CANADA'S REPLY RECEIVED.

It is Adverse to the Proposition of the United States.

IMPERIAL DECREE NECESSARY.

John C. Sheehan Will not Retire—Durrant Reaching the End of His Tether.

By Wire to THE TELEGRAM.

Ottawa, Ont., Nov. 27.—Canada's reply to the request of the United States for the suspension of pelagic sealing on January first was made public today. The Canadian government points out that under the existing state of things every British subject has a right to engage in pelagic sealing unless prohibited by an imperial decree issued by the imperial parliament which does not meet until the first of February. So until March it is not possible to comply with the proposal.

DURRANT TO BE EXECUTED.

By wire to THE TELEGRAM.

San Francisco, Nov. 27.—Attorney General Fitzgerald has announced that after the present legal quibble involving the resentencing of Durrant has been settled he will advise Warden Hale to carry out the execution sentence regardless of other legal proceedings.

FOUR DAYS ON THE DESERT.

Donnelly Barely Escapes From the Waterless Waste.

San Francisco, Nov. 26.—A dispatch from Randsburg, Cal., says that Felix Donnelly, who had wandered for four days and nights on the Mojave Desert and narrowly escaped death, reached there last night. Donnelly drove a horse to the Argus Mountains, seventy miles away across the desert. It was on his return trip that he missed the way.

After driving all day and night he reached Sanders' well, only to find it dried up. His horse fell in the harness and, unhitching the animal, he spread some hay for it to eat, and himself set out on foot for El Paso Tunnel, where he knew there was water. He thought he knew the location of El Paso Mountain, but became confused and wandered in a big circle for three days and nights, when he dropped and lost consciousness.

He was found with his head under a bush near the Keeler stage road. The days were terribly hot on the desert and only the cool nights saved his life.

Plunker, Chuggs & Co.

The Merry-makers presented the above comedy last night to a rather slim house, due to the downpour, doubtless. There was some very good buffoonery and two or three patches of clever acting. There was some dirt, lugged in, as usual, because it was dirt and not in the least funny, though the crowd laughed to prevent the awkward silence that follows a joke fallen flat. The crowd is always obliging in such particulars. Tonight the company will put on what they say is the best play they have given here. Ladies' free tickets with each paid thirty-cent ticket as heretofore.

ALDERMEN MET LAST NIGHT.

And Transacted Special and Routine Business.

The following Aldermen responded to their names last night: Elam, Frazier, McKinney, Phipps, Sergeant, Shaw and Thornton.

The finance committee made a report recommending an appropriation of \$250 to be equally divided between the Eagle Hose Company and the South-side Hose Company for the purpose of assisting in erecting houses for their hose wagons and apparatus. The report was adopted and the appropriation made.

Rev. P. L. Groome appeared before the board and asked that the sewer on South Elm street be extended to Lewis street. The matter was referred to the sewer committee.

J. R. Mendenhall stated to the board that during the recent fire at South Elm and Lewis streets M. C. Kenley received injuries by burning in rescuing some people from a building and has not been able to work for some time. He asked that the matter be referred to the fireman's committee to see if the city could not aid him; the matter was referred.

D. W. Carl asked that the curbing be extended on Mebane street, and the matter was referred to the street committee.

The special committee appointed to confer with Sheriff Hoskins regarding the ill conduct of prisoners in jail made a verbal report stating that they had seen the Sheriff and he had promised to use every lawful means to remedy the evil.

The Sheriff also requested that the committee heretofore appointed to confer with the board of County Commissioners with regard to the erection of a new jail appear before the commissioners with him at the next meeting and press upon them the importance of a new structure. The committee was requested to appear.

The special committee on a sanitary ordinance made its report, and on motion of Mr. Sergeant it was postponed to next meeting of the board because of the small attendance.

The Jr. O. U. A. M. asked to be allowed to place a flag upon the school buildings and present a bible to each. The request was referred to the proper committee.

A. N. Perkins was given permission to sell fresh meat at Landreth's old stand.

On motion of Alderman Shaw the board adjourned until next Tuesday night.

CAUGHT IN THE BREAK.

Greensboro Men Preferred Creditors in a Virginia Assignment.

A prominent lumber dealer of Charlottesville, Va., J. H. Nalls, made an assignment on the 22nd which caught North Carolina men to the tune of about four thousand dollars, two of our Greensboro firms being in the smash.

R. W. Brooks is one of them and he is a creditor to the amount of about eight hundred dollars. The Guilford Lumber Company is in it for about the same amount. Capt. Billy Williams is also tied up to the tune of some five or six hundred, while Messrs. Britton & Johnson, of Spout Springs, hold papers for twenty-seven hundred.

Messrs. Brooks, Britton, and Mr. W. D. Mendenhall, of Guilford Lumber Company, have gone to Charlottesville to look after their claims. A letter to these gentlemen from Mr. Nalls tells them that their claims are among the first preferred creditors and we hope they will get their money.

Second Entertainment.

The second of the course of entertainments at the Normal and Industrial College, will be given next Friday night by the Frances Hughes Concert company. This company is recommended as one of the very best and something rich and entertaining may be expected. Further announcements will be made. Remember the date Friday night, December 3rd.

The Kronberg Concert Company were here at noon today and went to Durham, where they sing tonight. Mr. Kronberg tells us they are singing to crowded houses everywhere they go. Mrs. Kronberg has entirely recovered from her throat trouble.

THREE BURNED TO DEATH

In A Fire in New York City This Morning.

DR. PARKHURST IS DISGUSTED

With New York and the Sentiment May Be Mutual—London Will Dress Hair in a New Fashion.

By Wire to THE TELEGRAM.

Jameson, N. Y. Nov. 27.—At four o'clock this morning a fire in the Atlantic block on first street, this city, resulted in the death of Walter Sessions, of Pauoma, Sadie Voss, of Buffalo and August W. Jordan, address unknown, though he is believed to have been connected with the New York Central Railway. The building was a disorderly house. The two men were visitors and the woman an inmate. The fire was confined to two rooms.

PARKHURST COME BACK.

By Wire to THE TELEGRAM.

New York, Nov. 27.—Dr. Parkhurst and wife arrived this morning on the White Star Line Steamship Adriatic. He appeared to be in good health but wore a look of disgust which was attributed to the result of the late campaign. He said he was heart broken to come back and find the city at the mercy of the same gang from whose clutches it was wrested once before.

THE CHIGNON COMING AGAIN.

By Cable to THE TELEGRAM.

London, Nov. 27.—There is a marked change prevailing in the style of dressing the hair indicating an inclination to return to the Chignon which was in vogue twenty years ago and dates back to the savage ages.

"ACCOMMODATION."

How it Was Years Ago and How it is Now.

You've all heard of "accommodation" trains. It is related of the Egypt Coal Fields road from Fayetteville to Egypt (now Cummoek), since extended from the mountains to the sea which is now the Cape Fear & Yadkin Valley, that years ago when Capt. Dave Jones was engineer, conductor, mail agent, baggage master and all that, he used to stop his train and allow the passengers to get off and pick blackberries.

It is also related that the same train used to pick up eggs, butter and such things, at the farm houses along the route and carry them to Fayetteville, and that on one occasion when Capt. Dave stopped his train and walked a quarter of a mile for some eggs, the good old lady told him she only had twenty-three, but there was a hen on and if he would wait awhile he could get two dozen. And the story goes that the accommodating captain quietly took a seat on a stump in the yard and waited.

He did not wait long before the lively cackling of the old speckled hen announced the fact that the required egg to complete the two dozen awaited him. Picking them in his little basket he went back through the fields to his train, tooted the whistle, pulled the bell rope and rolled away without a murmur from the passengers who had patiently waited.

This may or may not be true, but the writer once heard it told in the presence of the genial captain and he didn't deny it, so we take it that there is some truth in it.

While making a trip this week over the new road, the Dupham and Charlotte, we saw an act of accommodation that is worthy of praise. The road is now operated about fifteen miles, from Gulf up into Moore county, and after leaving Gulf there are no connections to make, and there is plenty of time. A few miles out from Gulf an old field was on fire, and a fence running through it nearby the railroad track was burning up. When near the spot Engineer Wilcox stopped the train and with the crew put out the fire with pine bushes and water from the tender.

It did not inconvenience any one and no one aboard grumbled at the delay, but rather approved the work of the train people in putting out the fire, which if allowed to burn a little longer would have been beyond control and would have wrought much damage to fences and other property.

The second entertainment of the State Normal and Industrial College will come off at the College next Friday night, December 3. See announcement elsewhere.

Attending a Thanksgiving Dinner, or any social function, a man should be provided with a dress suit of the latest cut and fashion. Order now, and we will have it ready for you on time, and will guarantee that in perfection of fit, distinctive style and beauty of fabric no one will look more "swell" than a man who wears one of our dress suits. Facts Worth Studying.

If the Southern Stock-Mutual pays no larger dividends than the 20 per cent. now paid, and the business increases during the next seven years in the same ratio it has increased during the last three years, the actual saving for the ten years to policy-holders in North and South Carolina will be \$194,822.00, and to the policy-holders in Greensboro alone, \$26,237.00. Besides this the Company's assets (reinsurance reserve and surplus) represented by still larger figures will be kept at home and invested in the state. What better investment can the public make than by upholding an institution like this?
