THE CITY FATHERS.

A Summary of What They Did Last Night.

The board of Aldermen met last night with the mayor in the chair. Ellington and Hiatt were absent. The street committee reported in favor of accepting the strip of land tendered the city at last meeting for the extension of Lithia street to the North Carolina railroad.

Water committee filed a report recommending the putting in of a water plug near the furniture factory, and one at northeast corner of Whittington and Ashboro streets.

Special committee to which was referred the matter of putting drains through the McAdoo meadow made a verbal report and filed a proposition from W. D. and C. N. McAdoo, they offering to pay the cost of digging ditch and covering the same, provided the city will pay for the piping and laying the same.

W. D. McAdoo's proposition was conditional that work be commenced in 30 days from date of proposition. If not accepted within that time the proposition to become null and void.

Alderman Shaw moved that the proposition of W. D. McAdoo be allowed to expire by limitation. Adopted unanimously.

W. C. McLean asked for an extension of the sewer on Forbis street to connect with his new buildings. This matter and that of connecting Lindsay street school with the sewer were referred to sewer committee.

The matter of opening Chestnut street was re-referred to street committee to confer with property owners.

Alderman J. Henry Phipps offered an ordinance requiring all riders of bicycles to have lighted lamps on their wheels while riding after night fall.

C. N. McAdoo being present had a conference with the special committee in regard to putting the drain pipe in his property in the meadow and offered to give \$250 and stated that C. E. Holt would add fifty dollars to this amount to put pipe from Sycamore to and across East Market street, and the committee recommended the acceptance of the same.

Alderman Merrimon moved that the report be continued until next meeting. Carried.

Grade was established on Gaston street.

Alderman Thornton moved that the cemetery committee be instructed and empowered to cultivate the vacant land in the cemetery and that street committee be instructed to take all street sweeping and manure from stables to the cemetery for the purpose of cultivating said lands.

PLANS MAY BE FRUSTRATED.

McKinley's Efforts to Maintain Secrecy.

MARIX EXPLAINS THE REPORT.

Other News on the Situation Sent From the Nation's Capital City.

By Wire TO THE TELEGRAM. Washington, March 26—Further information regarding the report of the court of inquiry before it is submitted to congress on Monday is not expected.

However, publication of the report as cabled Minister Woodford for Spain may be made there. If the report is published at Madrid it will be immediately cabled back and the efforts of the administration to maintain secrecy until congress has been communicated with will be frustrated.

Congressmen have shown remarkable loyalty to the president in restraining their desire for radical action until the president prepares his plans. It is thought that this restraint cannot be continued longer than Tuesday or Wednesday.

If the report be allowed to go to the committee without action the administration's policy must immediately be submitted to congress or it will take the matter into its own hands. Mr. McKinley still hopes for peace.

The president has been corresponding with Sagasta's government regarding some plan of self-government for Cuba. Little is known of the plan but it provides for Cuban independence.

Just a Private.

There is one man in North Carolina willing to go to Cuba to fight as a private. His name is E. Merrick, of New Berne. Unlike the half a hundred volunteers who have up to this time written to the governor, Mr. Merrick does not ask for a command, but only that he be given a place as a private. He fought in the Confederate army during the late war, and was clerk of the city of New Berne in 1871. He is now about 45 years old.

Philadelphia Bank Closes.

Philadelphia, March 25—The People's Bank closed today. Clay Kemble, assistant cashier of the Guarantee's Company, was appointed receiver. There is believed to be some connection between the failure of the Guarantee's Company and the bank, but nothing can be confirmed. It is believed today that the death of Cashier Hopkins, who died yesterday, was a case of suicide. He ran the bank.

TO HALT SPANISH FLOTILLA

Orders Issued to The Fleet at Hampton Roads.

NO MESSAGES ALLOWED TO LEAVE

The Real Significance of the Report Not Yet Indicated—The Battleship Maine Was Moved.

By Wire TO THE TELEGRAM.

Washington, March 26—The wildest sort of rumors are afloat. Some to the effect that Spain has been notified that her fleet must stop, and that Schley has been ordered to have the fleet at Hampton Roads ready to halt the Spanish flotilla.

SPAIN GETTING STRICT.

Washington, March 26—Minister Stewart L. Woodford the state department that no dispatches relating to the movements of Spanish warships are permitted to leave the country. It is not known whether this embargo relates to telegrams from Woodford to this country. Both Woodford and Dyer, United States attache at Madrid, sent dispatches Thursday. The censorship relates particularly to the torpedo flotilla.

NOT YET INDICATED.

Washington, March 26—It is learned today that the real significance of the report of the naval board of inquiry has not yet been indicated. The widely published statement to the effect that the board finds that the explosion was from the outside and that it was caused by setting off some kind of submarine mine is doubtless correct, but this statement only hints at the serious nature of the findings.

The harbor master at Havana testified that the Maine was moved from the place where she was first anchored to buoy over the spot where the explosion occurred. Whether the mine was there before the removal is not stated.

This information comes from a man who knows every word of the report. There is every reason to believe that when congress learns the facts it will be impossible to restrain the houses.

The Private Secretary.

Manager Blackburn, of the Academy of Music, has secured, for one performance, the great success of last season, the Private Secretary, with Edwin Travers and his admirable company. The Private Secretary was decidedly the best performance that was ever given in Greensboro, and while the audience last season was small, it is safe to say that it was the most thoroughly delighted one that ever left the opera house.

This season Mr. Travers will appear at the Academy of Music, and those who did not see the performance last season are unconditionally urged not to miss this opportunity to revel in the beauties of the cleanest and brightest comedy ever written.

Those who were present last year will not require any advise—they will be among the very first to secure seats in a foregone conclusion. The Private Secretary is a clean, pure and wholesome comedy, and its success for this reason alone cannot be wondered at. It is a purely legitimate comedy, and deserves to stand in the very front rank of all theatrical concoctions designed exclusively for laughing purposes.

Mr. Travers company last season was an exceptionally good one, and this season the assurance is given that the present organization is even superior to the company which appeared here last January.

Thursday night, March 31st, is the date for their appearance here. Seats are now on sale at the usual place, and by special arrangements the prices for reserved seats have been placed at 75 cents. No extra charge for reserving seats in advance.

A WOMAN LEAVES \$40,000,000.

Inheritance Tax on Her Estate Will Reach a Million.

New Haven, Conn., March 24.—Mrs. Jane Winchester, a venerable widow of 91 and proprietor of the Winchester Repeating Arms Company, said to be the wealthiest woman in the world, died at her home here today.

Fabulous estimates of her wealth are made, one statement placing it at \$40,000,000. Under the inheritance tax law about \$1,000,000 will come to the State by the transfer of her property to her heirs.

Mrs. Winchester leaves one daughter, Mrs. Thomas G. Bennet, wife of the president of the Winchester Arms Company. Mrs. Winchester has given two hundred and fifty thousand to Yale during the past ten years, and it is believed she has left the university a considerable legacy in her will.

CRAVEN MEMORIAL.

The Corner Stone Will be Laid at Trinity Commencement.

Rev. N. M. Journey, the agent for the Braxton Craven memorial building, which is to be erected at Trinity College, was in the city yesterday, returning from Greensboro, where he attended a meeting of the building committee of the proposed memorial.

Rev. Mr. Journey informed the Post that he secured \$650 for the memorial building Thursday last. The larger part of this amount was donated by one individual.

Mr. Journey has agreed to give \$1000 of the \$10,000, which sum it is proposed to secure for the construction of the building.

Mr. Journey says he hopes to be able to lay the corner stone of the building at the commencement exercises next June. At no distant day it is expected that work on the building will begin. The architectural plans have already been accepted.—Raleigh Post.

A Gold-Bug Trick.

Louis James is impersonating Spartacus in North Carolina. As we understand it, Spartacus was a candidate for presidential elector on the fusion ticket and was defeated. Why any one should attempt to impersonate the unfortunate man we cannot understand, unless it is a gold-bug trick.—Fairbrother's Farrago.

Dear Sir:—I have examined your eyes with the prescription to one of the largest and best known optical houses there to have the glasses made up. FORTUNATELY one of the lenses got broken recently and was carried to the Greensboro Eye Specialist to be replaced. He saw at a glance that neither lens accorded with the prescription, and so charged them both. Mr. Vanstory sent the old lenses with an explanation to the oculist who had given the prescription and in reply received the following:
