HE'S A COLORED MAN.

And the Union Republican Don't Like Him.

There is one thing that has long been noticed in Republican circles. It is almost invariably the case that when a colored man in the republican party begins to claim the rights to which his race are entitled some of the white leaders are ready to jump on him with both feet and stamp the life out of him. The following is a clipping from the Union-Republican in which it pays its respects to the Herald, a new republican paper edited by a colored man:

"The freedom with which the Twin-City Herald handles the names of gentlemen shows a state of human depravity on the part of its editor and promoters that is appalling.

"The Republican never throws mud, but it is forced to say that the white men who are coaching that dirty sheet are a set of dirty liars and scoundrels. Letters are received from parties who know the editor of the Herald, denouncing him as a fraud and a dirty trickster. Decent colored people are indignant at his brazen affrontery and are already tired of his presence among them."

The Platter of Athletics.

Correspondence Telegram.

Guilford College, Mar. 30—The trustees of the college met here today. They contemplated action to abolish playing by our athletic teams off our own grounds, was reconsidered and it was decided to leave the controlling of athletics to the faculty. Outside of this no important business transacted, only such as is of a routine nature.

The procuring of teachers for next year was left in the hands of a committee.

The ball team leaves Saturday for Durham where it will play two games with Trinity College, Saturday and Monday.

SITUATION MORE SERIOUS

And the End Cannot be Very Far Away.

SPAIN WANTS FIFTEEN DAYS

The News of the Pending Crisis and Views Concerning Peace or War Wired from the Capital.

By Wire to THE TELEGRAM.

Washington, April 1—The president went over the situation very thoroughly with Senator Davis, chairman of the committee on foreign relations early this morning, after which Senator Davis hurriedly drove away. The last dispatch from Madrid was thoroughly unsatisfactory and the dissatisfaction was openly announced during the conference this morning.

The president admits that the situation is more serious than ever regarding the reconcentrados. Spain must go much farther than is now indicated before her action can be considered as complying with the demands of this government.

Mr. McKinley is taking the leaders in Congress into his confidence so that Congress may be in accord with him. He is not attempting to withhold any information from them.

MORE MEDICAL OFFICERS.

Washington, April 1—Representative Hull, chairman of the committee on military affairs, has introduced a measure increasing the number of medical officers of the navy and authorizing the surgeon-general of the army to appoint the same in case of emergency.

SPAIN ASKS FOR TIME.

Washington, April 1—Spain asks until April 15th to reply to our note. Nobody believes it will be granted.

NEARING THE END.

Washington, April 1—A number of senators and representatives who saw the president today told him that it was impossible to delay the Cuban question beyond next Monday.

STRONG SENTIMENT DEVELOPED.

Washington, April 1—A strong sentiment has developed in the committee on foreign relations in favor of war, based on the Maine question and not on Cuban affairs.

DISPOSITION OF WARSHIPS.

Washington, April 1—Chief of the Navy bureau of navigation and members of the army and navy strategic board have been summoned to a cabinet meeting in which will be considered matters regarding the condition and disposition of warships. Assistant Secretary Roosevelt has also been summoned.

HURRY ORDERS ISSUED.

BARNABE BUSY ALL NIGHT.

Washington, April 1—Senator Polo y Barnabe, the Spanish minister, did not retire until day break this morning. Throughout the night he was answering cablegrams from his government.

CUNNINGLY WORDED EVASION.

Washington, April 1—The last words of Sagasta's reply to the president's demands were received this morning at 3 o'clock. His reply was not so much a rejection of the president's demands, but a cunningly worded evasion of a direct answer. The cabinet officers are disappointed at it and consider the situation grave.

PREPARE FOR WAR.

Washington, April 1—It is stated here on good authority that McKinley's diplomacy has utterly failed and from one end of the country to the other orders have been sent to prepare for war.

FORMAL STATEMENT TO BE MADE.

Washington, April 1—Assistant Secretary Day says: "A formal statement will be made after the cabinet meeting today. In the meantime I decline to confirm or deny any rumors."

JOINS FLYING SQUADRON.

Philadelphia, April 1—The cruiser Minneapolis left this morning under special orders to join the flying squadron at Hampton Roads.

MONITOR ORDERED TO NEW YORK.

New York, April 1—The navy department has ordered one hundred men of the New York naval reserves to go to Philadelphia and bring one of the monitors now at that city to this port.

day. They closely examined every available vessel for war purposes. The board is now making its report to be forwarded to Washington.

PATROL FLEET.

Key West, April 1—The patrol fleet will be continued nightly until further orders.

THE TEXAS COALING.

New York, April 1—The battleship Texas is coaling for an early departure.

DECIDEDLY OMINOUS.

Washington, April 1—The summoning of naval and army officers to the cabinet meeting this afternoon is decidedly ominous.

SPANISH MINISTER TO WITHDRAW.

Washington, April 1—The senate today agreed to adjourn until Monday. An attaché of the Spanish legation says: "Senator Polo y Barnabe, the Spanish minister, will withdraw within a week." Senator Davis has been subpoenaed to attend the cabinet meetings.

ANOTHER CABINET MEETING.

Washington, April 1—The cabinet will meet again this afternoon at five o'clock. It is announced that after the meeting the president will send a message to congress as soon as he can prepare one.

Movement of the Squadron.

Fort Monroe, April 1—The Old Dominion Line has landed forty-five seamen for the cruisers Columbia and Minneapolis of the flying squadron. The first movement of the squadron was made today when, under command of Schley's orders, the Brooklyn and Massachusetts moved down from Hampton Roads.

DAVID COPPERFIELD.

At the Normal by Professor Livingston Barbour.

On next Monday night, April 4th, will be given the fifth of the series of entertainments at the State Normal and Industrial College, by Prof. Livingston Barbour, of Rutgers College. He will present Charles Dickens' masterpiece, David Copperfield. It is not a lecture, but a series of impersonations of the different characters in that touching story. As he assembles the characters in each act he impersonates them, telling the story in their own language and with all the peculiarities of manner with which the great novelist endowed them. The entertainment will be one of exceptional pleasure, as well as instruction, and the Normal and our people generally are to be congratulated. The following paragraph is taken from the Philadelphia Press:

"The rendering of 'David Copperfield' by Professor Barbour, of Rutgers college, on Friday evening last in the lecture room of the Reformed church, of Port Richmond, afforded one of the most delightful entertainments of the season to the goodly number assembled. They were entranced by the remarkable impersonations. The room was perfectly still until at the end of each act there followed the most rapturous applause. David and Uriah Heep, and Peggotty and Micawber and little Emily seemed to be really alive and in animated discourse. The humorous and the pathetic were each of them given with rare ability. The dramatization was by the professor himself, and betokened skill in that line and a nice appreciation of what parts were best to represent. An hour and a half was occupied in a manner long to be most agreeably remembered."

TO PROVISION HAVANA.

Three Months Supply of Food and 50,000 Tons of Coal.

Havana, March 31—It is asserted on good authority that the government at Madrid and the local government have determined to provision Havana city for three months, as against a possible blockade of the port by the American fleet. It was also decided to bring 50,000 tons of coal to Cuba as soon as possible. A strong effort will be made to get a portion of the coal, at least, but the provision question has been, to all appearances, dropped.

A Large Catch of Fish.

The largest catch of fish this season was made by Mr. Hellen Huff last night a few miles down the Neuse river. He caught 30,000 croakers in two hauls of the seine. He loaded his boat down but was only able to bring half of them, the balance he threw overboard and on the river bank.

UNITED STATES SNUBBED.

Cuba And Not Uncle Sam Must Ask For Armistice.

QUEEN OF SPAIN TO VICTORIA.

Wants Great Britain to Support Austria and France in Their Attempt at Mediation.

By Cable to THE TELEGRAM.

London, April 1—The Times prints a second extra edition this morning for the purpose of publishing a dispatch from Madrid outlining the proposal of Spain. The substance of the Spanish proposal is that the insurgents, and not the United States, shall ask for an armistice and that the Autonomist Cuban cabinet shall deal with the proposal without any intervention of the good offices of the American government.

APPEAL TO QUEEN VICTORIA.

London, April 1—Queen Victoria has been implored by the Queen of Spain to use her influence with the British government to support Austria and France in an attempt to secure European mediation.

"DOWN WITH US," THEY CRY.

Madrid, April 1—President McKinley's reply is anxiously awaited. It is expected late today and it is thought the reply must settle the present affairs positively and immediately. Large crowds are congregated in all public places awaiting the same in a state of the greatest excitement and amid loud cheers of "Down with the United States."

A MADRID OPINION.

Madrid, April 1—According to the best information obtainable Spain has definitely and fully resolved not to make any further concessions to the United States.

The opinion is expressed, however, that an agreement between the Spanish government and the United States will be reached which will include the Maine and the reconcentrados question. This means durable peace in Cuba. It is stated that the Cuban government, under Blanco, is in complete accord with the Peninsular government and will assist in the work of obtaining peace. Those who are best informed express a belief that peace is assured unless Mr. McKinley's hands are forced, making him depart from the calm attitude which he has assumed throughout.

SPAIN BUYS A CRUISER.

Madrid, April 1—The agents of the Spanish government today secured the Italian cruiser, Carlo Alberti, which the United States sought to purchase. The negotiations were completed today.

BOATS BOUND FOR CUBA.

PROVIDING AGAINST BLOCKADE.

Havana, April 1—The Spanish government has determined to place three months' provisions in this city against a possible blockade being formed. Fifty thousand tons of coal will be sent here as soon as possible.

NEWS STOPPED BY CENSOR.

Havana, April 1—The Vizcaya and Aquenda have sailed. Further news in regard to the sailing has been stopped by the censor.

Mr. Reed's Joke.

Recently Speaker Reed wished to see a man on some pending legislation and telegraphed for him to come to Washington. The man took the first train available, but a washout on the road made it impossible for the train to proceed further towards its destination. Going to a telegraph station he sent this dispatch to the Speaker: "Washout on the line. Can't come." When Reed read the message he sent back this reply: "Buy a new shirt and come anyway."—Pittsburg Dispatch.

"Do You Know?"

This aggregation amusement and comedy was presented by the Edwin Travers Company to a good audience at the Academy last night, and "do you know" it was one of the funniest, brightest comedies presented here this season. It was played with vim and energy and the audience was highly entertained and pleased.

A Broken Buggy.

A serious accident was narrowly averted yesterday afternoon at the ball grounds. As a party was leaving in a buggy, the horse became unruly and succeeded in turning over and breaking up the vehicle and spilling the occupants. It created quite a little excitement and fortunately none of those in the buggy were hurt. The buggy had to be left behind and the occupants had to walk home.

More Accurate Service in Greensboro Than Baltimore

Mr. C. M. Vanstony had his little girl's eyes examined in Baltimore last year and went with the prescription to one of the largest and best known optical houses there to have the glasses made up. FORTUNATELY one of the lenses got broken recently and was carried to the Greensboro Eye Specialist to be replaced. He saw at a glance that neither lens accorded with the prescription, and so changed them both. Mr. Vanstony sent the old lenses with an explanation to the oculist who had given the prescription and in reply received the following:
