Attention Flower Lovers.

The ladies of West Market street church Aid Society would announce to the public, especially to all lovers of flowers, that they have completed their arrangements for another chrysanthemum show next fall. They believe this will be a welcome announcement to those who remember the beautiful display of last fall; and they feel sure that with the co-operation of those interested in floriculture they can surpass in beauty and variety that exhibition.

While the chrysanthemum will be the principal feature of the exhibition they have decided to add variety and interest by offering valuable prizes for begonias, dahlias, ornamental plants, and geraniums; and in cut flowers prizes will be offered for chrysanthemums, roses, dahlias, and pansies.

Through the liberality of the business men of Greensboro and vicinity they are enabled to offer about one hundred dollars worth of prizes consisting of ornamental and useful household articles, articles of dress, and valuable collections of palms, evergreens, flowering shrubs, roses, etc.

SKETCH OF ENSIGN BAGLEY.

His Family Live in Raleigh Where His Remains Will Be Buried.

Washington, May 12—To North Carolina is accorded the melancholy honor of giving up the first life in the war with Spain, in the person of Ensign Bagley, of the Winslow.

He was well known and highly respected. Ensign Bagley was appointed to the Naval Academy in September, 1891, from the Fourth (Raleigh) District, North Carolina.

He graduated June 30, 1897, and was appointed Ensign on the day following. While cadet attached to the Academy he was assigned to make cruises on the Texas, Montgomery, Indiana and Maine.

Upon being appointed Ensign, last July, he was assigned to duty on the Indiana, but in the following month was ordered to the Maine.

He served on the ship until November 23d last, when he was transferred to the Columbia Iron Works for duty in connection with the Winslow.

When the Winslow, which was being constructed at that time, was completed he was attached to her and remained so until the moment of his death.

Ensign Bagley was a classmate to Ensign Breckinridge, son of General J. C. Breckinridge, who lost his life by being swept from the deck of the Cushing, and was one of the pallbearers at the funeral of that unfortunate young man.

He was 25 years of age, was of athletic build and inclination.

He had made a great record as a football player at Annapolis, and was regarded as a "star man" during two or three seasons.

He was extremely popular at the academy and enjoyed similar esteem wherever he was known.

Worth Bagley was the eldest son of the late Maj. William H. Bagley, for so many years the esteemed clerk of the supreme court of this state. His grandfather on his mother's side was the late Gov. Jonathan Worth, so well remembered and loved by the older citizens. His brother-in-law, Mr. Joseph Daniels, is the editor of our morning contemporary, the News and Observer, while his brother Henry is the editor of the Times-Visitor, of this city. Two other sisters, Miss Belle and Miss Ethel, and young David, are also associated in this heart-breaking sorrow.—Raleigh Post.

SMASHED TO SMITHEREENS

San Juan Reduced By Sampson's Squadron.

DAMAGE TO AMERICANS SLIGHT.

More Arms and Ammunition For Insurgents Landed After a Sharp Conflict.

By Cable to THE TELEGRAM.

St. Thomas, May 13—An advance report of the bombardment of San Juan de Puerto Rico to the New York Journal says that Seaman Witmark was killed and four of those aboard the flagship New York were wounded. A shell from the New York tore the roof completely off the palace of Governor General Machias, but he heroically remained at his post vainly endeavoring to rally the panic stricken Spaniards.

The Spanish torpedo boat destroyers Terror and Furor, which were reported a few days ago at Cadiz, have arrived at Fort de France, Martinique.

San Juan is situated on the northern coast of Porto Rico. It has about 30,000 population and was garrisoned by 3,566 regular troops. It is situated on a rocky peninsula rising out of the water about 200 feet. The place was strongly fortified, apparently, but the fortifications were somewhat antiquated. It is the best kept Spanish city in the world. The population of Porto Rico is 809,000.

FLEET AT MARTINIQUE.

London, May 13—Lloyd's agents at Martinique confirm the report that the Cape Verde Fleet is now at Fort de France, on the Martinique Island. This island is one of the Windward Islands or Lesser Antilles and is situated just north of Venezuela.

SAN JUAN SURRENDERS.

St. Thomas, May 13—San Juan de Puerto Rico has surrendered to Rear Admiral Sampson's fleet.

The fleet of Sampson is composed of the battleships Indiana and Iowa, the cruisers New York, (Sampson's flagship), Montgomery, Detroit and Marblehead, the monitors Terror and Amphitrite and several smaller vessels.

SAMPSON SMASHED 'EM.

St. Thomas, (Danish, West Indies,) May 13—Sampson thoroughly smashed the defenses of San Juan. Leaving only enough of his fleet to blockade the port, he is cruising about the island with his iron clads on the lookout for the Cape Verde squadron, which is reported to be at Martinique, in the French West Indies. It is thought here that the decisive naval battle of the war will be fought today or tomorrow since the Spanish squadron cannot remain longer at Martinique. Sampson is reported to have plenty of ammunition and coal and the efficiency of his fleet has not been impaired by the bombardment of San Juan.

LONDON CONFINES SURRENDER.

London, May 13—The evening News publishes a dispatch from St. Thomas in which it is announced that San Juan de Puerto Rico surrendered to Admiral Sampson, of the American navy, last evening at 6 o'clock.

EXPEDITION LANDED.

Key West, May 13—The transport Gussie successfully landed an important American expedition at Cabanas yesterday. The landing was effected only after a lively engagement with the Spaniards.

LANDING MORE ARMS.

Key West, May 13—The transport Gussie landed 7000 rifles and a quantity of ammunition at Cabanas yesterday under protection of the auxiliary gunboats Wasp and Manning. The Spaniards fired heavily on the landing party but did no damage beyond wounding one American in the arm. The arms and ammunition were delivered safely to the insurgents who are massing rapidly to attack Havana in the rear so soon as the bombardment begins.

"Lurline, the water queen," who has just died in London, was the sensation of three continents ten years ago, at which time she had \$50,000, every cent of which was made on the exhibition stage. Lurline was a Boston girl and her real name was Sallie Swift. It is said that she would have been alive today had she used water internally as well as externally.

LIEUTENANT SETTLE PROMOTED.

He is Now Assistant Adjutant General.
