## FOUR HOUSES IN ASHES.

### The Prompt Response of The Fire Company Saved Others.

## HOUSES WERE NOT INSURED.

### The Loss Will Be Comparatively Small but There was no Insurance. Poor People will feel the Loss.

At two o'clock the alarm of fire was turned in from box 52 and the fire company responded promptly. Dense clouds of smoke rising in West Greensboro showed the scene of the fire.

The reporter reached the scene at the same time with the fire company and found three small houses on Whittington street, about fifty yards from Lewis street, in flames. One of the houses was already nearly in ashes and the others burning rapidly.

The fire started in a house occupied by Aaron McCoy. The house on one side was occupied by Wilson Sloan and on the other by Walter Banks. Both were completely destroyed. All three houses belonged to Wilson Sloan. There was no insurance at all on the houses.

Across the street from the three houses stood a small house occupied by Henrietta Gilmer. This caught fire and burned despite the efforts of the firemen to save it. It was surrounded by large cedars which hindered the men in their attempts to get water on it.

The hose company had to reel off about 2,000 feet of hose before the fire could be reached. This of course diminished the water pressure, which Chief Stone reported was very satisfactory.

The buildings were all light frame structures, except the one occupied by Sloan, which was of logs, weather-boarded and they burned like tinder. There was not the slightest chance for the company to have saved any of them.

The spectacle among the poor darkies who owned the houses was pitiable. One woman had to be taken away from the scene by two men and went weeping hysterically. All she had was burned in the house. The women who were her neighbors were crying in sympathy and terror.

One of the women whose house was burned does laundry work and a large quantity of clothing belonging to white people was destroyed. She seemed greatly distressed at this, apparently thinking her patrons would hold her to account.

A quantity of household stuff was piled up in the streets and gardens near by but as is usual in such cases the most worthless things were saved.

Dave Gilmer was overcome while fighting the fire and had to be hauled up town in a wagon. He will hardly suffer anything more than a few hours lay-out.

The loss was small, but falls heavily on the poor darkies who lost all their belongings in the fire. The winter is near at hand and it would be well for the white people to help the sufferers. They can be recompensed for their losses without the people who help them missing what is given. Some of our charitable people should take the matter in hand.

The fire originated between the roof and ceiling of McCoy's house from a terra cotta flue.

The negroes in that part of town have wanted a hose wagon for some time. It would be well for the water committee to investigate and see if additional water plugs could not be placed there to advantage.

### Blockade Still Captured.

A special from Raleigh to the Wilmington Messenger gives the following account of a unique capture: Revenue officers made a lively raid in Edgecombe county near Battleboro today, and captured an illicit still in a remarkable location. It was in the middle of an immense reed swamp into which it had been brought on a boat. A preacher was the guide of the revenue officers and led them very carefully to the exact place. The moonshiners fled.

## STATEMENT FROM MR. MICHAUX.

### He Gives His Version of "If It Were Possible."

MR. EDITOR:—I have read with interest the dissertation by Mr. Petty, Manager of the Guilford College Football Team, regarding the recent game between that team and the Greensboro team, and the games he would have played and won "had it not been" for the faculty.

In that connection I would remind him that it is much easier to write a five line gush of foolishness in a newspaper than to make a five yard rush through the line of a football team. The Greensboro team prefers to contest for football supremacy upon the football field rather than through the columns of a newspaper, and is willing to allow our friends to improve their score, if they can.

I attended the fair in Winston last Wednesday and while there attempted to arrange a game with the Winston team. The captain, Mr. Bailey, informed me that his team had been disbanded for several weeks. He then asked me why we did not play Guilford College in Winston. He stated that his team had gotten a letter, on the Saturday before, asking for a game on Saturday the 6th of Nov.

If our friends can draw any comfort out of the above they are perfectly welcome to it. Yours very truly,  
JOHN A. MICHAUX,  
Manager Greensboro Team.

### Their New Quarters.

We congratulate our friends, W. G. Mebane & Co., on their handsome new quarters, the Doggett building, into which they will begin moving in a day or two.

The building was built and arranged to order and is admirably suited for the business of this enterprising firm. Besides the convenient and suitable arrangement of the building the location is all that could be desired, being located right in the heart of the traffic center of the city.

The business offices which are in center of the building on the front between the two entrances, are being finished in oil, and are very conveniently arranged.

This firm has already established a good business, and we predict for them a still more prosperous career in their new and handsome business home.

### Consumption Among Negroes.

Dr. Scruggs, colored, of Raleigh, gives the following interesting figures regarding consumption among the negroes: In one city in the south, the number of deaths from consumption in ten years was 3,119, of which 611 were white people and 2,508 were colored people, showing a death rate of about one of the former to three of the latter by population. The negroes in this country constitute less than one-tenth of the population, and at the same time nearly 40 per cent. of the mortality from consumption alone.

### Football Game Friday.

The Greensboro eleven will play the Wilmington boys on the latter's grounds next Friday. The Messenger says of the game:

The Wilmington football team will play their first game of the season at Hilton park next Friday, November 12th, with the Greensboro Athletic Association's football team. The boys have been practicing faithfully for about a month and are now in fine trim and confident of victory, although the Greensboro team is one of the best in the State.

### The Andree Relief Expedition.

Christiana, Nov. 6.—The steamer fitted out by the governor of Tromsøe, under instructions from King Oscar, which has left Tromsøe Island in search of Professor Andree, the missing aeronaut and his party, is the Victoria. She carries a crew of fifteen men and has on board Paul Bjoernvig, the explorer. The Victoria is provisioned for eight months and will search Daumandsoeren, Advent bay, Cape Thorsden, Prince Karl Foreland possibly Danes Island, from which point Andree's balloon ascended in July last in his attempt to cross the arctic regions. On her return trip the Victoria will explore the southwest coast of Daumandsoeren.

### Still Prospering.

The managers of the Southern Stock Mutual Insurance company report that its business was never better than at present. Speaking of the insurance rate war the Insurance Herald says: "The action which association companies are taking against the Southern Stock-Mutual in North Carolina, seems to us to be unwise. If organized rate-cutting against a small mutual company should succeed in driving it out of existence, the result would be one of the worst things that could happen to association companies."

### Five Hundred Cloak Makers Go On A Strike and The Brotherhood of Tailors May Strike.

By Wire to THE TELEGRAM.

St. Augustine Nov. 8.—There continues to be no clue to the incendiary who yesterday set fire to the San Morco hotel, one of the largest hotels in the city. The hotel was burned to the ground entailing a loss of two hundred and fifty thousand dollars. The whole amount of insurance on the building was less than fifty thousand dollars.

Thus far the strike has been attended by practically no disorder.

### LOSING CONFIDENCE IN BLANCO.

### The Trial of the Competitor Prisoners Postponed.

Havana, Nov. 8.—There is much excitement in political circles here due to an increasing lack of confidence in the ability of Spain to establish an autonomous form of government in Cuba and to apprehension lest the Spanish troops should not be able to suppress the rebellion by force of arms. The feeling of uncertainty as to the future increases the business depression which has existed for more than two years. There is also a desire among a part of the population for annexation to the United States.

The second trial by court martial of the crew of the American schooner Competitor, of Key West, Florida, has been postponed owing to the illness of the president of the court.

## FAYETTEVILLE FACTS.

### The Gospel Wagon and The Fakirs Both There.

Fayetteville, N. C. Nov. 8.—Fayetteville has had many religious opportunities during the past month. The last week in Sept. Rev. L. L. Nash D. D., of the Hay street Methodist church, began a meeting in his church and for three weeks labored hard for the salvation of souls. A few days before he closed Rev. Dr. Drew, of Virginia, began a meeting in the Presbyterian church, aiding pastors McKelway and Graham. For nearly two weeks he preached with great ability and delighted his people greatly. At the close of this meeting Rev. Furman H. Martin, of Norfolk, Va., came to assist pastor Thomas in the Baptist church and for 10 days he labored hard to lead men to Christ and build up the Christians. Mr. Martin laid bare sins and spared none of the vices of the people. On drinking, dancing, and card playing, he was very severe. There were twenty-three professions in this meeting. During the month Dick Morse was also here. His wagon attracted some attention and the preacher laid hard blows on the dispensary. Dick Morse does a good work along the line of temperance, but he sometimes errs in his statements and fails to accomplish much religiously because some of his declarations are not accurate. He never forgets to belabor Greensboro for putting him in jail, usually declaring it was for preaching the gospel.

Fair week with its fakirs and fools is upon us. The old proverb, "a fool and his money soon parted" will be abundantly illustrated during the next few days.

More cotton has been sold in this town than for a year or two, but now that prices are so low not a great deal is being sold. The farmers are dependent over prices, but some believe that they will advance after a little while.

### A CARLISLE INDIAN DEAD.

### A Brother of the Noted Seneca Indian Half-Back.

### Foraker and Kurtz in Conference And The Result Will Be a Fight in Ohio When Legislature Meets.

By Wire to THE TELEGRAM.

Long Island City, Nov. 8.—The trial of Martin Thorn who is charged along with Mrs. Mrs. Nack, with having murdered Guldensuppe, a turkish bath attendant, and afterward attempting to conceal the crime by cutting off the head of the victim, began here this morning. The case has attracted a great deal of attention throughout the country, has been twice postponed and promises to be one of the most famous murder trials the East has ever had. Witnesses have been brought from Europe to testify. Two hundred men have been summoned from whom the jury will be selected and it is expected that it will be several days before the jury will be empanelled.

### THE CASE AGAINST HANNA.

The state has eighty witnesses and the defense fifty and the trial will be long and hotly contested. Kelly still maintains that he is sane and is greatly worried over the likelihood of his counsel proving that he is insane.

## Facts Worth Studying.

If the Southern Stock-Mutual pays no larger dividends than the 20 per cent. now paid, and the business increases during the next seven years in the same ratio it has increased during the last three years, the actual saving for the ten years to policy-holders in North and South Carolina will be \$194,822.00, and to the policy-holders in Greensboro alone, \$26,237.60. Besides this the Company's assets (reinsurance reserve and surplus represented by still larger figures) will be kept at home and invested in the state. What better investment can the public make than by upholding an institution like this?
