Judge Jackson Enjoins Him From Interference.

By Wire to THE TELEGRAM.

PARKERSBURG, Aug. 5.—Upon application of James Sloan, Jr., Baltimore's stockholder in the Monongah Coke and Coal Company, made by Ex-Governor Fleming, his counsel, Judge Jackson, of the United States District Court, issued an injunction against Eugene V. Debs. The injunction restrains Debs and his associates from interfering with or molesting in any way the management of the property of the Monongah Company or their employees. The writ covers everything that can possibly be construed into an infringement of the rights of the corporation. It practically prevents all future agitation in the vicinity of the Monongah mines.

He has determined to retire from the United States Senate and from politics at the expiration of his present term. BROUGHT TO GREENSBORO.

Negroes Who Got Gay on an Excursion Brought to Justice.

Our readers remember the account THE TELEGRAM gave of a free-for-all fight at Pomona Monday afternoon between passengers on a negro excursion which was returning from Reidsville. It seems that the fun they had at Pomona did not satisfy their thirst for gore—at least two of them. Up about Friendship two negroes from Guilford—John Neal and Peter Callen—went for each other, using a knife and a pair of knucks respectively. Before they could do each other any serious damage another passenger on board took a hand, and with the assistance of one or two others, held the scrapper until the train reached Winston, when they were turned over to an officer.

Sheriff Hoskins was wired to know what should be done with the negroes, and his instructions were that they be brought to Greensboro.

Policeman White, of Winston, arrived here with the prisoners this afternoon, and they were carried before Justice Pritchett for trial. Being found guilty of an affray with deadly weapons, and not being able to give bond, they were placed behind bars to await our next term of court.

Holton to Qualify.

S. L. Trogdon, clerk of the United States Court, received a telegram from A. E. Holton this afternoon stating that he would be down from Winston to qualify before Mr. Trogdon at 6:30 o'clock as U. S. District Attorney for the western district.

Another Excursion.

There seems to be no abatement of the excursion fever. The latest is one to be run from Raleigh to Asheville on the 10th of August by the Southern Railroad Company. They expect to run a first-class excursion and carry a large crowd.

The fare from Greensboro will be \$3.50. This will be a splendid trip.

MEMBERSHIP COMMITTEE MEETS.

Discuss the Best Methods of Obtaining Useful Members.

The membership committee of the Greensboro Industrial and Immigration Association held a meeting yesterday afternoon at 4 o'clock in the office of the Southern Stock Mutual Insurance Company. The following members were present: C. E. Holton, G. W. Mebane, A. W. McAlister, C. G. Wright and W. E. Stone, secretary.

It was decided that a canvass of the city be made for new members. The great good the Industrial and Immigration Association has accomplished is too apparent to need any further argument of the necessity of every business man in Greensboro becoming a member. The association merits the untiring support of every man in Greensboro who has the growth and progress of our city at heart.

There are new openings continually developing in our midst and new opportunities being held out to our people. Through no source can we avail ourselves of these opportunities so well as through the Industrial and Immigration Association.

The Southern Tobacco Company.

It always gives us pleasure to note the success of any deserving home enterprise, and especially is this true in reference to the Southern Tobacco Company. This company was organized, if we mistake not, something more than a year ago. It is composed of home men—men of standing and prominence—and the success it has achieved is not strange.

They manufacture some of the finest brands of both chewing and smoking tobacco on the market, and are building up a big trade.

They advertise "Touch-down" smoking tobacco in to-day's TELEGRAM. Read what they have to say about it and then try a package.

Investigating a Location.

Owing to the impetus given the proposed golf club by THE TELEGRAM, Messrs. Jordan, Cone, Settle and Daniel go out this afternoon to see if suitable grounds for links and a club house can be secured near the pumping station, three-quarters of a mile from the city.

Have You Paid Your Taxes?

If you have overlooked the matter of settling your taxes it might be well for you to read Sheriff Hoskins' card in the one-cent column. This is an important matter and should be attended to. It is necessary that your taxes be paid by the first day of August court, as a list of all delinquents is imperatively required to be filed with the judge for action.

Bloodhounds for Winston.

The Winston Journal says some of the city officers speak of buying a pair of bloodhounds and training them up. There is no doubt about the investment paying well, besides being of great aid in running down the many criminals in this section.

Wanted, a "Reasonable Package."

A South Carolina darkey walked into a Charlotte saloon this afternoon and in his usual humble way asked the saloon keeper, "Boss, has you any of these reasonable packages that a screw driver comes with?"

At first the Charlotte man could not imagine what the darkey was trying to get at. It finally dawned upon him that his customer wanted some rum of the original package design. He was given to understand that this was North Carolina and that the dispensary had not as yet gone into effect and that the "reasonable package" with the screw-driver attachment was not in the order of things up this way.—Charlotte News.

Statesville is to have a system of water works and sewerage to cost \$50,000.

SOUTHERN VARNISH COMPANY.

Another One of the Enterprises That Marks Our Growth.

One of the enterprises with which our people are, perhaps, not very well acquainted, because of its general nature and quiet business methods, is the Southern Varnish Company. This company located here in 1896, Mr. York, of Randolph county, being the leading spirit in the business. The factory is located on South Elm just outside of the corporate limits of the city. The firm is capitalized at \$8,000 and employed a force of twelve men in its factory. The factory has a capacity of fifteen barrels per day and has no difficulty in disposing of its entire output; in fact the factory is now several weeks behind with orders and is running extra time to catch up.

The company keeps no men on the road, but disposes of its products entirely by price list. It sells its varnishes and in every State from Maryland to Missouri, where there are furniture or carriage factories. The bulk of its goods is sold to factories direct, without intermediary wholesalers. It supplies such large furniture establishments as the J. H. Conrad Chair and Parlor Furniture Company, of St. Louis, which gets all its varnish from the Southern Varnish Co. The White-Reckel Furniture Company, of New York, also uses their high grade varnish exclusively. This company is by no means without honor in its own country, since the local Furniture Company and the Eagle Company, of High Point, use its goods, and everybody knows your neighbor is the last man to recognize your virtues.

The company gets the gums used in the manufacture of its varnishes from New York, its linseed oil from Richmond and its turpentine from Eastern North Carolina. The company has its office and storerooms on South Elm, next to the Southern Express Company. It handles furniture, as a side line, exchanging varnish for it with companies that are large customers. As the tailor believes that "the clothes make the man," so the Southern Varnish Company believe that the varnish makes the furniture.
