The Longest Run.

Augustin Daly's "A Night Off" is a comedy which has enjoyed the longest run in New York and other of the larger cities of any of his plays or comedies that have been produced by him. It is a genuine comedy such as is scarcely offered to the public-a comedy without that stale and misapplied word farce-the characters interpreted by a company of brilliant comedians rendering their respective parts in the most realistic, natural and graceful way and which is seen only in the finished and capable actor. "A Night Off" is a comedy that will live for many years and still shine as a comedy when all other so called comedies are laid away on the shelf past all usefulness. "A Night Off" will be given at the Academy of Music on Friday evening February 25.

San Francisco, Feb. 23-The latest news from North Borneo of the native revolution says that Mat Sullah, the leader, has been shot in the leg and badly wounded. ACCIDENT THEORY VANISHING.

So Says the Staff Correspondent of the Washington Star.

Washington, Feb. 23-The Evening Star has recived the following from its staff correspondent in Cuba: 'Havana, Feb. 23, via Key West.

"Inquiry into the Maine disaster progresses along degnite lines. The result so far may be summed up in the statement that the probability that it was an accident seem to decrease

with the progress of the investigation. "The most intense anxiety is shown by the Spanish officials here, who are in constant communication with Madrid. They realize that the relations withe United States were never so much in danger of rupture as now. This is the general feeling.

"The commercial clases here are hopeful of American intervention on peaceful lines, but what they basetheir hope on is unknown.

"The insurgents continue to win minor military successes. The autonomists are restless and some of the leaders seem on the point of breaking away from the government. Army officers continue to show an anti-American sentiment. They are apparaently the only class that does not look for an early crisis. Pepper."

Now it is Dr. Edward's turn. it is a dangerous wrong.' What will Dr. Edwards do next? We wonder if he will "deprecate the fact" that God is blessing the Southern Methodist church in the visitation of the Holy Ghost, or that God makes no exception in the case of the "unjust" southern people to His rule of sending the "rain on the just and the unjust."-Christian Advocate.

He saw at a glance that neither lens accorded with the prescription, and so changed them both.
