Missed Some Property.
When the Lillian Tucker Company's stage effects were being loaded into the wagons on Saturday night some of the properties were missed. A search revealed that they had been carried away to some distance and dropped.

It is not definitely known who attempted to appropriate the property, though there is evidence against a certain party.

GUILFORD COLLEGE NEWS.

An Interesting Lecture on the Wonderful X-rays.

Special to THE TELEGRAM.
Guilford College, Feb. 7.—Prof. H. L. Smith, of Davidson College, delivered a lecture on the X-rays here last Saturday night. His explanation of the nature of the X-rays was so plain that every one felt that they knew all about them.

First he explained what the X-rays were. Then he showed how they were generated. After this he showed the practical workings of the X-ray apparatus. Pieces of metal and other substances imbedded in wood were made visible to the audience. Coins in a purse could be plainly seen. A photograph of the bones in a person's hand was taken, also one of a purse with coins and a knife in it. After this everyone in the audience was given an opportunity to see the bones in their hand or arm. Everyone was astonished at the plainness with which they could see the movements of the different bones in their hands. The lecture is unanimously voted a grand success.

Miss Henryanna C. Hackney, a teacher in the High Point Graded school, came home Saturday for a short visit and also to take in the X-rays lecture.

Miss Rena Worth, of High Point was here Sunday.

Misses Deloateh, Moore, Vaughn and Tayner, of the State Normal and Industrial College have been visiting the Misses Griffin of this place for a few days.

The college pond has furnished great sport to the students for several days. The ice has been fine.

Marshall Mott knocked out Sheriff Call says he cannot be re-nominated.

Declares the Civil Service is Doomed and that Ewart Will be Confirmed. Amputation Necessary.

Special to THE TELEGRAM.
Winston, Feb. 7.—Sheriff Call passed through the city today and says that from reliable authority the civil service will be knocked out in Washington in eight days; that Ewart will be confirmed today, all opposition having been withdrawn, and Mott, he says, has no show of re-nomination for the solicitorship; that John Benbow, of this city, will be the nominee of the party for solicitor and J. R. Henderson will be appointed revenue commissioner immediately upon Ewart's confirmation, at a salary of \$2,000. The county, he declares, is anti-Mott.

Walter Fulk, who was hurt on the Southern Saturday evening at 5:15, Dr. Gray, the attending physician, says is very badly injured, and it is not improbable that he will have to amputate his right leg, just below the knee.

The Event of the Week.
The Sherwood concert has the field all to itself this week. It deserves to have, as it is the musical event of the season. Mr. Sherwood is a great artist and his support is of the best. If the weather continues like this a packed house will greet them. There will be parties from several neighboring towns, the music students of Greensboro Female college will attend, and Greensboro will turn out a good crowd. The seats are now on sale at Gardner's, only a little canvassing was done, just enough to guard against loss. Those that bought seats are requested to call for them at Gardner's Tuesday. The money will be collected for these choice seats if they are not used, so if you have bought and cannot go you had better dispose of your seat.

At The Academy.
Lillian Tucker and her company made their final appearance at the Academy of Music Saturday night in "Led Astray." They were greeted with a packed house and the acting was quite clever. Altogether the company gave good satisfaction while here. The Robin Hood, Jr., company did not have a sufficient audience to justify staging their spectacular tragedy at the opera house and so the play was called off and the box receipts returned.

THE SHERIFF MARTIN TRIAL.

Defendants May Take French Leave or Spend Their Nights in Jail Until The Verdict.

By Wire to THE TELEGRAM.
New York, Feb. 7.—The Standard Oil Company is arranging to water its stock again by increasing the face value to four hundred per cent. The company has hitherto been paying public dividends of ten per cent and secret dividends of thirty per-cent in addition. The stock has been selling at four hundred dollars per share.

TRIAL OF THE SHOOTERS.
By Wire to THE TELEGRAM.
Wilkesbarre, Pa., Feb. 7.—There is a revival of interest in the trial of Sheriff Martin and his deputies due to the sensational development Saturday and the expectation that the startling occurrence among the crowds which gathered here was much speculation on the ability that some of the defendants who are not under bail might take French leave or that some of them might be unable to furnish bonds and be forced to pass their nights in jail until the jury should bring in its verdict.

Judge Woodward reprimanded the attorneys for the passage at arms on Saturday and said that had he heard it he would have dealt with them in a summary manner. He also criticized some of the reporters, saying that some reported the case as it should be and others were making astounding misrepresentations. Justice of the Peace Jones West, of Hazleton, was the first witness. He told of the interview he heard between the sheriff and the strikers and how the deputies clubbed the latter off the road. He then went over to Lattimer to see how the marchers would be received and saw the deputies line up and fire after the sheriff had come to the front with the papers.

Gompers' View of It.
By Wire to THE TELEGRAM.
Boston, Feb. 7.—Samuel Gompers was interviewed after the secret conference of the leaders of the labor organizations and said that unless the hostile factions of the textile unions came to an agreement quickly the strike at New Bedford would avail little.

Strikers Not Weakening.
By Wire to THE TELEGRAM.
New Bedford, Feb. 7.—Secretary Ross, of the Spinners' Union, denies that there is any truth in the statements relative to the weakness of the strike. He says the general body of the operatives is not weakening.

Closed the Universities.
By Cable to THE TELEGRAM.
Vienna, Feb. 7.—All the German universities and high grade schools have been closed by order of the Governor until March the twenty-third. This is done to prevent a recurrence of the recent disturbances.

Sentence Confirmed.
By Wire to THE TELEGRAM.
Philadelphia, Feb. 7.—The state supreme court today confirmed the finding of the Montgomery county court in condemning to death Chas. Kaiser for the murder of his wife at Morris-town on October 26, 1896.

Public Schools Close.
By Wire to THE TELEGRAM.
Fish Kill, N. Y., Feb. 7.—The public schools here have been compelled to close because of scarlet fever.

Did Not Strike.
By Wire to THE TELEGRAM.
Fall River, Feb. 7.—The mill machinists did not go out on a strike as anticipated.

SOUTHERN MILLS LEAD.

Report of Mr. Coolidge on His Return to Boston.

Boston, Feb. 5.—T. Jefferson Coolidge, treasurer of the Amoskeag mills, of Manchester, has returned from a trip to Florida. He says of the general mill situation:

"On the maintenance of the reduction in wages depends the existence of the New England mills, and striking against a reduction is a mistake on the part of the operatives who are attempting to kill the goose that lays the golden egg. If the mill hands desire to get out of employment they are taking the right course in striking."

"Nearly all the Southern mills are prosperous. The biggest mills are earning large dividends, but are rarely paying 6 per cent., as they are reserving their excess profits to increase their quick capital."

"The southern cotton mills get some advantage from cheaper coal and also cheaper cotton, but the wage question is the great factor in their favor. If it were not for the lower wages paid in the south our mills would compete with them without trouble."

"Southern mills, having been built later, are superior to the average northern mill. The best southern operatives turn out just as much work as the northern operatives and are just as intelligent."

WILL HAVE ELECTRIC LIGHTS.
That New Depot to be Built Here by the Southern.

The Telegram learns that as soon as the winter weather breaks, work will be begun on the Southern's new passenger depot in this city. This is good news, refreshing news. The old depot and waiting rooms are totally inadequate to accommodate the volume of passenger traffic at this place and a new, convenient, comfortable and commodious station will mean much for the Southern and it will mean much for Greensboro.

We are also informed that the new building will be lighted by incandescent electric lights furnished by a plant to be put in by the company, and made comfortable by a steam heating furnace.

Pardoned a Pair.
The Governor pardons John Leadford and Calvin Leadford, who were convicted of retailing liquor at the fall term, 1897, of Mitchell Superior Court and sentenced to six months on the Rowan county road gang. He makes this endorsement: "Prof. J. J. Britt, representing the prosecutors; Solicitor Spainhour and several hundred of the best citizens of Mitchell county ask for executive clemency in this case. On account of the youthful age of both of the prisoners, the ill health of one of them and the strong petition of those who were instrumental in securing their conviction I grant the pardon. They have already served three months of their term.—Col. Olds' correspondence."

To Boycott Yale.
New York, Feb. 5.—At the close of the ninth annual convention of Young Women's Christian Temperance Union, of New York and New Jersey, held in Jersey City today, a resolution was adopted to the effect that in view of the disclosures of the extensive sale of liquor to students of Yale, in New Haven, the members of the union would use their influence to dissuade all young men of their acquaintance who are contemplating a college to select some other institution, "where they may be surrounded by a more healthy, moral atmosphere and subjected to fewer temptations."

Withering Repeach.
There was trouble between the diplomats. "So, sir," said one, "you seek to cast discredit on my management of the war against Cuba."

"I do."

"Perhaps you think you could have managed better?"

"Unquestionably. I could have gotten whipped for half the money."—Washington Star.

Rumor Not Confirmed.
By Cable to THE TELEGRAM.
London, Feb. 2.—Up to this time there has been no confirmation of the report that Russia and Germany have succeeded in negotiating a loan with China.

Notice.
It is urgent that State and county taxes be paid at once. The money is needed to meet current expenses and state taxes. Will advertise land for taxes soon. Fair warning to all. Very Respectfully,
J. A. HOSKINS, Sheriff.

THE CROWD HISSES M. ZOLA

No Demonstration in the Court Room Took Place

MUCH INTEREST IN THE CASE

Trial of the Novelist Will be Confined to that Passage of His Letter Denouncing Courtmartial.

By Cable to THE TELEGRAM.
Paris, Feb. 7.—A vast gathering assembled around the palace of justice this morning to witness the arrival of M. Zola and the other important persons connected with the trial of the great novelist. The court opened at noon with the room packed. No demonstration occurred in court. Zola was hissed by the crowd when he appeared. After the reading of the indictment the advocate-general explained that the charge would be strictly limited to the passage in Zola's letter denouncing the Esterhazy court martial.

Supplied.
"I desire to bring attention to a new invention," said the door-to-door merchant. "It's a snow shovel that doesn't make any noise."

"We have one," answered the woman who had opened the door. "I regret to say that owing to the extreme indolence of the men in this family our snow shovel hasn't made a sound this winter."—Washington Star.

More Accurate Service in Greensboro Than Baltimore

Mr. C. M. Vanstony had his little girl's eyes examined in Baltimore last year and went with the prescription to one of the largest and best known optical houses there to have the glasses made up. FORTUNATELY one of the lenses of broken recently and was carried to the Greensboro Eye Specialist to be replaced. He saw at a glance that neither lens accorded with the prescription, and so changed them both. Mr. Vanstony sent the old lenses with an explanation to the oculist who had given the prescription and in reply received the following:
