NEWS OF THE TAR HEEL STATE.

Dick Morse has arrived in Raleigh where he will preach.

The number of students at the A. & M. college is now 225.

A colored boy was ground up on the railroad near Halifax on Thursday.

There are now 1,100 children in attendance on the Charlotte graded schools.

Asheville is very enthusiastic over the lecture of Henry Blount there Thursday night.

It is asserted that \$3 Shoe Douglas is a North Carolinian and was born near Elizabeth City.

N. M. Richmond, of Caswell County, died at his home yesterday. He had been ill for two weeks.

It is expected that the Governor will shortly announce his decision in the railroad commission matter.

Prof. Benjamin Irby, of Raleigh, declined an offer of a position in the agricultural college of Florida.

Statesville will vote next Monday on an issue of bonds for water works; the vote is expected to be close.

The Methodists of Durham are preparing to double their church capacity. The lumber is already on the grounds.

The secretary of the state fair has the premium books now ready and will mail one to any one interested in the fair.

A tobacco manufacturer of Winston has shipped three car loads of tobacco to one firm in Atlanta in sixty days.

Milam, the defaulting ticket agent of Charlotte, has submitted to the charge of embezzlement and has been given three years.

The body of W. J. Griffin has come ashore on Albemarle sound; he was in boat with two other men whose bodies came ashore Monday.

It is said the tobacco crop of the state is above the average this year; the commissioner of agriculture gives the percentage as 87.

The residence of W. A. Jones, in Wake county, was destroyed by fire Tuesday night. Loss partially covered by \$1000 insurance.

Boggan, a man who attempted a assault on a colored woman, was sent to the penitentiary for 15 years from this term of Wadesboro court.

David Holler, near Taylorsville, shot his little son through mistake; the boy was playing a joke on his father and was mistaken for a dog.

Walter Ingram, a colored preacher, was struck by a passenger train near Wadesboro and his buggy demolished and he was bruised up somewhat.

All of the witnesses summoned to attend the hearing of the North Carolina Railway case were not examined. The next sitting of the court will be in New York City.

State Geologist Holmes writes from Seattle that he is studying all economical problems that he believes can be turned to account for the betterment of North Carolina in mining, water power and farming.

The Republican organ makes the assertion that in the past 20 years the negro has so far outstripped the poorer class of whites in education that thoughtful people predict that in 20 years more the negro will be the better educated class.

It is probable that work will be resumed on the proposed line of railway from Shelby to Bristol, Tenn.; 23 miles of the road bed were graded some years ago, but the project fell through by reason of the failure of Baring Bros. An election will be held to vote bonds in the counties through which the line will pass, and if favorable the road will be built.

Raleigh Correspondent Charlotte Observer: Superintendent John R. Smith, of the penitentiary, returned today from a visit to the Carthage railroad extension, where 127 convicts are at work. They have just finished grading four and a half miles, and will take up eight miles more to a point where the road will cross the Durham and Charlotte railroad.

A special to the News and Observer from Fayetteville says: Purvis, who murdered Flagman Blackhall near Dunn, was yesterday sentenced to be hanged October 13. He will be brought here to-morrow for safe keeping until that time, when he will be returned to Lillington to be executed. He is in very feeble condition, resulting from wounds received while trying to board a moving train in his escape after the murder. This will be the first hanging in Harnett County.

A Mortgage on the Sun.

A Danville man has applied for a patent on a device for cooking and heating with which he will use nothing but solar rays. He claims that sunshine or clouds concentrate heat enough to warm any building at a cost of a cent a day. This is not moonshine, but sunshine.—Fairbrother's Farrago.

SPINS LIKE A TOP.

A Little Boy Is Tortured by a Peculiar Nervous Malady.

A little boy; the son of prominent people in Jersey City, is afflicted with a most extraordinary malady. It revolves like a top. Every few steps, whether he walks or runs, he turns his body all the way around two or three times. He wishes not to revolve, he tries not to revolve, but he has no more control over the revolutions of his body than he has over the revolutions of this mundane sphere. These "forced motions" have grown in force and frequency upon the unhappy boy since he learned to walk.

Lately Dr. Charles K. Mills and Dr. W. G. Spiller, two eminent physicians of Philadelphia who are specialists in diseases of the nervous system, carefully examined this whirling boy.

"The interesting feature in the case," said the distinguished physicians, "is the tendency of the patient to revolve while walking. He has been taught since he entered the school that he must overcome this impulse. He insists that 'he cannot help turning.'"

"It is impossible at present to decide whether these revolutions which 'he cannot help' are the result of organic or functional conditions.

"If some one would devise a method by which the Roentgen rays could give us a photograph of a brain within a skull, our means of diagnosing would then give positive results in such difficult problems."—New York Journal.

A WONDERFUL CAT.

It Reasons Like a Man and Has Full Knowledge of Cause and Effect.

Charles Talcott of Starrucco, Pa., has a remarkable cat. The other night Mr. Talcott came home with his feet wet. He could not find his bootjack, so he couldn't remove his boots. While he was searching for it the cat came into the chamber, remained a moment, listening to his master's opinion of the missing implement's spiritual deserts and then withdrew.

Leaving the house, the cat went directly into the garden of an adjoining house, looked up at a chamber and lifted up its voice in song. In a few moments the window above was thrown up and something was hurled out with tremendous force, striking the earth near the performer. It was a bootjack. The cat, without waiting to finish the note he had just attacked dragged the useful implement up stairs and laid it at his master's feet.—Exchange.

WHEELING TO KLONDIKE.

Two Men Possessing a Total of Three Legs Have Gone to the Goldfields.

Two bicycles lashed together, with a rowboat between them, containing provisions, clothing, bedding, mining implements and an adjustable umbrella-like awning, pushed by two men with three legs between them, attracted much attention in Elizabeth, N. J., the other day.

The rig out was that of Toney Sauer and Paul Ball, who are on their way to the Klondike goldfields. They expect to get to the Klondike in 90 days.

Sauer, the one legged man, rides a bicycle with one pedal. He designed their boat, which is portable and can be taken to pieces. Both men have been to the Klondike before, and they expect to return in a palace parlor car.

Sued For His Wedding Expenses.

Joseph Hackett of Long Island City, N. Y., married Miss Grace E. Ferris of that place on Dec. 15, 1895. The marriage was not made public until March, 1896. The couple have since separated. In the police court recently Dr. Patrick J. McKeown brought suit against Hackett for \$37.50, which he said he lent him at the time of the marriage. According to the doctor, Hackett confided to him that he was about to marry Miss Ferris and that he needed \$12.50 in order to purchase the wedding ring. The physician advanced the cash, and a few days later Hackett borrowed \$25 from him to meet the expense of a short wedding trip. Hackett did not defend the suit, and judgment was taken against him by default.—Exchange.

A Frog Centuries Old.

A live toad imbedded in solid clay for centuries without food, air or light. This is the story told by a workman in a tunnel in Illinois when he appeared among his fellows, bearing in his hands a fat and blinking "hopper," which he declared was discovered by him in a bed of hardpan clay and when liberated by a blow of his pick had jumped out and croaked a "good morning" to him. When released, it stretched itself and acted as if it was rejoicing at its freedom. The workmen have the toad at their quarters.—Chicago Times-Herald.

A Bright Indian.

C. H. Bookout, a full blooded Indian, has been appointed a station agent at Wilmore, Kan. He once worked as a section hand, but learned telegraphy and educated himself in English.

In the Klondike Land. Molly, go to packin. Jenny, lend a hand. It's nothin we'll be lackin In the Klondike land.

Fellers there in clover Never mind the cold, Tilt an iceberg over An grabble for the gold.

Here the weather's sunny. Summer has her sweets, But what is milk an honey To walkin golden streets?

Here we're in a woe storm, Gittin poor an old. There's where every snowstorm Is siftin down the gold.

Take yer hives o' honey, Overturn the milk. Ruther roll in money An dress the gals in silk.

So, Molly, go to packin. Jenny, lend a hand. It's nothin we'll be lackin In the Klondike land.

—F. L. Stanton in Atlanta Constitution.
