**By Wire to THE TELEGRAM.**

**By Cable to THE TELEGRAM.**  
Yokohama, Feb. 4.—The Japan fleet is manoeuvring here previous to a cruise in Chinese waters. The Japanese press is silent on the situation. In China it is believed that the Premier, Marquis Ito, is awaiting the settlement of the German claims before committing Japan to any definite policy. The Russian squadron is without smokeless coal and the supply of any kind is small.

**The Governor on His Ear.**

**A Washington special** to the Charlotte Observer says:  
Governor Russell is quoted in Washington as saying that he "will protect Railroad Commissioners Caldwell and Pearson against the rule recently issued by the Supreme Court of the United States to the full extent of his resources as commander-in-chief of the state militia."

**He is reported** as having advised resistance to the order of the Supreme Court, saying that the object of the removal of the Wilsons as railroad commissioners was to precipitate a conflict between the State and Federal judiciary. "I will go to jail," he is quoted as saying, "to make the question of Federal usurpation the paramount issue in the next State campaign."

**THE CZAR'S ULTIMATUM.**

**He Tells the Sultan Prince George Must be Governor of Crete.**

**London, Feb. 2.**—The candidature of Prince George of Greece for the Governorship of Crete has been the shuttlecock of the foreign correspondents for some time. A dispatch from Berlin says that the Constantinople correspondent of the Frankfurter Zeitung now declares that M. Zinovieff, the Russian Ambassador to Turkey, has handed the Porte a note received from St. Petersburg declaring it to be the unshakable will of the Czar that Prince George be appointed. The note added that his appointment was necessary for urgent political reasons. If the Sultan persists in his opposition to Prince George, Russia will renounce all further initiative at the Yildiz Kiosk.

The note seems to have threatened the withdrawal of the warships at Crete, by which withdrawal, it was added, the lives of all the Mussulmans there would be endangered, and the note continued, "Russia will know how to prevent the landing of fresh Turkish troops."

**It has been already reported** from credible sources that the Sultan has twice positively refused to accept Prince George as Governor of the island, basing his opposition on the temper of the Turkish nation. It seems that something must soon break.—N. Y. Sun.

**No Law Against Bigamy.**

**Des Moines, Ia., Feb. 2.**—The discovery has been made that bigamy and even polygamy are not prohibited under the Iowa laws. Of course there is no sanction for a violation of the laws that obtain in other states with regard to matrimony, but as matters now stand there is no provision here for the prosecution of a bigamist.

**The situation** is due to a curious omission in the revised Iowa code, which prescribed no penalty for bigamy and does not prohibit a plurality of wives. The defect will be remedied by the legislature.

**Spanked The Schoolma'am.**

**Joplin, Mo., Feb. 3.**—Miss Ollie Maddox, the school mistress at the village of Avilla, in Jasper county has resigned because of an embarrassing incident. On last Friday she had occasion to chastise an unruly boy of 13 years, but he resisted so vigorously that the teacher failed to conquer him. On Monday Miss Maddox again attempted to chastise the obstreperous boy, when his 14-year old brother went to his assistance. The two then gave their teacher a spanking. The affair created a sensation at Avilla and the young woman concluded to resign.

**They Did Not Drink.**

**The story** is told of two Mormons elders as happening in a town not far distant, in which one of their doctrines was given a practical test. The story relates that especial emphasis had been made in their sermons upon the doctrine that, if they drank any deadly thing it should not hurt them; the Lord being their especial protector. At the end of the sermon the pastor, who had courteously loaned them his church, arose and said: "Now brethren, we have listened attentively to this doctrine and if by practical test you can demonstrate this we will accept the doctrine. I have here a quantity of strichnine which I will mix in water and if you drink it and survive we will believe." It is reported that they did not drink.—Winston Journal.

**SOUTHERN STOCK WILL RISE**

**Common Stockholders Advised to Hold On**

**WHAT IS THERE BEHIND IT?**

**Alleged that Expenses are to be Cut and Increased Dividends Declared Forcing Up the Stock.**

**By Wire to THE TELEGRAM.**  
New York, Feb. 4.—A gentleman well known in political and business circles here made an important statement in regard to the stock of the Southern railway this morning. He advises the holders of common stock to hold on to it. He recites as reasonable that the management of the reorganized system will pay cut expenses so that the road will have a regular dividend on the preferred stock which will rise rapidly so soon as the dividend now being declared is paid regularly. As it is every week's returns shows a large increase in receipts and profits. The common stock will rise along with the preferred.
