THE BIG TOBACCO FAIR.

Opens Today With A Grand Street Parade A Mile Long.

BRILLIANT, ATTRACTIVE SHOW.

The Opening Preliminaries--A Brief Description of Some of the Many Exhibits Displayed.

Staff Correspondence.

Winston, N. C., Nov. 3.—The opening day of what is, without doubt, the biggest occasion in the history of Winston-Salem, dawned with a clear sky and crisp, breezy atmosphere. The bright sun, as it rose and cast its first rays upon the city, with its imposing buildings, tastefully and beautifully decorated in bright colors, made a picture worthy of the enterprising and hustling city.

Winston-Salem never does things by halves—she goes full breadth, depth and length. This mammoth tobacco fair is no departure from her custom. The towns are full of people—people from all parts of the state; people from all over Forsyth and adjoining counties, all kinds, classes and conditions of people, and the people of Winston-Salem greet all with a glad smile, hearty hand shake and royal welcome.

This morning, as a preliminary to the formal opening of the grand exhibition, all citizens from the country and the towns were cordially invited to join in a street procession, which formed at 10 o'clock on Fifth street, with the chief marshal and aides first, then following came the first division, Col. J. S. Carr, and the orator of the occasion, Col. J. S. Cunningham, executive committee, military organizations, fire companies, and hook and ladder companies.

Second Division—Mayors of Winston and Salem, scholars of Oak Ridge Institute, Junior Order of American Mechanics.

Third Division—Citizens in carriages, citizens on horseback and citizens on foot.

The line of March was out Fifth to Summit street, down Summit to Fourth, down Fourth to Cherry, down Cherry to Shallowford, up Shallowford to Main, down Main to Salem square and up Main to the armory, where the fair was formally opened by a ringing speech from Col. Cunningham, who was introduced in a graceful manner by Cal. Carr.

The Farmer's warehouse, where the main exhibits are displayed, is the chief center of attraction. It would require the space of a whole newspaper to half way do justice to the attractive and varied exhibits here made. They are elegantly and tastefully arranged.

Beginning in the northwest corner we find the first attraction to be the exhibit of the Brown-Rogers Co., hardware, mowers, reapers and binders, grain drills, with the machinery running by electric motor.

Next is the magnificent drug display of E. W. O'Hanlon, the corner drug store man. Next to this comes an attractive display of coal and ice, by D. H. King. Then the furniture establishment of Call Bros., in a tasteful display, followed by E. M. Andrews, of Charlotte, with pianos and organs.

Next we find a large space occupied by W. T. Vogler & Sons, the jewelers, in a magnificent display. Following this we find Prof. Lomady, the gold wire artist, who makes you a name pin while you wait. He has an attractive and catchy sign, "Just Dropped from Klondike," with a nugget nearly as large as your head suspended beneath.

Rosenbacher & Bro. have a lovely display of dresses and hats. This is one of the most attractive exhibits of the fair. And next comes Leonard, the jeweler, with a space beautifully and artistically decorated. Another wire jeweler—Milton Young—follows and then you see the splendid exhibit of Watt Martin, the dealer in manufacturers' supplies.

Glancing hastily and admiringly at this, we are next brought to the exhibit of A. C. Vogler & Son, furniture dealers. Then the Richmond wood-working company's exhibit.

One of the most attractive exhibits is that of Walter Grimes, the druggist. Walt is an artist and we congratulate him on his display.

Capt. S. E. Allen has one of the best and largest exhibits here, in all kinds of hardware and crockery.

This brings us to the southeast corner of the building where we find oils and stoves, then A. Daye with a handsome exhibit. L. W. Seabolt makes a splendid exhibit of Garland stoves and ranges, lamps, etc. Fogle Bros. are next with an attractive display of woodwork. Senseman & Brickenstein

come next with galvanized iron work, bath tubs and general water works fixtures.

R. B. Crawford & Co. deserve special mention on their hardware exhibit, and Ashcraft and Owens' drug store is another attractive place.

The Blackwell Durham Tobacco Co., as they always do, have a splendid exhibit.

R. J. Bowen, sewing machines, Crist & McArthur, real estate, and then we find the Oconeechee farm display, the most attractive feature of which is the old time over-shot water wheel, made of various products of the farm. The spokes are of wheat, oats and rye stalks, the rim of ears of corn, the buckets of boxes with glass covers, containing grains of corn, oats, wheat, peas, rye, potatoes, turnips, etc. There is also here a good display of the celebrated gilt edge butter from the Oconeechee farm. Then we see the Singer sewing machine exhibit, and turning to the center of the building we first find the Brown & Williamson tobacco exhibit, about which much might be said.

Dalton, Farrow & Co., have, perhaps, the most unique exhibit at the fair. It is made entirely of their choice brands of plug, and represents the interior of a room, with fire-place and mantle. It will have to be seen to be appreciated. Standing in the corner of the room is the Yellow Kid. This exhibit is a chief attraction.

Then comes Lockett, Vaughn & Co., with their "Red Meat," T. L. Vaughn & Co., with "Red Apple," Bailey Bros. with "Old Bob" and other popular brands, Ogburn, Hill & Co., S. A. Ogburn, with his "Cannon Ball." All of these have large and attractive spaces.

The Brown Bros. Co. have a splendid exhibit also, a special feature of which is the revolving top, representative of their popular brands of plug.

Then we find P. H. Hanes & Co., with a large display with handsome and artistic trimmings, beautiful canopy top studded with electric lights in variegated colors.

Casey & Wright also have one of the most "catchy" displays here. A dining room scene, table laden with complete dinner outfit, the turkey, a splendid imitation, made of leaf tobacco. In fact all the tempting viands are made of the yellow staple.

The "R. J. R." exhibit comes next and we advise you to come and see it.

We can only mention a few others, Craig & Vokes, wire jewelers, the Wachovia Mills, Salem Iron Works, Nissen Wagons and the best exhibit of poultry ever seen in the state, from the Alamance farm of L. Banks Holt.

The fakirs and side show people are on hand in large numbers.

One special feature of this fair is that it is free—absolutely no charge for admission. The Star and Brown's warehouses are filled with leaf tobacco, while the Piedmont is reserved as a free lodging place for farmers.

This is the biggest time in the history of Winston-Salem, and its citizens are all to be congratulated. No pains nor effort has been spared to make the occasion a grand success and success is achieved.

"There's a grand time in the old town tonight." She's out in full dress. Come to see her.

Trinity College Notes.

Special to THE TELEGRAM.

Trinity College, N. C. Nov. 2.—On last Saturday evening the regular monthly meeting of the Historical society was held in the chapel. Under literary head two papers were read, one by Mr. J. P. Gibbons, subject: "Bart Moore on secession and Reconstruction." The other by Mr. B. F. Carpenter, subject: "Regulation of morals by law in Colonial North Carolina." Many and interesting relics were presented to the Historical museum.

At the regular meeting of the societies on last Friday night, officers for the coming quarter were elected as follows: President, J. B. Needham; vice-president, J. T. Henry; secretary, E. F. Hines. Columbian—President, D. H. Littlejohn; vice-president, L. W. Crawford, Jr.; secretary, J. K. Wood. Dr. Few left today for Knoxville, Tenn., where he will represent Trinity at the Association of Southern schools and colleges, which convenes in that city this week.

Dr. Kilgo returned from Wilson today.

Overcome By Gas.

By Wire to THE TELEGRAM.

New York, N.Y., Nov. 2.—Minnie Medonsky, aged seventy-three and Isaac and Morris Mathewson, aged forty years, were overcome by gas this morning. The latter died and the other was taken to the hospital in a precarious condition. Mathewson was a tenor of note.

Official Count Required.

Columbus, O., Nov. 3, 3:30 p. m.—Only official count can settle the election in this state. Trouble looked for.

THE ELECTION RETURNS.

Reports Coming in From Doubtful States.

HANNA SEEMED TO BE LEFT.

General Assembly Against Him Apparently--Kentucky Goes Democratic By a Good Majority.

By Wire to THE TELEGRAM.

Columbus, O. Nov. 3.—The prospect this morning is that the General Assembly will be Democratic on a joint ballot by from five to ten majority. Cuyahoga county, Hanna's home, is exceedingly close and has probably elected a democratic delegation. In that event the Democratic majority will be fifteen. The Republican state ticket is elected by about twelve thousand.

Kentucky Democratic.

By Wire to THE TELEGRAM.

Louisville, Nov. 3.—The state has gone democratic twenty thousand. Nearly every county heard from gives material gains over last year. The democrats are claiming the legislature. The republicans charge that there has been fraud.

New York Landslide.

By Wire to THE TELEGRAM.

New York, Nov. 3.—The democrats carried every county and borough in Greater New York. Van Wyck, the Tammany candidate will be the first mayor of the consolidated city, having been elected for a term of four years by a plurality of 79,452 votes. The democratic county and borough tickets are elected by a large majority. The democrats control the municipal assembly by a majority of four-fifths on a joint ballot. The total vote is: Van Wyck, 226,690; Low 147,138; Tracy 102,805.

Gorman on Top.

By Wire to THE TELEGRAM.

Baltimore, Nov. 3.—The latest returns give the democrats sixty-five legislative votes and the republicans fifty-five. This insures a democrat's election to succeed Gorman in the Senate.

The republican municipal ticket is elected in Baltimore by majorities of from four to six thousand. The state ticket for comptroller and chief justice of court of appeals is still doubtful.

Sol Well Probably Elected.

By wire to THE TELEGRAM.

New York, Nov. 3.—Sol C. Well is probably elected in the 19th assembly district, but it may require the official count to determine the result. In the last election the republicans carried this district by 5,800 majority. [Mr. Well was a democratic elector in North Carolina in 1892.]

In South Dakota.

By Wire to THE TELEGRAM.

Sioux Falls, Nov. 3.—Indications are that the republicans have won in South Dakota. Still the vote is very close and several districts are to be heard from.

Bushnell Wins in Ohio.

By Wire to THE TELEGRAM.

Cleveland, Nov. 3.—The Plain Dealer democratic, in an extra edition, gives Bushnell, republican, a plurality of 4,853 in Cuyahoga county and says he will have a plurality not exceeding ten thousand in the State. It concedes that the entire republican legislative ticket in this district has been elected. The county ticket is elected by a narrow majority.

Iowa's Majority.

By Wire to THE TELEGRAM.

Des Moines Nov. 3.—Latest returns of the legislative ticket give the republicans forty of fifty senators, and sixty one of a hundred representatives. The republicans claim 30,000 plurality for governor L. M. Shaw.

Democrat Ahead.

By Wire to THE TELEGRAM.

Denver, Nov. 3.—Democratic-Silver candidate running well ahead of republican.

What Platt Says.

By Wire to THE TELEGRAM.

New York, Nov. 3.—Senator Platt says: "We have met the enemy and we are theirs. We were beaten by the mendacity of opponents and treachery of friends." A dispatch received from Cleveland says Hanna will win.

Parker Elected.

New York, Nov. 3.—Parker, democrat, is elected chief justice court of appeals by 80,000 majority; 300,000 votes changed hands. Assembly is republican.

In 'Ole Virginny."

Richmond, Nov. 3.—State gives the democrats 60,000 majority. Governor did not carry his own precinct.

A SUCCESSFUL COTTON PICKER.

A Machine That May Revolution Cotton Growing.

For a number of years cotton pickers have been tried each season, some being absolute failures and some a partial success. Repeated attempts and repeated failures have led to the assertion that a successful cotton picker is an impossibility.

A gentleman who has seen one work declares that it is an absolute success. It is made by the American Cotton Picker Company, of Pittsburg, and August Campbell is the inventor. The gentleman in question drove out to the field where the machine was in operation, saw it work and reached the above conclusion. He comes from the cotton growing district and knows the industry thoroughly. His opinion is therefore worthy of consideration.

There are three requisites of the successful cotton picker which this machine has been shown practically to possess:

1. It does not injure the green stock.

2. The sample of cotton picked by it is good; strict middling so far as trash is concerned.

3. The percentage of cotton gathered in passing is large. It only requires passing over a row twice to gather the greater part of the cotton. The cotton is gathered and put into sacks by the machine without manual aid.

The capacity of the picker is dependent entirely upon the amount of ground two horses can cover in a day by passing over each row twice and upon the quantity of cotton that is pen ready for picking.

As yet though the cost of the machine is too great for it to come into general use.

Cheap Gas.

Since October 1st, 1897, and forward, illuminating gas furnished at \$2 per thousand feet, if bill is paid on presentation, provided the same amounts to \$1 or more for each meter. Fuel gas for cooking purposes \$1 per thousand feet, net.

Fresh Mineral Waters—Huyler's Fine Candies.

Facts Worth Studying.

If the Southern Stock-Mutual pays no larger dividends than the 20 per cent. now paid, and the business increases during the next seven years in the same ratio it has increased during the last three years, the actual saving for the ten years to policy-holders in North and South Carolina will be \$194,822.00, and to the policy-holders in Greensboro alone, \$26,237.00. Besides this the Company's assets (reinsurance reserve and surplus) represented by still larger figures will be kept at home and invested in the state. What better investment can the public make than by upholding an institution like this?
