TALKING MACHINES.

It has constantly been the aim of the manufacturers of the Graphophone to make their product the best that brains could devise and skill could construct. To this end, the most expert experimentalists that the new art has developed have been engaged in the service of the American Graphophone Company, and its factory at Bridgeport, Conn.—by far the largest talking machine plant in the world—is equipped with the most modern and approved machinery, a great deal of it of a special nature, carefully designed and patiently constructed for the particular purposes for which it is employed. The result that most interests the public of such a sagacious business policy is the perfection of the finished product of this company which is offered for sale by the Columbia Phonograph Company. The constant improvement in the Graphophone is not confined to the machines themselves, but extends also to records, blanks and all incidental articles. Columbia records are the loudest, choicest, smoothest, sweetest and cheapest records obtainable. They are the most brilliant records on the market and are furnished in almost endless variety.

The Columbia Phonograph Co., No. 110 E. Baltimore St., Baltimore, Md., headquarters for graphophones and talking machine supplies of every kind, will send you catalogues on application. 14 47

SEVEN YEARS IN BED.

"Will wonders ever cease?" inquire the friends of Mrs. S. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of liver and kidney trouble, nervous prostration and general debility; but, "Three bottles of Eucalypti butters enabled me to walk," she writes, "and in three months I was able to do my own work." Eucalypti butters are sold by Dr. J. L. Wooten, 110 E. Baltimore St., Baltimore, Md.

NGROE KILLED.

Saturday night the engine of the freight train came over from Kinston and about 12 o'clock that night left for that place with the passenger train.

When the train reached the water tank near Grifton, and stopped for water, Engineer Turrentine got down from the cab to oil the engine and while passing around the front of the engine found a negro stealing a ride on the cow catcher. He was ordered down and apparently left, but as the train was pulling away a negro in the baggage car heard a cry of agony from beneath the wheels and pulling the emergency brake stopped the train.

Under the rear of the baggage car the negro, Eliza Whitfield, whose home was in Kinston, was found, his left arm and right leg being fearfully mangled by the wheels. He was given every attention possible on the way to Kinston, but he died shortly after reaching there.

An inquest was held the verdict being that he came to his death by accidentally falling or jumping from the locomotive engine."

Wednesday the engineer had a preliminary hearing charged with causing the death of the negro.

My little son had an attack of whooping cough and was threatened with pneumonia; but for Chamberlain's Cough Remedy we would have had a serious time of it. It also saved him from several severe attacks of croup.—H. J. Strickfaden, editor World Herald, Fair Haven, Wash. For sale by J. L. Wooten.

A & M COLLEGE.

The board of agriculture has set apart \$2,000 for 120 agricultural scholarships at the Agricultural and Mechanical College, to which the College adds some \$3,000. The determination of the board is to properly dignify and foster the agriculture feature of the college, heretofore far too greatly neglected, while at the same time pushing along the mechanical and textile departments. Regarding the 120 agricultural scholarships (one for each member in the lower house) which the board of agriculture creates at the Agricultural and Mechanical College, it should be said that these are \$30 each. They are restricted exclusively to agricultural students. The board gives \$2,000 to be expended for work upon the college farm done by such students. This will enable each of such students to save about half his college expenses.

NEW REUNION MUSIC.

A new piece of reunion music has been published by O. K. Houck & Co., of Memphis and Little Rock. For originality and brilliancy it cannot be excelled. It is called the "U. C. V. March," a two-step, composed by Theo. H. Northrup, and dedicated to the United Confederate Veterans. From a musical as well as an artistic viewpoint this production, issued especially for the coming reunion, is a masterpiece. The contrast of the brilliant catchy first part, with the sweet sadness of the memories of the great tragedy recalled by the conclusion, is where the composer has shown his art.

The cover is a beautiful thing, wrought in the old Confederate colors.—Evening Scimitar (Memphis), May 13.
