy is punished by being condemned to live with both wives in the same house. Bigamy, consequently, are very rare in the land of the Magyars. There are still a few left, however, and all of these have now signed a petition to the Diet asking that by act of the Legislature their sentence be changed to fourteen years in the penitentiary. It is to be hoped that their wish may be granted.—Ex.
