One of the pictures in which he and the Governor appear makes it certain that it was unnecessary for the Governor of Georgia to reiterate the suggestion once made by the "Governor of North Carolina to the Governor of South Carolina." tures of the famous dogs, old Mose, Bert, Kate, Wonder, Lena and Dash are excellent, but then a dog of all animals is the especial pet of the camera.

The "shirtless picaninny" should become classic. As a photographic art study the magazines have shown nothing better, while the "picaninny and pine rooter" are breezy of the pine and sand flats at Phillippi.

#### Sam Harvey Drunk Again.

Sam Harvey, who lives somewhere out on Ashe street, was drunk again last night. It was only last Sunday that he was pulled for drunkness and disorderly conduct, and on Monday he was released by the mayor on promise of good behavior. But he soon forgot his promise, for he was rip-roaring drunk last night, and his performance of last Sunday was a tame affair compared with last night's 'exercises."

Sam appeared on the streets with a shot gun, and must have thought it was Christmas or imagined that he was a revenue officer after moonshiners. He blazed away with his old gun

causing terror in the immediate vicinity, but no one was hit. He must have shot at the moon, thinking the moonshiners were up there.

His Honor, the mayor, will probably enforce a sober spell on Sam this trip. He seems to be an old offender, and has heretofore gotten off very lightly. He was arrested last night by officer Whittington.

#### All Smiles at G. F. C.

The enrollment of Greensboro Female College has reached one hundred and thirty. Three new students arrived yesterday evening. President Peacock tells us this is the largest enrollment the college has had for seven years. At least ten more students are meeted to arrive by the end of the

Capt. C. S. L. A. Taylor, who, as noted several days ago, went to Raleigh to make arrangements in connection with his chief marshalship at the Colored Industrial Fair, returned yesterday, reporting everything satisfactory. He takes his company-the Charlotte Light Infantry-to the fair, and right now he asks the Observer to ask 'the white folks to let his men off.' Surely there isn't a merchant in town who has ever seen Capt. Taylor drill his men who will deny him the pleasure of taking them to Raleigh to show the people down there military tactics as only Capt. Taylor knows them.

Capt. Taylor, who is also an enthusiastic Odd Fellow, being deputy district grand, went to Concord las night on lodge business. - Charlotte Ob-

#### Our County Roads.

A gentleman who takes a great interest in the development of our county road system, tells us that the road force is doing good work between Guilford College and Oak Ridge. Prof. Bandy has made surveys of the Perkins hill, and the hill near Stafford's mill and the grade has been reduced Offers \$500 Reward for the Capture from 18 to 25 per cent.

We most heartily commend the wisdom of our county commissioners in securing the services of an engineer. We regret that occasionally a man is found so narrow and selfish as to try to retard this most important work. Give Guilford county a good system of roads and a good public school system in addition to her excellent private schools-one to develop her

agriculture and material interests, the other for her educational advancement and the result will be well worth the

## Morning's Fever Bulletin.

New Orleans, Oct. 8.-The morning report showed six new cases of yellow fever and three deaths. Three of these cases were reported too late last night to be included in the official bulletin, also one death. The quarantines are being rapidly removed from the houses and the number of recoveries averages twenty per day.

white Democrats who gave the colored man the employment that enabled him him to feed his family; that the negro did not object to the treatment of the Democrats but of the Republicans. Prof. Edwell said that under the fusion tion afterward. arrangement the Populists, with 50,000 voters, get two-thirds of the spoils, the white Republicans get the rest and the negro, with 120,000 voters, gets nothing. He advised colored men to vote with the party that promised the most spoils, regardless of politics or religion. It was declared to be the sense of the meeting that a split be made in the

Republican party in this county. In regard to the post-office, the meeting gave Senator Pritchard a vote of confidence and said that whatever action he might take would be satisfactory.

A committee of five was appointed to wait on Sheriff Hoskins and ask him to give a colored man a position of some nature. No mention was made of the Bridges meeting.

O'FERRALL AFTER LYNCHERS.

## of the flurderers of Walls.

By Wire to THE TELEGRAM. Richmond, Va., Oct. 8 - Governor O'Ferall offers a reward of five hundred dollars for the capture and delivery of any ten persons who participated in the recent hanging of Henry Walls, in Patrick county.

Walls was accused of the murder of a young girl in that county and a mob took him from the officers and lynched him. The Governor is determined to have them arraigned for trial.

#### Believed that She Has Been Smuggled out of the Island. By Cable to THE TELEGRAM.

Havana, Oct. 8.-Though Weyler's agents are making industrious search all over the island, no trace of the hiding place of Miss Cisneros has been discovered. The houses of suspected Cuban sympathisers, have been searched, the prison officials have been arrested, and many persons have been subjected to severe examination, but the whereabouts of the girl have not been revealed. The belief is growing that she has been smuggled off the Island. PACKING ESTABLISHMENT GOES.
